Business Development Company (BDC) Background

Created by Congress in 1980 through the Small Business Investment Incentive Act of 1980 to facilitate the flow of capital to small and midsized U.S. businesses

Highly regulated by the Securities and Exchange Commission under the Investment Company Act of 1940 (1940 Act)

Provide a way for individual investors to participate in equity and debt investments in private companies

Leverage

- Regulatory restrictions on debt leverage levels require BDCs to maintain conservative leverage
- Must maintain an asset to debt coverage ratio of at least 1.5x

Full Transparency

- Detailed schedule of all investments (and related key terms) in quarterly reporting
- · Quarterly fair value mark to market accounting

Income Tax Treatment

- As a Regulated Investment Company (RIC), BDCs generally do not pay corporate income taxes
- To maintain RIC status and avoid paying corporate income taxes, BDCs must distribute at least 90% of taxable income (other than net capital gain) to investors
- To avoid a 4% federal excise tax on undistributed income, BDCs must distribute in each calendar year the sum of (1) 98% of their net ordinary income for the calendar year and (2) 98.2% of their realized capital gains (both long-term and short-term)
- Tax treatment is similar to Real Estate Investment Trusts (REITs)

Conservative Leverage - Regulatory

Passage of the Small Business Credit Availability Act in December 2017 provided the opportunity for BDCs to obtain board or shareholder approval to access additional leverage by lowering the required asset coverage to

MAIN received shareholder approval, effective as of May 3, 2022, to adopt the 1.50x asset coverage ratio

MAIN has historically operated at conservative regulatory leverage levels, in all cases with significant cushion to the 1.50x regulatory limits, and proven through historical performance that MAIN does not require access to additional leverage to generate market leading returns

Interest Rate Impact and Sensitivity

While MAIN's financial results are subject to impact from changes in interest rates, upside is greater than downside due to majority fixed rate debt obligations and majority floating rate debt investments with minimum interest rate floors

- 80% of MAIN's outstanding debt obligations have fixed interest rates⁽⁵⁾, limiting the increase in interest expense
- 75% of MAIN's debt investments bear interest at floating rates⁽⁵⁾, the majority of which contain contractual minimum index rates, or "interest rate floors" (weighted-average floor of approximately 105 basis points)⁽⁶⁾
- Provides MAIN the opportunity to achieve significant increases in net investment income if interest rates increase, with limited remaining negative impact

The following table illustrates the approximate annual changes in the components of MAIN's net investment income due to hypothetical increases (decreases) in interest rates⁽¹⁾⁽²⁾ (dollars in thousands, except per share data):

At-The-Market (ATM) Equity Program

ATM Equity Program provides efficient, low cost capital

- Provides permanent capital to match growth of LMM investments on an as-needed basis
- Provides significant economic cost savings compared to traditional overnight equity offerings

Provides permanent capital to match indefinite or long-term holding period for LMM investments

Facilitates maintenance of conservative leverage position

Issued equity is accretive to NAV per share

Provides significant benefits vs traditional overnight equity offerings

- Provides equity capital and liquidity on an as-needed basis, avoiding dilution from larger overnight equity offerings
- · Provides equity capital at significantly lower cost
- · Avoids negative impact to stock price from larger overnight equity offerings

Raised net proceeds of \$705.2 million since inception in 2015(1)

- Average sale price is approximately 64% above average NAV per share over same period⁽¹⁾
- Resulted in economic cost savings of approximately \$35.7 million when compared to traditional overnight equity offering (1)(2)

Main Street Capital Corporation NYSE: MAIN

⁽¹⁾ Through June 30, 2022

⁽²⁾ Assumes 6% all-in cost for traditional overnight equity offering

LMM Investment Strategy

LMM investment strategy differentiates MAIN from its competitors and provides attractive riskadjusted returns

Investment Objectives

- High cash yield from secured debt investments (10.9% weightedaverage cash coupon as of June 30, 2022); plus
- Dividend income and periodic capital gains from equity investments

Investments are structured for (i) protection of capital, (ii) high recurring income and (iii) meaningful capital gain opportunity

Focus on self-sponsored, "one stop" financing opportunities

- Partner with business owners, management teams and entrepreneurs
- · Provide highly customized financing solutions
- Recapitalization, buyout, growth and acquisition capital
- · Extensive network of grass roots referral sources
- Strong and growing "Main Street" brand recognition / reputation

Investments have low correlation to the broader debt and equity markets and attractive risk-adjusted returns

LMM Investment Opportunity

MAIN targets LMM investments in established, profitable companies

Characteristics of LMM provide beneficial riskreward investment opportunities

Large and critical portion of U.S. economy

195,000+ domestic LMM businesses⁽¹⁾

LMM is under-served from a capital perspective and less competitive

Inefficient asset class generates pricing inefficiencies

- Typical entry enterprise values between 4.5X 6.5X EBITDA
- Typical entry leverage multiples between 2.0X 4.0X EBITDA to MAIN debt investment

Partner relationship with the management teams of our portfolio companies vs. a "commoditized vendor of capital"

Private Loan Investment Strategy

Private Loan portfolio investments are primarily debt investments in privately held companies which have been originated directly by MAIN or through strategic relationships with other credit funds on a collaborative basis, and are often referred to in the debt markets as "club deals"

Investment Objectives

- Access proprietary investments with attractive risk-adjusted return characteristics
- · Generate cash yield to support MAIN monthly dividend

Investment Characteristics

- Investments in companies that are consistent with the size of companies in our LMM and Middle Market portfolios
- Proprietary investments originated directly by MAIN or through strategic relationships with other investment funds on a collaborative basis
- Current Private Loan portfolio companies have weighted-average EBITDA of approximately \$41.2 million⁽¹⁾

Investments in secured debt investments

- · First lien, senior secured debt investments
- · Floating rate debt investments

8% - 12% targeted gross yields

- Weighted-average effective yield of 8.5%⁽²⁾
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide matching with MAIN's floating rate Credit Facility
- (1) This calculation excludes three Private Loan portfolio companies as EBITDA is not a meaningful metric for these portfolio companies
- (2) Weighted-average effective yield is calculated using the applicable interest rate as of June 30, 2022 and includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

Middle Market Debt Investment Strategy

MAIN maintains a portfolio of debt investments in Middle Market companies

Investment Objective

· Generate cash yield to support MAIN monthly dividend

Investments in secured and/or rated debt investments

- · First lien, senior secured debt investments
- · Floating rate debt investments

Larger companies than the LMM investment strategy

 Current Middle Market portfolio companies have weighted-average EBITDA of approximately \$71.4 million

Large and critical portion of U.S. economy

220,000+ domestic Middle Market businesses⁽¹⁾

More relative liquidity than LMM and Private Loan investments

6% - 10% targeted gross yields

- Weighted-average effective yield of 8.0%⁽²⁾
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide matching with MAIN's floating rate Credit Facility
- (1) Source: U.S. Census 2017 U.S. Data Table by Enterprise Receipt Size; 2017 County Business Patterns and 2017 Economic Census; includes Number of Firms with Enterprise Receipt Size between \$10,000,000 and \$99,999,999

Asset Management Business

MAIN's asset management business represents additional income diversification and the opportunity for greater shareholder returns

MAIN's internally managed operating structure provides MAIN's shareholders the benefits of this asset management business

Growth of asset management business is increasingly driven by MAIN's Private Loan investment strategy

MAIN⁽¹⁾ is the investment adviser to and administrator of MSC Income Fund, Inc. (MSIF), a non-listed BDC

- MAIN⁽¹⁾ provides asset management services, including sourcing, diligence and post-investment monitoring
- MAIN⁽¹⁾ receives management fees and incentive fees

 - Base management fee of 1.75% of total assets
 Incentive fees 20% of net investment income above a hurdle rate and 20% of net realized capital gains

In December 2020, MAIN launched a private fund which is also managed by MAIN(1) with an investment strategy solely focused on MAIN's Private Loan Investment strategy

Benefits to MAIN

- No significant increases to MAIN's operating costs to provide services (utilize existing infrastructure and leverage fixed costs and existing investment capabilities)
- Monetizing the value of MAIN franchise
- Significant positive impact on MAIN's financial results
 - \$5.2 million contribution to net investment income in the second quarter of 2022(2)
 - \$10.2 million contribution to net investment income in the six months ended June 30, 2022(2)

Non-GAAP Information

Distributable net investment income is net investment income, as determined in accordance with U.S. generally accepted accounting principles, or U.S. GAAP, excluding the impact of share-based compensation expense and deferred compensation expense or benefit (as defined below) which are non-cash in nature. MAIN believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure of information for analyzing its financial performance since share-based compensation does not require settlement in cash and deferred compensation expense or benefit does not result in a net cash impact to Main Street upon settlement. The unrealized appreciation in the fair value of deferred compensation plan assets results in a corresponding increase in deferred compensation obligations and results in an increase in compensation expense ("deferred compensation expense"). The unrealized depreciation of such assets results in a corresponding decrease in deferred compensation obligations and results in a decrease in compensation expense ("deferred compensation benefit"). However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income and other earnings measures presented in accordance with U.S. GAAP, Instead, distributable net investment income should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Net Debt to NAV Ratio is calculated as the Debt to NAV Ratio as determined in accordance with U.S. GAAP, except that total debt is reduced by cash and cash equivalents. The Non-SBIC Debt to NAV Ratio is calculated in the same manner as the Debt to NAV Ratio, except that outstanding SBIC debentures are excluded from the debt pursuant to an exemptive order MAIN received from the Securities and Exchange Commission. MAIN believes presenting the Net Debt to NAV Ratio is useful and appropriate supplemental disclosure for analyzing its financial position and leverage. MAIN believes presenting the Non-SBIC Debt to NAV Ratio is useful and appropriate supplemental disclosure because Main Street, a business development company, is permitted to exclude such borrowings from its regulatory asset coverage ratio calculation pursuant to an exemptive order received from the Securities and Exchange Commission. However, the Net Debt to NAV Ratio and the Non-SBIC Debt to NAV Ratio are non-U.S. GAAP measures and should not be considered as replacements for the Debt to NAV Ratio and other financial measures presented in accordance with U.S. GAAP. Instead, the Net Debt to NAV Ratio and the Non-SBIC Debt to NAV Ratio should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial position.
