(1) All investments are LMM (as defined below) portfolio investments, unless otherwise noted. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of LMM portfolio investments. All of the Company’s investments, unless otherwise noted, are encumbered either as security for

MAIN STREET CAPITAL CORPORATION
Consolidated Schedule of Investments (Continued)
September 30, 2025
(dollars in thousands)
(Unaudited)

- the Corporate Facility or SPV Facility (each as defined below) or in support of the debentures guaranteed by the SBA (as defined below) and issued by the Funds (as defined below).
- (2) Debt investments are income producing, unless otherwise noted by footnote (14), as described below. Equity and warrants are non-income producing, unless otherwise noted by footnote (8), as described below.
 - (3) See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* and Schedule 12-14 for a summary of geographic location of portfolio companies.
 - (4) Principal is net of repayments. Cost is net of repayments and accumulated unearned income. Negative cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
 - (5) “Control” investments are defined by the 1940 Act as investments in which more than 25% of the voting securities are owned or where the ability to nominate greater than 50% of the board representation is maintained.
 - (6) “Affiliate” investments are defined by the 1940 Act as investments in which between 5% and 25% (inclusive) of the voting securities are owned and the investments are not classified as Control investments.
 - (7) “Non-Control/Non-Affiliate” investments are defined by the 1940 Act as investments that are neither Control investments nor Affiliate investments.
 - (8) Income producing through dividends or distributions.
 - (9) Index based floating interest rate is subject to contractual minimum interest rate. As noted in this schedule, 96% of the loans (based on the par amount) contain Term Secured Overnight Financing Rate (“SOFR”) floors which range between 0.50% and 5.25%, with a weighted-average floor of 1.30%.
 - (10) Private Loan (as defined below) portfolio investment. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of Private Loan portfolio investments.
 - (11) Middle Market (as defined below) portfolio investment. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of Middle Market portfolio investments.
 - (12) Other Portfolio investment. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of Other Portfolio investments.
 - (13) Investment is not a qualifying asset as defined under Section 55(a) of the 1940 Act. Qualifying assets must represent at least 70% of total assets at the time of acquisition of any additional non-qualifying assets.
 - (14) Non-accrual and non-income producing debt investment.
 - (15) All of the Company’s portfolio investments are generally subject to restrictions on resale as “restricted securities.”
 - (16) External Investment Manager (as defined below). Investment is not encumbered as security for the Credit Facilities (as defined below) or in support of the SBA-guaranteed debentures issued by the Funds.
 - (17) Maturity date is under on-going negotiations with the portfolio company and other lenders, if applicable.
 - (18) Investment Fair Value was determined using significant unobservable inputs, unless otherwise noted. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for further discussion. Negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being valued below par.
 - (19) Investments may have a portion, or all, of their income received from Paid-in-Kind (“PIK”) interest or dividends. PIK interest income and cumulative dividend income represent income not paid currently in cash. The difference between the Total Rate and PIK Rate represents the cash rate as of September 30, 2025.
 - (20) All portfolio company headquarters are based in the United States, unless otherwise noted.
 - (21) Portfolio company headquarters are located outside of the United States.
 - (22) The Company has entered into an intercreditor agreement that entitles the Company to the “last out” tranche of the first lien secured loans, whereby the “first out” tranche will receive priority as to the “last out” tranche with respect to payments of principal, interest, and any other amounts due thereunder. Therefore, the

MAIN STREET CAPITAL CORPORATION
Consolidated Schedule of Investments (Continued)
September 30, 2025
(dollars in thousands)
(Unaudited)

- Company receives a higher interest rate than the contractual stated interest rate of SOFR+6.50% (Floor 1.50%) per the credit agreement and the Consolidated Schedule of Investments above reflects such higher rate.
- (23) The Company has entered into an intercreditor agreement that entitles the Company to the “last out” tranche of the first lien secured loans, whereby the “first out” tranche will receive priority as to the “last out” tranche with respect to payments of principal, interest, and any other amounts due thereunder. Therefore, the Company receives a higher interest rate than the contractual stated interest rate of 11.85% per the credit agreement and the Consolidated Schedule of Investments above reflects such higher rate.
- (24) Investment Date represents the date of initial investment in the security position.
- (25) The position is unfunded and no interest income is being earned as of September 30, 2025. The position may earn a nominal unused facility fee on committed amounts.
- (26) Each new draw or funding on the facility has a different floating rate reset date. The rate presented represents a weighted-average rate for borrowings under the facility, as of September 30, 2025.
- (27) Warrants are presented in equivalent shares/units with a strike price of \$0.01 per share/unit.
- (28) A majority of the variable rate loans in the Investment Portfolio (as defined below) bear interest at a rate that may be determined by reference to either SOFR (“SF”) or an alternate base rate (commonly based on the federal funds rate or the prime rate (“P”)), which typically resets every one, three, or six months at the borrower’s option. SOFR based contracts may include a credit spread adjustment (the “Adjustment”) that is charged in addition to the stated spread. The Adjustment is applied when the SOFR, plus the Adjustment, exceeds the stated floor rate, as applicable. As of September 30, 2025, SOFR based contracts in the portfolio had Adjustments ranging from 0.10% to 0.26%.
- (29) Shares/Units represent ownership in a related real estate or holding entity.
- (30) Investment is not unitized. Presentation is made in percent of fully diluted ownership unless otherwise indicated.
- (31) Effective yield as of September 30, 2025 was approximately 3.77% on the Fidelity Treasury.
- (32) Revolving line of credit facility permits the borrower to make an interest rate election regarding the base rate on each draw under the facility. The rate presented represents a weighted-average rate for borrowings under the facility, as of September 30, 2025.
- (33) Index based floating interest rate is subject to contractual maximum base rate of 3.00%.
- (34) Index based floating interest rate is subject to contractual maximum base rate of 4.00%.
- (35) Investment is accruing income at the fixed cash rate of 2.50% as of September 30, 2025.
- (36) Effective yield as of September 30, 2025 was approximately 4.12% on the Dreyfus Government Cash Management.
- (37) Effective yield as of September 30, 2025 was approximately 3.80% on the Fidelity Government Fund.
- (38) Investment purchased through a distressed sale with the intention to be sold on a short-term basis.

	Fidelity Treasury (31)									1,548	1,548
	Total money market funds								\$	6,474	\$ 6,474

- (1) All investments are LMM portfolio investments, unless otherwise noted. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of LMM portfolio investments. All of the Company’s investments, unless otherwise noted, are encumbered either as security for the Corporate Facility or SPV Facility or in support of the debentures guaranteed by the SBA and issued by the Funds.
- (2) Debt investments are income producing, unless otherwise noted by footnote (14), as described below. Equity and warrants are non-income producing, unless otherwise noted by footnote (8), as described below.
- (3) See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* and Schedule 12-14 for a summary of geographic location of portfolio companies.
- (4) Principal is net of repayments. Cost is net of repayments and accumulated unearned income. Negative cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (5) “Control” investments are defined by the 1940 Act as investments in which more than 25% of the voting securities are owned or where the ability to nominate greater than 50% of the board representation is maintained.
- (6) “Affiliate” investments are defined by the 1940 Act as investments in which between 5% and 25% (inclusive) of the voting securities are owned and the investments are not classified as Control investments.
- (7) “Non-Control/Non-Affiliate” investments are defined by the 1940 Act as investments that are neither Control investments nor Affiliate investments.
- (8) Income producing through dividends or distributions.
- (9) Index based floating interest rate is subject to contractual minimum interest rate. As noted in this schedule, 95% of the loans (based on the par amount) contain Term SOFR floors which range between 0.50% and 5.25%, with a weighted-average floor of 1.32%.
- (10) Private Loan portfolio investment. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of Private Loan portfolio investments.
- (11) Middle Market portfolio investment. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of Middle Market portfolio investments.
- (12) Other Portfolio investment. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for a description of Other Portfolio investments.
- (13) Investment is not a qualifying asset as defined under Section 55(a) of the 1940 Act. Qualifying assets must represent at least 70% of total assets at the time of acquisition of any additional non-qualifying assets.
- (14) Non-accrual and non-income producing debt investment.
- (15) All of the Company’s portfolio investments are generally subject to restrictions on resale as “restricted securities.”
- (16) External Investment Manager. Investment is not encumbered as security for the Credit Facilities or in support of the SBA-guaranteed debentures issued by the Funds.
- (17) Maturity date is under on-going negotiations with the portfolio company and other lenders, if applicable.

MAIN STREET CAPITAL CORPORATION
Consolidated Schedule of Investments (Continued)
December 31, 2024
(dollars in thousands)

- (18) Investment Fair Value was determined using significant unobservable inputs, unless otherwise noted. See *Note C — Fair Value Hierarchy for Investments — Portfolio Composition* for further discussion. Negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being valued below par.
- (19) Investments may have a portion, or all, of their income received from PIK interest or dividends. PIK interest income and cumulative dividend income represent income not paid currently in cash. The difference between the Total Rate and PIK Rate represents the cash rate as of December 31, 2024.
- (20) All portfolio company headquarters are based in the United States, unless otherwise noted.
- (21) Portfolio company headquarters are located outside of the United States.
- (22) The Company has entered into an intercreditor agreement that entitles the Company to the “last out” tranche of the first lien secured loans, whereby the “first out” tranche will receive priority as to the “last out” tranche with respect to payments of principal, interest, and any other amounts due thereunder. Therefore, the Company receives a higher interest rate than the contractual stated interest rate of SOFR+7.00% (Floor 1.50%) per the credit agreement and the Consolidated Schedule of Investments above reflects such higher rate.
- (23) The Company has entered into an intercreditor agreement that entitles the Company to the “last out” tranche of the first lien secured loans, whereby the “first out” tranche will receive priority as to the “last out” tranche with respect to payments of principal, interest, and any other amounts due thereunder. Therefore, the Company receives a higher interest rate than the contractual stated interest rate of 11.75% per the credit agreement and the Consolidated Schedule of Investments above reflects such higher rate.
- (24) Investment Date represents the date of initial investment in the security position.
- (25) The position is unfunded and no interest income is being earned as of December 31, 2024. The position may earn a nominal unused facility fee on committed amounts.
- (26) Each new draw or funding on the facility has a different floating rate reset date. The rate presented represents a weighted-average rate for borrowings under the facility, as of December 31, 2024.
- (27) Warrants are presented in equivalent shares/units with a strike price of \$0.01 per share/unit.
- (28) A majority of the variable rate loans in the Investment Portfolio bear interest at a rate that may be determined by reference to either SOFR (“SF”) or an alternate base rate (commonly based on the federal funds rate or the prime rate (“P”)), which typically resets every one, three, or six months at the borrower’s option. SOFR based contracts may include a credit spread adjustment (the “Adjustment”) that is charged in addition to the stated spread. The Adjustment is applied when the SOFR, plus the Adjustment, exceeds the stated floor rate, as applicable. As of December 31, 2024, SOFR based contracts in the portfolio had Adjustments ranging from 0.10% to 0.26%.
- (29) Shares/Units represent ownership in a related real estate or holding entity.
- (30) Investment is not unitized. Presentation is made in percent of fully diluted ownership unless otherwise indicated.
- (31) Effective yield as of December 31, 2024 was approximately 4.10% on the Fidelity Treasury.
- (32) Revolving line of credit facility permits the borrower to make an interest rate election regarding the base rate on each draw under the facility. The rate presented represents a weighted-average rate for borrowings under the facility, as of December 31, 2024.
- (33) Index based floating interest rate is subject to contractual maximum base rate of 3.00%.
- (34) Index based floating interest rate is subject to contractual maximum base rate of 1.50%.
- (35) Warrants are presented in equivalent shares/units with a strike price of \$1.00 per share/unit.
- (36) Effective yield as of December 31, 2024 was approximately 4.43% on the Dreyfus Government Cash Management.
- (37) Effective yield as of December 31, 2024 was approximately 4.14% on the Fidelity Government Fund.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements

(Unaudited)

NOTE A — ORGANIZATION AND BASIS OF PRESENTATION

1. Organization

Main Street Capital Corporation (“MSCC” or, together with its consolidated subsidiaries, “Main Street” or the “Company”) is a principal investment firm primarily focused on providing customized long-term debt and equity capital solutions to lower middle market (“LMM”) companies (its “LMM investment strategy”) and debt capital to private (“Private Loan”) companies owned by or in the process of being acquired by a private equity fund (its “Private Loan investment strategy”). Main Street’s portfolio investments are typically made to support management buyouts, recapitalizations, growth financings, refinancings and acquisitions of companies that operate in diverse industry sectors. Main Street seeks to partner with entrepreneurs, business owners and management teams and generally provides “one-stop” debt and equity financing solutions within its LMM investment strategy. Main Street invests primarily in secured debt investments, equity investments, warrants and other securities of LMM companies typically based in the United States. Main Street also seeks to partner with private equity fund sponsors in its Private Loan investment strategy and primarily invests in secured debt investments of Private Loan companies generally headquartered in the United States.

Main Street also maintains a legacy portfolio of investments in larger middle market (“Middle Market”) companies (its “Middle Market investment portfolio”) and a limited portfolio of other portfolio (“Other Portfolio”) investments. Main Street’s Middle Market investments are generally debt investments in companies owned by a private equity fund that were originally issued through a syndication financing process. Main Street has generally stopped making new Middle Market investments and expects the size of its Middle Market investment portfolio to continue to decline in future periods as its existing Middle Market investments are repaid or sold. Main Street’s Other Portfolio investments primarily consist of investments that are not consistent with the typical profiles for its LMM, Private Loan or Middle Market portfolio investments, including investments in unaffiliated investment companies and private funds managed by third parties.

The “Investment Portfolio,” as used herein, refers to all of Main Street’s investments in LMM portfolio companies, investments in Private Loan portfolio companies, investments in Middle Market portfolio companies, Other Portfolio investments, short-term portfolio investments (as discussed in *Note C — Fair Value Hierarchy for Investments — Portfolio Composition — Investment Portfolio Composition*) and the investment in the External Investment Manager (as defined below).

MSCC was formed in March 2007 to operate as an internally managed business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). Because MSCC is internally managed, all of the executive officers and other employees are employed by MSCC. Therefore, MSCC does not pay any external investment advisory fees, but instead directly incurs the operating costs associated with employing investment and portfolio management professionals.

MSCC wholly owns several investment funds, including Main Street Mezzanine Fund, LP (“MSMF”) and Main Street Capital III, LP (“MSC III”) and, together with MSMF, the “Funds”), and each of their general partners. The Funds are each licensed as a Small Business Investment Company (“SBIC”) by the United States Small Business Administration (“SBA”).

MSC Adviser I, LLC (the “External Investment Manager”) was formed in November 2013 as a wholly-owned subsidiary of Main Street to provide investment management and other services to parties other than Main Street (“External Parties”) and earns fee income for such services. MSCC has been granted no-action relief by the Securities and Exchange Commission (“SEC”) to allow the External Investment Manager to register as a registered investment adviser under the Investment Advisers Act of 1940, as amended. Since the External Investment Manager conducts all of its investment management activities for External Parties, it is accounted for as a portfolio investment of Main Street and is not included as a consolidated subsidiary in Main Street’s consolidated financial statements.

MSCC has elected to be treated for U.S. federal income tax purposes as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). As a result, MSCC generally does not pay corporate-level U.S. federal income taxes on any net ordinary taxable income or capital gains that it distributes to its stockholders.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

MSCC has certain direct and indirect wholly-owned subsidiaries that have elected to be taxable entities (the “Taxable Subsidiaries”). The primary purpose of the Taxable Subsidiaries is to permit MSCC to hold equity investments in portfolio companies which are “pass-through” entities for tax purposes. MSCC also has certain direct and indirect wholly-owned subsidiaries formed for financing purposes (the “Structured Subsidiaries”).

Unless otherwise noted or the context otherwise indicates, the terms the “Company” and “Main Street” refer to MSCC and its consolidated subsidiaries, which include the Funds, the Taxable Subsidiaries and the Structured Subsidiaries.

2. Basis of Presentation

Main Street’s consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”). The Company is an investment company following accounting and reporting guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 946, *Financial Services—Investment Companies* (“ASC 946”). For each of the periods presented herein, Main Street’s consolidated financial statements include the accounts of MSCC and its consolidated subsidiaries. Main Street’s results of operations for the three and nine months ended September 30, 2025 and 2024, cash flows for the nine months ended September 30, 2025 and 2024 and financial position as of September 30, 2025 and December 31, 2024 are presented on a consolidated basis. The effects of all intercompany transactions between MSCC and its consolidated subsidiaries have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements of Main Street are presented in conformity with U.S. GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6, 10 and 12 of Regulation S-X. Accordingly, certain disclosures accompanying annual consolidated financial statements prepared in accordance with U.S. GAAP are omitted. The unaudited consolidated financial statements and notes should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2024. In the opinion of management, the unaudited consolidated financial results included herein contain all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of financial statements for the interim periods included herein. The results of operations for the three and nine months ended September 30, 2025 are not necessarily indicative of the operating results to be expected for the full year. Financial statements prepared on a U.S. GAAP basis require management to make estimates and assumptions that affect the amounts and disclosures reported in the consolidated financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Principles of Consolidation

Under ASC 946, Main Street is precluded from consolidating other entities in which Main Street has equity investments, including those in which it has a controlling interest, unless the other entity is another investment company. An exception to this general principle in ASC 946 occurs if Main Street holds a controlling interest in an operating company that provides all or substantially all of its services directly to Main Street. Accordingly, as noted above, Main Street’s consolidated financial statements include the financial position and operating results for the Funds, the Taxable Subsidiaries and the Structured Subsidiaries. Main Street has determined that none of its portfolio investments qualify for this exception, including the investment in the External Investment Manager. Therefore, Main Street’s Investment Portfolio is carried on the Consolidated Balance Sheets at fair value, as discussed further in *Note B.1. — Summary of Significant Accounting Policies — Valuation of the Investment Portfolio*, with any adjustments to fair value recognized as “Net Unrealized Appreciation (Depreciation)” until the investment is realized, usually upon exit, resulting in any gain or loss being recognized as a “Net Realized Gain (Loss),” in both cases on the Consolidated Statements of Operations.

MAIN STREET CAPITAL CORPORATION
Notes to the Consolidated Financial Statements (Continued)
(Unaudited)
Portfolio Investment Classification

Main Street classifies its Investment Portfolio in accordance with the requirements of the 1940 Act. Under the 1940 Act, (a) “Control” investments are defined as investments in which Main Street owns more than 25% of the voting securities or has rights to maintain greater than 50% of the board representation, (b) “Affiliate” investments are defined as investments in which Main Street owns between 5% and 25% (inclusive) of the voting securities and does not have rights to maintain greater than 50% of the board representation and (c) “Non-Control/Non-Affiliate” investments are defined as investments that are neither Control investments nor Affiliate investments. For purposes of determining the classification of its Investment Portfolio, Main Street has excluded consideration of any voting securities or board appointment rights held by third-party investment funds advised by the External Investment Manager.

3. Revisions to the Presentation of Previously Issued Financial Statements

As of June 30, 2025, Main Street changed its tax presentation on the Consolidated Statement of Operations to voluntarily correct an immaterial error in order to comply with the applicable presentation requirements in 210.6-07 of Regulation S-X. Net investment income now includes excise tax expense and net investment income related federal and state income and other tax expenses. These revisions had no impact on net increase in net assets resulting from operations or net increase in net assets resulting from operations per share. All prior period net investment income and net investment income per share amounts presented in these consolidated financial statements and the notes thereto have been retrospectively adjusted to conform to the current presentation. The impact of the adjustments on the Consolidated Statement of Operations for the three and nine months ended September 30, 2024 is as follows:

	Three Months Ended September 30, 2024		
	As Previously Reported	Adjustments	As Revised
	(in thousands, except per share amounts)		
Net investment income before taxes	\$ 87,596	\$ —	\$ 87,596
Excise tax expense	—	(458)	(458)
Federal and state income and other tax expenses	—	(2,758)	(2,758)
Net investment income	87,596	(3,216)	84,380
Net investment income per share	\$ 1.00	\$ (0.04)	\$ 0.96
Income tax provision on net realized gain (loss) and net unrealized appreciation	\$ —	\$ (8,493)	\$ (8,493)
Total income tax (provision) benefit	\$ (11,709)	\$ 11,709	\$ —
	Nine Months Ended September 30, 2024		
	(in thousands, except per share amounts)		
Net investment income before taxes	\$ 264,706	\$ —	\$ 264,706
Excise tax expense	—	(1,652)	(1,652)
Federal and state income and other tax expenses	—	(8,340)	(8,340)
Net investment income	264,706	(9,992)	254,714
Net investment income per share	\$ 3.07	\$ (0.12)	\$ 2.95
Income tax provision on net realized gain (loss) and net unrealized appreciation	\$ —	\$ (23,727)	\$ (23,727)
Total income tax (provision) benefit	\$ (33,719)	\$ 33,719	\$ —

The adjustments also impacted the ratio of net investment income to average net asset value (“NAV”) as presented in *Note F — Financial Highlights*.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Valuation of the Investment Portfolio

Main Street accounts for its Investment Portfolio at fair value. As a result, Main Street follows the provisions of ASC 820, *Fair Value Measurements and Disclosures* (“ASC 820”). ASC 820 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. ASC 820 requires Main Street to assume that the portfolio investment is to be sold in the principal market to independent market participants, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal market that are independent, knowledgeable and willing and able to transact.

Main Street’s portfolio strategy calls for it to invest primarily in illiquid debt and equity securities issued by LMM companies and debt securities issued by Private Loan companies. Main Street also maintains a legacy portfolio of investments in Middle Market companies and a limited portfolio of Other Portfolio investments. Main Street’s portfolio may also periodically include short-term portfolio investments that are atypical of Main Street’s LMM and Private Loan portfolio investments as they are intended to be a short-term deployment of capital and are more liquid than investments within the LMM and Private Loan investment portfolios. Main Street’s portfolio investments may be subject to restrictions on resale.

LMM investments and Other Portfolio investments generally have no established trading market, while Private Loan investments may include investments which have no established market or have established markets that are not active. Middle Market and short-term portfolio investments generally have established markets that are not active. Main Street determines in good faith the fair value of its Investment Portfolio pursuant to a valuation policy in accordance with ASC 820, with such valuation process approved by its Board of Directors and in accordance with the 1940 Act. Main Street’s valuation policies and processes are intended to provide a consistent basis for determining the fair value of Main Street’s Investment Portfolio.

For LMM portfolio investments, Main Street generally reviews external events, including private mergers, sales and acquisitions involving comparable companies, and includes these events in the valuation process by using an enterprise value waterfall methodology (“Waterfall”) for its LMM equity investments and an income approach using a yield-to-maturity model (“Yield-to-Maturity”) valuation method for its LMM debt investments. For Private Loan and Middle Market portfolio investments in debt securities for which it has determined that third-party quotes or other independent pricing are not available or appropriate, Main Street generally estimates the fair value based on the assumptions that it believes hypothetical market participants would use to value the investment in a current hypothetical sale using the Yield-to-Maturity valuation method. For Middle Market and short-term portfolio investments in debt securities for which it has determined that third-party quotes or other independent prices are available, Main Street primarily uses quoted prices in the valuation process. Main Street determines the appropriateness of the use of third-party broker quotes, if any, in determining fair value based on its understanding of the level of actual transactions used by the broker to develop the quote and whether the quote was an indicative price or binding offer, the depth and consistency of broker quotes and the correlation of changes in broker quotes with underlying performance of the portfolio company and other market indices. For its Other Portfolio equity investments, Main Street generally calculates the fair value of the investment primarily based on the NAV of the fund and adjusts the fair value for other factors deemed relevant that would affect the fair value of the investment. All of the valuation approaches for Main Street’s portfolio investments estimate the value of the investment as if Main Street were to sell, or exit, the investment as of the measurement date.

These valuation approaches consider the value associated with Main Street’s ability to control the capital structure of the portfolio company, as well as the timing of a potential exit. For valuation purposes, “control” portfolio investments are composed of debt and equity securities in companies for which Main Street has a controlling interest in the equity ownership of the portfolio company or the ability to nominate a majority of the portfolio company’s board of directors. For valuation purposes, “non-control” portfolio investments are generally composed of debt and equity securities in companies for which Main Street does not have a controlling interest in the equity ownership of the portfolio company or the ability to nominate a majority of the portfolio company’s board of directors.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Under the Waterfall valuation method, Main Street estimates the enterprise value of a portfolio company using a combination of market and income approaches or other appropriate valuation methods, such as considering recent transactions in the equity securities of the portfolio company or third-party valuations of the portfolio company, and then performs a Waterfall calculation by allocating the enterprise value over the portfolio company's securities in order of their preference relative to one another. The enterprise value is the fair value at which an enterprise could be sold in a transaction between two willing parties, other than through a forced or liquidation sale. Typically, privately held companies are bought and sold based on multiples of earnings before interest, taxes, depreciation and amortization ("EBITDA"), cash flows, net income, revenues, or in limited cases, book value. There is no single methodology for estimating enterprise value. For any one portfolio company, enterprise value is generally described as a range of values from which a single estimate of enterprise value is derived. In estimating the enterprise value of a portfolio company, Main Street analyzes various factors including the portfolio company's historical and projected financial results. Due to SEC deadlines for Main Street's quarterly and annual financial reporting, the operating results of a portfolio company used in the current period valuation are generally the results from the period ended three months prior to such valuation date and may include unaudited, projected, budgeted or pro forma financial information and may require adjustments for non-recurring items or to normalize the operating results that may require significant judgment in determining. In addition, projecting future financial results requires significant judgment regarding future growth assumptions. In evaluating the operating results, Main Street also analyzes the impact of exposure to litigation, loss of customers or other contingencies. After determining the appropriate enterprise value, Main Street allocates the enterprise value to investments in order of the legal priority of the various components of the portfolio company's capital structure. In applying the Waterfall valuation method, Main Street assumes the loans are paid-off at the principal amount in a change in control transaction and are not assumed by the buyer, which Main Street believes is consistent with its past transaction history and standard industry practices.

Under the Yield-to-Maturity valuation method, Main Street also uses the income approach to determine the fair value of debt securities based on projections of the discounted future free cash flows that the debt security will likely generate, including analyzing the discounted cash flows of interest and principal amounts for the debt security, as set forth in the associated loan agreements, as well as the financial position and credit risk of the portfolio company. Main Street's estimate of the expected repayment date of its debt securities is generally the maturity date of the instrument, as Main Street generally intends to hold its loans and debt securities to maturity. The Yield-to-Maturity analysis also considers changes in leverage levels, credit quality, portfolio company performance, changes in market-based interest rates and other factors. Main Street will generally use the value determined by the Yield-to-Maturity analysis as the fair value for that security; however, because of Main Street's general intent to hold its loans to maturity, the fair value will not exceed the principal amount of the debt security valued using the Yield-to-Maturity valuation method. A change in the assumptions that Main Street uses to estimate the fair value of its debt securities using the Yield-to-Maturity valuation method could have a material impact on the determination of fair value. If there is deterioration in credit quality or if a debt security is in workout status, Main Street may consider other factors in determining the fair value of the debt security, including the value attributable to the debt security from the enterprise value of the portfolio company or the proceeds that would most likely be received in a liquidation analysis.

Under the NAV valuation method, for an investment in an investment fund that does not have a readily determinable fair value, Main Street measures the fair value of the investment predominately based on the NAV of the investment fund as of the measurement date and adjusts the investment's fair value for factors known to Main Street that would affect that fund's NAV, including, but not limited to, fair values for individual investments held by the fund if Main Street holds the same investment or for a publicly traded investment. In addition, in determining the fair value of the investment, Main Street considers whether adjustments to the NAV are necessary in certain circumstances, based on the analysis of any restrictions on redemption of Main Street's investment as of the measurement date, recent actual sales or redemptions of interests in the investment fund, and expected future cash flows available to equity holders, including the rate of return on those cash flows compared to an implied market return on equity required by market participants, or other uncertainties surrounding Main Street's ability to realize the full NAV of its interests in the investment fund.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Pursuant to its internal valuation process and the requirements under the 1940 Act, Main Street performs valuation procedures on each of its portfolio investments quarterly. In addition to its internal valuation process, in arriving at estimates of fair value for its investments in its LMM portfolio companies, Main Street, among other things, consults with a nationally recognized independent financial advisory services firm (the “Financial Advisory Firm”). The Financial Advisory Firm analyzes and provides observations, recommendations and an assurance certification regarding Main Street’s determinations of the fair value of its LMM portfolio company investments. The Financial Advisory Firm is generally consulted relative to Main Street’s investments in each LMM portfolio company at least once every calendar year, and for Main Street’s investments in new LMM portfolio companies, at least once in the twelve-month period subsequent to the initial investment. In certain instances, Main Street may determine that it is not cost-effective, and as a result is not in its stockholders’ best interest, to consult with the Financial Advisory Firm on its investments in one or more LMM portfolio companies. Such instances include, but are not limited to, situations where the fair value of Main Street’s investment in a LMM portfolio company is determined to be insignificant relative to the total Investment Portfolio. Main Street consulted with and received an assurance certification from the Financial Advisory Firm in arriving at its determination of fair value for its investments in a total of 18 and 16 LMM portfolio companies during the three months ended September 30, 2025 and 2024, respectively, representing 27% and 24% of the total LMM portfolio at fair value as of September 30, 2025 and 2024, respectively. A total of 70 LMM portfolio companies were reviewed and certified by the Financial Advisory Firm during the trailing twelve months ended September 30, 2025, representing 92% of the total LMM portfolio at fair value as of September 30, 2025. Excluding its investments in LMM portfolio companies that, as of September 30, 2025, had not been in the Investment Portfolio for at least twelve months subsequent to the initial investment or whose primary purpose is to own real estate for which a third-party appraisal is obtained on at least an annual basis, 99% of the LMM portfolio at fair value was reviewed and certified by the Financial Advisory Firm during the trailing twelve months ended September 30, 2025.

For valuation purposes, all of Main Street’s Private Loan portfolio investments are non-control investments. For Private Loan portfolio investments for which it has determined that third-party quotes or other independent pricing are not available or appropriate, Main Street generally estimates the fair value based on the assumptions that it believes hypothetical market participants would use to value such Private Loan debt investments in a current hypothetical sale using the Yield-to-Maturity valuation method and such Private Loan equity investments in a current hypothetical sale using the Waterfall valuation method.

In addition to its internal valuation process, in arriving at estimates of fair value for its investments in its Private Loan portfolio companies, Main Street, among other things, consults with the Financial Advisory Firm. The Financial Advisory Firm analyzes and provides observations, recommendations and an assurance certification regarding Main Street’s determinations of the fair value of its Private Loan portfolio company investments. The Financial Advisory Firm is generally consulted relative to Main Street’s investments in each Private Loan portfolio company at least once every calendar year, and for Main Street’s investments in new Private Loan portfolio companies, at least once in the twelve-month period subsequent to the initial investment. In certain instances, Main Street may determine that it is not cost-effective, and as a result is not in its stockholders’ best interest, to consult with the Financial Advisory Firm on its investments in one or more Private Loan portfolio companies. Such instances include, but are not limited to, situations where the fair value of Main Street’s investment in a Private Loan portfolio company is determined to be insignificant relative to the total Investment Portfolio. Main Street consulted with and received an assurance certification from the Financial Advisory Firm in arriving at its determination of fair value for its investments in a total of 14 and 17 Private Loan portfolio companies during the three months ended September 30, 2025 and 2024, respectively, representing 26% and 24% of the total Private Loan portfolio at fair value as of September 30, 2025 and 2024, respectively. A total of 63 Private Loan portfolio companies were reviewed and certified by the Financial Advisory Firm during the trailing twelve months ended September 30, 2025, representing 94% of the total Private Loan portfolio at fair value as of September 30, 2025. Excluding its investments in Private Loan portfolio companies that, as of September 30, 2025, had not been in the Investment Portfolio for at least twelve months subsequent to the initial investment, 97% of the Private Loan portfolio at fair value was reviewed and certified by the Financial Advisory Firm during the trailing twelve months ended September 30, 2025.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

For valuation purposes, all of Main Street's Middle Market portfolio investments are non-control investments. To the extent sufficient observable inputs are available to determine fair value, Main Street uses observable inputs to determine the fair value of these investments through obtaining third-party quotes or other independent pricing. For Middle Market portfolio investments for which it has determined that third-party quotes or other independent pricing are not available or appropriate, Main Street generally estimates the fair value based on the assumptions that it believes hypothetical market participants would use to value such Middle Market debt investments in a current hypothetical sale using the Yield-to-Maturity valuation method and such Middle Market equity investments in a current hypothetical sale using the Waterfall valuation method. Main Street generally consults on a limited basis with the Financial Advisory Firm in connection with determining the fair value of its Middle Market portfolio investments due to the nature of these investments. The vast majority (95% and 97% as of September 30, 2025 and December 31, 2024, respectively) of the Middle Market portfolio investments (i) are valued using third-party quotes or other independent pricing services or (ii) Main Street has consulted with and received an assurance certification from the Financial Advisory Firm within the last twelve months.

For valuation purposes, Main Street's short-term portfolio investments have historically been comprised of non-control investments. To the extent sufficient observable inputs are available to determine fair value, Main Street uses observable inputs to determine the fair value of these investments through obtaining third-party quotes or other independent pricing. Because any short-term portfolio investments are typically valued using third-party quotes or other independent pricing services, Main Street generally does not consult with any financial advisory services firms in connection with determining the fair value of its short-term portfolio investments.

For valuation purposes, all of Main Street's Other Portfolio investments are non-control investments. Main Street's Other Portfolio investments comprised 2.4% and 2.5% of Main Street's Investment Portfolio at fair value as of September 30, 2025 and December 31, 2024, respectively. Similar to the LMM investment portfolio, market quotations for Other Portfolio equity investments are generally not readily available. For its Other Portfolio equity investments, Main Street generally determines the fair value of these investments using the NAV valuation method.

For valuation purposes, Main Street's investment in the External Investment Manager is a control investment. Market quotations are not readily available for this investment, and as a result, Main Street determines the fair value of the External Investment Manager using the Waterfall valuation method under the market approach. In estimating the enterprise value, Main Street analyzes various factors, including the entity's historical and projected financial results, as well as its size, marketability and performance relative to the population of market comparables, and the valuations for comparable publicly traded companies and private transactions involving comparable companies. This valuation approach estimates the value of the investment as if Main Street were to sell, or exit, the investment. In addition, Main Street considers its ability to control the capital structure of the company, as well as the timing of a potential exit, in connection with determining the fair value of the External Investment Manager. Main Street consults with and receives an assurance certification from the Financial Advisory Firm in arriving at its determination of fair value for its investment in the External Investment Adviser on a quarterly basis, including as of September 30, 2025 and December 31, 2024.

Due to the inherent uncertainty in the valuation process, Main Street's determination of fair value for its Investment Portfolio may differ materially from the values that would have been determined had a ready market for the securities existed. In addition, changes in the market environment, portfolio company performance and other events that may occur over the lives of the investments may cause the gains or losses ultimately realized on these investments to be materially different than the valuations currently assigned. Main Street determines the fair value of each individual investment and records changes in fair value as unrealized appreciation or depreciation.

Main Street uses an internally developed portfolio investment rating system in connection with its investment oversight, portfolio management and analysis and investment valuation procedures for its LMM, Private Loan and Middle Market portfolio companies. This system takes into account both quantitative and qualitative factors of each LMM, Private Loan and Middle Market portfolio company.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Rule 2a-5 under the 1940 Act permits a BDC's board of directors to designate its executive officers or investment adviser as a valuation designee to determine the fair value for its investment portfolio, subject to the active oversight of the board. Main Street's Board of Directors has approved policies and procedures pursuant to Rule 2a-5 (the "Valuation Procedures") and has designated a group of its executive officers to serve as the Board of Directors' valuation designee. Main Street believes its Investment Portfolio as of September 30, 2025 and December 31, 2024 approximates fair value as of those dates based on the markets in which it operates and other conditions in existence on those reporting dates.

2. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results may differ from these estimates under different conditions or assumptions. Additionally, as explained in *Note B.1. — Summary of Significant Accounting Policies — Valuation of the Investment Portfolio*, the consolidated financial statements include investments in the Investment Portfolio whose values have been estimated by Main Street, pursuant to valuation policies and procedures approved and overseen by Main Street's Board of Directors, in the absence of readily ascertainable market values. Because of the inherent uncertainty of the Investment Portfolio valuations, those estimated values may differ materially from the values that would have been determined had a ready market for the securities existed.

Macroeconomic factors, including pandemics, risk of recession, inflation, supply chain constraints or disruptions, geopolitical disruptions, uncertainty with respect to the imposition of tariffs on and trade disputes with certain countries and changing market index interest rates, and the related effect on the U.S. and global economies, have impacted, and may continue to impact, the businesses and operating results of certain of Main Street's portfolio companies. As a result of these and other current effects of macroeconomic factors, as well as the uncertainty regarding the extent and duration of their impact, the valuation of Main Street's Investment Portfolio has and may continue to experience increased volatility.

3. Cash and Cash Equivalents

Cash and cash equivalents consist of cash and highly liquid investments with an original maturity of three months or less at the date of purchase. Cash and cash equivalents are carried at cost, which approximates fair value. As of September 30, 2025 and December 31, 2024, the Company had \$10.6 million and \$6.5 million, respectively, of cash equivalents invested in AAA-rated money market funds pending investment in the Company's primary investment strategies. These highly liquid investments are included in the Consolidated Schedule of Investments.

As of September 30, 2025 and December 31, 2024, cash balances totaling \$17.0 million and \$67.5 million, respectively, exceeded Federal Deposit Insurance Corporation insurance protection levels, subjecting the Company to risk related to the uninsured balance.

4. Interest, Dividend and Fee Income

Main Street records interest and dividend income on the accrual basis to the extent amounts are expected to be collected. Dividend income is recorded when dividends are declared by the portfolio company or at such other time that an obligation exists for the portfolio company to make a distribution. Main Street evaluates accrued interest and dividend income periodically for collectability. When a loan or debt security becomes 90 days or more past due, and if Main Street otherwise does not expect the debtor to be able to service its debt obligation, Main Street will generally place the loan or debt security on non-accrual status and cease recognizing interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding the debtor's ability to service the debt obligation, or if a loan or debt security is sold or written off, Main Street removes it from non-accrual status.

As of September 30, 2025, investments on non-accrual status comprised 1.2% of Main Street's total Investment Portfolio at fair value and 3.6% at cost. As of December 31, 2024, investments on non-accrual status comprised 0.9% of Main Street's total Investment Portfolio at fair value and 3.5% at cost.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Main Street holds certain debt and preferred equity instruments in its Investment Portfolio that contain PIK interest and cumulative dividend provisions. The PIK interest, computed at the contractual rate specified in each debt agreement, is periodically added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment. Cumulative dividends are recorded as dividend income, and any dividends in arrears are added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred equity is redeemed or sold. To maintain RIC tax treatment (as discussed in *Note B.10. — Summary of Significant Accounting Policies — Income Taxes* below), these non-cash sources of income may need to be paid out to stockholders in the form of distributions, even though Main Street may not have collected the PIK interest and cumulative dividends in cash. Main Street stops accruing PIK interest and cumulative dividends and writes off any accrued and uncollected interest and dividends in arrears when it determines that such PIK interest and dividends in arrears are no longer collectible. For the three months ended September 30, 2025 and 2024, (i) 3.0% and 4.4%, respectively, of Main Street's total investment income was attributable to PIK interest income not paid currently in cash and (ii) 0.7% and 0.5%, respectively, of Main Street's total investment income was attributable to cumulative dividend income not paid currently in cash. For the nine months ended September 30, 2025 and 2024, (i) 2.7% and 3.8%, respectively, of Main Street's total investment income was attributable to PIK interest income not paid currently in cash and (ii) 0.7% and 0.4%, respectively, of Main Street's total investment income was attributable to cumulative dividend income not paid currently in cash.

Main Street may periodically provide services, including structuring and advisory services, to its portfolio companies or other third parties. For services that are separately identifiable and evidence exists to substantiate fair value, fee income is recognized as earned, which is generally when the investment or other applicable transaction closes. Fees received in connection with debt financing transactions for services that do not meet these criteria are treated as debt origination fees and are generally deferred and accreted into income over the life of the financing.

A presentation of total investment income Main Street earned from its Investment Portfolio in each of the periods presented is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(dollars in thousands)			
Interest, fee and dividend income:				
Interest income	\$ 103,286	\$ 110,551	\$ 302,160	\$ 310,690
Dividend income	31,263	23,239	105,134	72,718
Fee income	5,282	3,034	13,556	17,178
Total investment income	\$ 139,831	\$ 136,824	\$ 420,850	\$ 400,586

5. Deferred Financing Costs

Deferred financing costs include commitment fees and other direct costs related to Main Street's Credit Facilities (as defined in *Note E — Debt*) and its unsecured notes, as well as the commitment fees and leverage fees (3.4% of the total commitment and draw amounts, as applicable) on the SBIC debentures. See further discussion of Main Street's debt in *Note E — Debt*. Deferred financing costs incurred in connection with the Credit Facilities are capitalized as an asset. Deferred financing costs incurred in connection with all other debt arrangements are reflected as a direct deduction from the principal amount outstanding.

6. Equity Offering Costs

The Company's offering costs are charged against the proceeds from equity offerings when the proceeds are received.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

7. Unearned Income—Debt Origination Fees and Original Issue Discount and Discounts / Premiums to Par Value

Main Street capitalizes debt origination fees received in connection with financings and reflects such fees as unearned income netted against the applicable debt investments. The unearned income from the fees is accreted into income over the life of the financing.

In connection with its portfolio debt investments, Main Street sometimes receives nominal cost warrants or warrants with an exercise price below the fair value of the underlying equity (together, “nominal cost equity”) that are valued as part of the negotiation process with the particular portfolio company. When Main Street receives nominal cost equity, it allocates its cost basis in its investment between its debt security and its nominal cost equity at the time of origination based on amounts negotiated with the particular portfolio company. The allocated amounts are based upon the fair value of the nominal cost equity, which is then used to determine the allocation of cost to the debt security. Any discount recorded on a debt investment resulting from this allocation is reflected as unearned income, which is netted against the applicable debt investment, and accreted into interest income over the life of the debt investment. The actual collection of this interest is deferred until the time of debt principal repayment.

Main Street may also purchase debt securities at a discount or at a premium to the par value of the debt security. In the case of a purchase at a discount, Main Street records the investment at the par value of the debt security net of the discount, and the discount is accreted into interest income over the life of the debt investment. In the case of a purchase at a premium, Main Street records the investment at the par value of the debt security plus the premium, and the premium is amortized as a reduction to interest income over the life of the debt investment.

To maintain RIC tax treatment (as discussed in *Note B.10. — Summary of Significant Accounting Policies — Income Taxes* below), these non-cash sources of income may need to be paid out to stockholders in the form of distributions, even though Main Street may not have collected the interest income. For the three months ended September 30, 2025 and 2024, 1.7% and 2.2%, respectively, of Main Street’s total investment income was attributable to interest income from the accretion of discounts associated with debt investments, net of any premium amortization. For the nine months ended September 30, 2025 and 2024, 1.7% and 2.0%, respectively, of Main Street’s total investment income was attributable to interest income from the accretion of discounts associated with debt investments, net of any premium amortization.

8. Share-Based Compensation

Main Street accounts for its share-based compensation plans using the fair value method, as prescribed by ASC 718, *Compensation—Stock Compensation*. Accordingly, for restricted stock awards, Main Street measures the grant date fair value based upon the market price of its common stock on the date of the grant and amortizes the fair value of the awards as share-based compensation expense over the requisite service period, which is generally the vesting term.

Main Street recognizes all excess tax benefits and tax deficiencies associated with share-based compensation (including tax benefits of dividends on share-based payment awards) as tax expense or benefit in the income statement and does not delay recognition of a tax benefit until the tax benefit is realized through a reduction to taxes payable. As such, the tax effects of exercised or vested awards are treated as discrete items in the reporting period in which they occur. Additionally, Main Street has elected to account for forfeitures as they occur.

9. Deferred Compensation Plan

The Main Street Capital Corporation Deferred Compensation Plan (the “Deferred Compensation Plan”) allows directors and certain employees to defer receipt of some or all of their cash compensation or directors’ fees in accordance with plan terms. Deferred Compensation Plan participants elect one or more investment options, including phantom Main Street stock units, interests in affiliated funds and various mutual funds, where their deferred amounts are notionally invested, and Main Street invests the deferred amounts through a trust (except for phantom Main Street stock units), pending distribution.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Compensation deferred under the Deferred Compensation Plan is recognized on the same basis as such compensation would have been recognized if not deferred. The appreciation (depreciation) in the fair value of Deferred Compensation Plan assets is reflected in Main Street's Consolidated Statements of Operations as unrealized appreciation (depreciation), with the recognition of a corresponding and offsetting deferred compensation expense or (benefit), respectively. Deferred compensation expense or (benefit) does not result in a net cash impact to Main Street upon settlement. Investments in the trust are recognized on the Consolidated Balance Sheets as an asset of Main Street (other assets) and as a deferred compensation liability (other liabilities).

Phantom Main Street stock units under the Deferred Compensation Plan are not issued shares of Main Street common stock and are not included as outstanding on the Consolidated Statements of Changes in Net Assets until such shares are actually distributed to the participant, but the related phantom stock units are included in weighted-average shares outstanding with the related dollar amount of the deferral included in total expenses in Main Street's Consolidated Statements of Operations as the deferred fees or compensation represented by such phantom stock units are earned over the service period. Additional phantom stock units from dividends on phantom stock units are included in the Consolidated Statements of Changes in Net Assets as an increase to dividends to stockholders offset by a corresponding increase to additional paid-in capital.

10. Income Taxes

MSCC has elected to be treated for U.S. federal income tax purposes as a RIC. MSCC's taxable income includes the taxable income generated by MSCC and certain of its subsidiaries, including the Funds and Structured Subsidiaries, which are treated as disregarded entities for tax purposes. As a RIC, MSCC generally will not pay corporate-level U.S. federal income taxes on any net ordinary taxable income or capital gains that MSCC distributes to its stockholders. MSCC must generally distribute at least 90% of its "investment company taxable income" (which is generally its net ordinary taxable income and realized net short-term capital gains in excess of realized net long-term capital losses) and 90% of its tax-exempt income to maintain its RIC status (pass-through tax treatment for amounts distributed). As part of maintaining RIC status, undistributed taxable income (subject to a 4% non-deductible U.S. federal excise tax) pertaining to a given fiscal year may be distributed up to twelve months subsequent to the end of that fiscal year, provided such dividends are declared on or prior to the later of (i) the filing of the U.S. federal income tax return for the applicable fiscal year or (ii) the fifteenth day of the ninth month following the close of the year in which such taxable income was generated.

The Taxable Subsidiaries primarily hold certain equity investments for Main Street. The Taxable Subsidiaries permit Main Street to hold equity investments in portfolio companies which are "pass-through" entities for tax purposes and to continue to comply with the "source-of-income" requirements contained in the RIC tax provisions of the Code. The Taxable Subsidiaries are consolidated with Main Street for U.S. GAAP financial reporting purposes, and the portfolio investments held by the Taxable Subsidiaries are included in Main Street's consolidated financial statements as portfolio investments and recorded at fair value. The Taxable Subsidiaries are not consolidated with MSCC for income tax purposes and may generate income tax expense, or benefit, and tax assets and liabilities, as a result of their ownership of certain portfolio investments. The taxable income, or loss, of the Taxable Subsidiaries may differ from their book income, or loss, due to temporary book and tax timing differences and permanent differences. The Taxable Subsidiaries are each taxed at corporate income tax rates based on their taxable income. The income tax expense, or benefit, if any, and the related tax assets and liabilities, of the Taxable Subsidiaries are reflected in Main Street's consolidated financial statements.

The External Investment Manager is an indirect wholly-owned subsidiary of MSCC owned through a Taxable Subsidiary and is a disregarded entity for tax purposes. The External Investment Manager has entered into a tax sharing agreement with its Taxable Subsidiary owner. Since the External Investment Manager is accounted for as a portfolio investment of MSCC and is not included as a consolidated subsidiary of MSCC in MSCC's consolidated financial statements, and as a result of the tax sharing agreement with its Taxable Subsidiary owner, for its stand-alone financial reporting purposes the External Investment Manager is treated as if it is taxed at corporate income tax rates based on its taxable income and, as a result of its activities, may generate income tax expense or benefit. The income tax expense, or benefit, if any, and the related tax assets and liabilities, of the External Investment Manager are reflected in the External Investment Manager's separate financial statements.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

The Taxable Subsidiaries and the External Investment Manager use the liability method in accounting for income taxes. Deferred tax assets and liabilities are recorded for temporary differences between the tax basis of assets and liabilities and their reported amounts in the consolidated financial statements, using statutory tax rates in effect for the year in which the temporary differences are expected to reverse. A valuation allowance is provided, if necessary, against deferred tax assets when it is more likely than not that some portion or all of the deferred tax asset will not be realized. Main Street's net assets as included on the Consolidated Balance Sheets and Consolidated Statements of Changes in Net Assets include an adjustment to classification as a result of permanent book-to-tax differences, which include differences in the book and tax treatment of income and expenses.

Taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses. Taxable income generally excludes net unrealized appreciation or depreciation, as investment gains or losses are not included in taxable income until they are realized.

11. Net Realized Gains or Losses and Net Unrealized Appreciation or Depreciation

Realized gains or losses are measured by the difference between the net proceeds from the sale or redemption of an investment or a financial instrument and the cost basis of the investment or financial instrument, without regard to unrealized appreciation or depreciation previously recognized, and includes investments written-off during the period net of recoveries and realized gains or losses from in-kind redemptions. Net unrealized appreciation or depreciation reflects the net change in the fair value of the Investment Portfolio and financial instruments and the reclassification of any prior period unrealized appreciation or depreciation on exited investments and financial instruments to realized gains or losses.

12. Fair Value of Financial Instruments

Fair value estimates are made at discrete points in time based on relevant information. These estimates may be subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Main Street believes that the carrying amounts of its financial instruments, consisting of cash and cash equivalents, receivables, payables and other liabilities approximate the fair values of such items due to the short-term nature of these instruments.

Main Street's debt instruments, including all revolving and term debt, are accounted for on a historical cost basis as applicable under U.S. GAAP. As also required under U.S. GAAP, Main Street discloses the estimated fair value of its debt obligations in *Note E — Debt*. To estimate the fair value of Main Street's multiple tranches of unsecured debt instruments as disclosed in *Note E — Debt*, Main Street uses quoted market prices. For the estimated fair value of Main Street's SBIC debentures, Main Street uses the Yield-to-Maturity valuation method based on projections of the discounted future free cash flows that the debt security will likely generate, including both the discounted cash flows of the associated interest and principal amounts for the debt security. The inputs used to value Main Street's debt instruments for purposes of the fair value estimate disclosures in *Note E — Debt* are considered to be Level 2 according to the ASC 820 fair value hierarchy.

13. Earnings Per Share

Basic and diluted per share calculations, including net increase in net assets resulting from operations per share and net investment income per share, are computed utilizing the weighted-average number of shares of common stock outstanding for the period. In accordance with ASC 260, *Earnings Per Share*, the unvested shares of restricted stock awarded pursuant to Main Street's equity compensation plans are participating securities and, therefore, are included in the basic earnings per share calculation. As a result, for all periods presented, there is no difference between diluted earnings per share and basic earnings per share amounts.

14. Segments

Main Street operates as a single segment with a principal investment objective to maximize total return by generating current income from debt investments and current income and capital appreciation from equity and equity-related investments. The Company's Investment Committee and Chief Executive Officer collectively perform the function that allocates resources and assesses performance, and thus together, serve as the Company's chief operating decision maker (the "CODM"). Among other metrics, the CODM uses net investment income as a primary U.S. GAAP profit or loss metric used in making operating decisions, which can be found on the Consolidated Statement of Operations along with significant expenses. The measure of segment assets is reported on the Consolidated Balance Sheets as total assets.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

15. Recently Issued or Adopted Accounting Standards

In December 2023, the FASB issued ASU 2023-09, *Improvements to Income Tax Disclosures*. The amendments in this update require more disaggregated information on income taxes paid. ASU 2023-09 is effective for years beginning after December 15, 2024, and early adoption is permitted. The Company has determined that ASU 2023-09 will not have a material impact on the consolidated financial statements and the notes thereto.

From time to time, new accounting pronouncements are issued by the FASB or other standards-setting bodies that are adopted by the Company as of the specified effective date. The Company believes that the impact of recently issued standards and any that are not yet effective will not have a material impact on its consolidated financial statements upon adoption.

NOTE C — FAIR VALUE HIERARCHY FOR INVESTMENTS — PORTFOLIO COMPOSITION

ASC 820 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. Main Street accounts for its investments at fair value.

Fair Value Hierarchy

In accordance with ASC 820, Main Street has categorized its investments based on the priority of the inputs to the valuation technique into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical investments (Level 1) and the lowest priority to unobservable inputs (Level 3).

Investments recorded on Main Street's Consolidated Balance Sheets are categorized based on the inputs to the valuation techniques as follows:

Level 1—Investments whose values are based on unadjusted quoted prices for identical assets in an active market that Main Street has the ability to access (examples include investments in active exchange-traded equity securities and investments in most U.S. government and agency securities).

Level 2—Investments whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the investment. Level 2 inputs include the following:

- Quoted prices for similar assets in active markets (for example, investments in restricted stock);
- Quoted prices for identical or similar assets in non-active markets (for example, investments in thinly traded public companies);
- Pricing models whose inputs are observable for substantially the full term of the investment (for example, market interest rate indices); and
- Pricing models whose inputs are derived principally from, or corroborated by, observable market data through correlation or other means for substantially the full term of the investment.

Level 3—Investments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (for example, investments in illiquid securities issued by privately held companies). These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the investment.

As required by ASC 820, when the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement in its entirety. For example, a Level 3 fair value measurement may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3). Therefore, unrealized appreciation and depreciation related to such investments categorized within the Level 3 tables below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable inputs (Level 3).

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

As of September 30, 2025 and December 31, 2024, all of Main Street's LMM portfolio investments consisted of illiquid securities issued by privately held companies and the fair value determination for these investments primarily consisted of unobservable inputs. As a result, all of Main Street's LMM portfolio investments were categorized as Level 3 as of September 30, 2025 and December 31, 2024.

As of September 30, 2025 and December 31, 2024, Main Street's Private Loan portfolio investments primarily consisted of illiquid securities issued by privately held companies. The fair value determination for these investments consisted of a combination of observable inputs in non-active markets for which sufficient observable inputs were not available to determine the fair value of these investments and unobservable inputs. As a result, all of Main Street's Private Loan portfolio investments were categorized as Level 3 as of September 30, 2025 and December 31, 2024.

As of September 30, 2025 and December 31, 2024, Main Street's Middle Market portfolio investments consisted primarily of investments in secured and unsecured debt investments and independently rated debt investments. The fair value determination for these investments consisted of a combination of observable inputs in non-active markets for which sufficient observable inputs were not available to determine the fair value of these investments and unobservable inputs. As a result, all of Main Street's Middle Market portfolio investments were categorized as Level 3 as of September 30, 2025 and December 31, 2024.

As of September 30, 2025 and December 31, 2024, Main Street's Other Portfolio investments consisted primarily of illiquid securities issued by privately held entities and the fair value determination for these investments primarily consisted of unobservable inputs. Main Street also has an equity investment in MSC Income Fund, Inc. ("MSC Income"), which began trading on the New York Stock Exchange ("NYSE") on January 29, 2025. As a result, beginning on March 31, 2025, Main Street adjusted the basis in its valuation approach to align with the quoted price of MSC Income shares on the NYSE. Therefore, as of September 30, 2025, the equity investment in MSC Income was categorized as a Level 1 investment. The remainder of Main Street's Other Portfolio investments were categorized as Level 3 as of September 30, 2025 and December 31, 2024.

As of September 30, 2025 and December 31, 2024, Main Street did not hold any short-term portfolio investments.

As of September 30, 2025 and December 31, 2024, all money market funds included in cash and cash equivalents were valued using Level 1 inputs.

The fair value determination of each portfolio investment categorized as Level 3 required one or more of the following unobservable inputs:

- Financial information obtained from each portfolio company, including unaudited statements of operations and balance sheets for the most recent period available as compared to budgeted numbers;
- Current and projected financial condition of the portfolio company;
- Current and projected ability of the portfolio company to service its debt obligations;
- Type and amount of collateral, if any, underlying the investment;
- Current financial ratios (e.g., fixed charge coverage ratio, interest coverage ratio and net debt/EBITDA ratio) applicable to the investment;
- Current liquidity of the investment and related financial ratios (e.g., current ratio and quick ratio);
- Pending debt or capital restructuring of the portfolio company;
- Projected operating results of the portfolio company;
- Current information regarding any offers to purchase the investment;
- Current ability of the portfolio company to raise any additional financing as needed;

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

- Changes in the economic environment which may have a material impact on the operating results of the portfolio company;
- Internal occurrences that may have an impact (both positive and negative) on the operating performance of the portfolio company;
- Qualitative assessment of key management;
- Contractual rights, obligations or restrictions associated with the investment; and
- Other factors deemed relevant.

The use of significant unobservable inputs creates uncertainty in the measurement of fair value as of the reporting date. The significant unobservable inputs used in the fair value measurement of Main Street’s LMM equity securities, which are generally valued through an average of the discounted cash flow technique and the market comparable/enterprise value technique (unless one of these approaches is determined to not be appropriate), are (i) EBITDA multiples and (ii) the weighted-average cost of capital (“WACC”). Significant increases (decreases) in EBITDA multiple inputs in isolation would result in a significantly higher (lower) fair value measurement, and significant increases (decreases) in WACC inputs in isolation would result in a significantly lower (higher) fair value measurement. The significant unobservable inputs used in the fair value measurement of Main Street’s LMM, Private Loan and Middle Market debt securities are (i) risk adjusted discount rates used in the Yield-to-Maturity valuation technique (see *Note B.1. — Summary of Significant Accounting Policies — Valuation of the Investment Portfolio*) and (ii) the percentage of expected principal recovery. Significant increases (decreases) in any of these discount rates in isolation would result in a significantly lower (higher) fair value measurement. Significant increases (decreases) in any of these expected principal recovery percentages in isolation would result in a significantly higher (lower) fair value measurement. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third-party appraisals of collateral and fair values as determined by independent third parties, which are not presented in the tables below.

The following tables provide a summary of the significant unobservable inputs used to fair value Main Street’s Level 3 portfolio investments as of September 30, 2025 and December 31, 2024:

Type of Investment	Fair Value as of September 30, 2025 (in thousands)	Valuation Technique	Significant Unobservable Inputs	Range (4)	Weighted-Average (4)(5)	Median (4)
Equity investments	\$ 1,816,663	Discounted cash flow	WACC	9.5% - 22.7%	14.4 %	15.1 %
		Market comparable / Enterprise value	EBITDA multiple (1) (3)	5.0x - 9.0x (2)	7.2x	6.5x
Debt investments	\$ 3,301,758	Discounted cash flow	Risk adjusted discount rate (6)	8.0% - 18.4% (2)	12.2 %	12.0 %
			Expected principal recovery percentage	0.0% - 500.0%	99.1 %	100.0 %
Debt investments	\$ 11,019	Market approach	Third-party quote	14.5 - 70.0	57.0	40.5
Total Level 3 investments	\$ 5,129,440					

(1) EBITDA may include proforma adjustments and/or other add-backs based on specific circumstances related to each investment.

(2) Range excludes outliers that are greater than one standard deviation from the mean. Including these outliers, the range for EBITDA multiple is 2.0x - 16.0x and the range for risk adjusted discount rate is 5.7% - 40.6%.

(3) The fair value of the equity investment in the External Investment Manager is based on a fee multiple of 8.4x. The fair value determination is based on a discounted, blended multiple based on the multiples for similar businesses in active markets and actual multiples used in private transactions.

(4) Does not include investments for which the valuation technique does not include the use of the applicable fair value input.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

- (5) Weighted-average is calculated for each significant unobservable input based on the applicable security's fair value.
 (6) Discount rate includes the effect of the standard SOFR base rate, as applicable.

Type of Investment	Fair Value as of December 31, 2024 (in thousands)	Valuation Technique	Significant Unobservable Inputs	Range (4)	Weighted-Average (4)(5)	Median (4)
Equity investments	\$ 1,654,304	Discounted cash flow	WACC	9.4% - 22.5%	14.5 %	15.1 %
		Market comparable / Enterprise value	EBITDA multiple (1) (3)	4.8x - 8.9x (2)	7.0x	6.5x
Debt investments	\$ 3,174,745	Discounted cash flow	Risk adjusted discount rate (6)	8.5% - 19.1% (2)	12.6 %	12.2 %
			Expected principal recovery percentage	0.0% - 100.0%	99.5 %	100.0 %
Debt investments	\$ 103,620	Market approach	Third-party quote	21.0 - 100.7	90.5	84.5
Total Level 3 investments	\$ 4,932,669					

- (1) EBITDA may include proforma adjustments and/or other add-backs based on specific circumstances related to each investment.
 (2) Range excludes outliers that are greater than one standard deviation from the mean. Including these outliers, the range for EBITDA multiple is 2.0x - 17.0x and the range for risk adjusted discount rate is 5.0% - 38.3%.
 (3) The fair value of the equity investment in the External Investment Manager is based on a fee multiple of 8.5x. The fair value determination is based on a discounted, blended multiple based on the multiples for similar businesses in active markets and actual multiples used in private transactions.
 (4) Does not include investments for which the valuation technique does not include the use of the applicable fair value input.
 (5) Weighted-average is calculated for each significant unobservable input based on the applicable security's fair value.
 (6) Discount rate includes the effect of the standard SOFR base rate, as applicable.

MAIN STREET CAPITAL CORPORATION
Notes to the Consolidated Financial Statements (Continued)
(Unaudited)

The following tables provide a summary of changes in fair value of Main Street's Level 3 portfolio investments for the nine months ended September 30, 2025 and 2024 (amounts in thousands):

Type of Investment	Fair Value as of December 31, 2024	Transfers Out of Level 3 Hierarchy	Redemptions/ Repayments	New Investments	Net Changes from Unrealized to Realized	Net Unrealized Appreciation (Depreciation)	Other (1)	Fair Value as of September 30, 2025

Notes to the Consolidated Financial Statements (Continued)
(Unaudited)

As of September 30, 2025 and December 31, 2024, Main Street's investments at fair value were categorized as follows in the fair value hierarchy for ASC 820 purposes:

As of September 30, 2025	Fair Value	Fair Value Measurements (in thousands)		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
LMM portfolio investments	\$ 2,782,192	\$ —	\$ —	\$ 2,782,192
Private Loan portfolio investments	1,886,453	—	—	1,886,453
Middle Market portfolio investments	89,932	—	—	89,932
Other Portfolio investments	122,846	18,333	—	104,513
External Investment Manager	266,350	—	—	266,350
Total investments	\$ 5,147,773	\$ 18,333	\$ —	\$ 5,129,440

As of December 31, 2024	Fair Value	Fair Value Measurements (in thousands)		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
LMM portfolio investments	\$ 2,502,872	\$ —	\$ —	\$ 2,502,872
Private Loan portfolio investments	1,904,324	—	—	1,904,324
Middle Market portfolio investments	155,329	—	—	155,329
Other Portfolio investments	124,144	—	—	124,144
External Investment Manager	246,000	—	—	246,000
Total investments	\$ 4,932,669	\$ —	\$ —	\$ 4,932,669

Investment Portfolio Composition

Main Street's principal investment objective is to maximize its portfolio's total return by generating current income from its debt investments and current income and capital appreciation from its equity and equity-related investments, including warrants, convertible securities and other rights to acquire equity securities in a portfolio company. Main Street seeks to achieve its investment objective primarily through its LMM and Private Loan investment strategies.

Main Street's LMM investment strategy is focused on investments in secured debt and equity investments in privately held, LMM companies based in the United States. Main Street's LMM portfolio companies generally have annual revenues between \$10 million and \$150 million, and its LMM investments generally range in size from \$5 million to \$125 million. The LMM debt investments are typically secured by a first priority lien on the assets of the portfolio company, can include either fixed or floating interest rates and generally have a term of between five and seven years from the original investment date. Main Street typically makes direct equity investments and/or receives nominally priced equity warrants in connection with a LMM portfolio company debt investment.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Main Street's Private Loan investment strategy is focused on investments in secured debt in privately held companies that generally have annual revenues between \$25 million and \$500 million, and its Private Loan investments generally range in size from \$10 million to \$100 million. Main Street's Private Loan investments primarily consist of debt securities that have primarily been originated directly by Main Street or, to a lesser extent, through its strategic relationships with other investment funds on a collaborative basis through investments that are often referred to in the debt markets as "club deals" because of the small lender group size. In both cases, Main Street's Private Loan investments are typically made in a company owned by or in the process of being acquired by a private equity fund. Main Street's Private Loan portfolio debt investments are generally secured by a first priority lien on the assets of the portfolio company and typically have a term of between three and seven years from the original investment date. Main Street may also co-invest with the private equity fund in the equity securities of its Private Loan portfolio companies.

Main Street also maintains a legacy portfolio of investments in Middle Market companies. Main Street's Middle Market investments are generally debt investments in companies owned by a private equity fund that were originally issued through a syndication financing process. Main Street has generally stopped making new Middle Market investments and expects the size of its Middle Market investment portfolio to continue to decline in future periods as its existing Middle Market investments are repaid or sold. Main Street's Middle Market debt investments generally range in size from \$3 million to \$25 million, are generally secured by a first priority lien on the assets of the portfolio company and typically have an expected duration of between three and seven years from the original investment date.

Main Street's Other Portfolio investments primarily consist of investments that are not consistent with the typical profiles for its LMM, Private Loan or Middle Market portfolio investments, including investments which may be managed by third parties. In the Other Portfolio, Main Street may incur indirect fees and expenses in connection with investments managed by third parties, such as investments in other investment companies or private funds. For Other Portfolio investments, Main Street generally receives distributions related to the assets held by the portfolio company. Those assets are typically expected to be realized over a five to ten-year period.

Based upon Main Street's liquidity and capital structure management activities, Main Street's Investment Portfolio may also periodically include short-term portfolio investments that are atypical of Main Street's LMM, Private Loan and Middle Market portfolio investments in that they are intended to be a short-term deployment of capital. Those assets are typically expected to be realized in one year or less. These short-term portfolio investments are not expected to be a significant portion of the overall Investment Portfolio.

Main Street's external asset management business is conducted through its External Investment Manager. The External Investment Manager earns management fees based on the assets under management for External Parties and may earn incentive fees, or a carried interest, based on the performance of the assets managed. Main Street entered into an agreement with the External Investment Manager to share employees in connection with its asset management business generally, and specifically for its relationship with MSC Income and its other clients. Through this agreement, Main Street shares employees with the External Investment Manager, including their related infrastructure, business relationships, management expertise and capital raising capabilities. Main Street allocates the related expenses to the External Investment Manager pursuant to the sharing agreement. Main Street's total expenses are net of expenses allocated to the External Investment Manager of \$5.7 million and \$5.3 million for the three months ended September 30, 2025 and 2024, respectively, and \$17.0 million and \$16.8 million for the nine months ended September 30, 2025 and 2024, respectively.

Investment income, consisting of interest, dividends and fees, can fluctuate dramatically due to various factors, including the level of new investment activity, repayments of debt investments or sales of equity interests. Investment income in any given year could also be highly concentrated among several portfolio companies. For the three and nine months ended September 30, 2025 and 2024, Main Street did not record investment income from any single portfolio company in excess of 10% of total investment income.

MAIN STREET CAPITAL CORPORATION
Notes to the Consolidated Financial Statements (Continued)
(Unaudited)

The following tables provide a summary of Main Street's investments in the LMM and Private Loan portfolios as of September 30, 2025 and December 31, 2024 (this information excludes Middle Market, Other Portfolio investments and the External Investment Manager, which are discussed further below).

	As of September 30, 2025			
	LMM (a)		Private Loan	
	(dollars in millions)			
Number of portfolio companies	88		86	
Fair value	\$	2,782.2	\$	1,886.5
Cost	\$	2,167.5	\$	1,898.3
Debt investments as a % of portfolio (at cost)	70.7 %		94.0 %	
Equity investments as a % of portfolio (at cost)	29.3 %		6.0 %	
% of debt investments at cost secured by first priority lien	99.3 %		99.9 %	
Weighted-average annual effective yield (b)	12.7 %		11.1 %	
Average EBITDA (c)	\$	10.3	\$	34.3

(a) As of September 30, 2025, Main Street had equity ownership in all of its LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was 38%.

(b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments as of September 30, 2025, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status, and are weighted based upon the principal amount of each applicable debt investment as of September 30, 2025. The weighted-average annual effective yield on Main Street's debt portfolio as of September 30, 2025, including debt investments on non-accrual status, was 12.1% for its LMM portfolio and 10.1% for its Private Loan portfolio. The weighted-average annual effective yield is not reflective of what an investor in shares of Main Street's common stock will realize on its investment because it does not reflect changes in the market value of Main Street's stock, Main Street's utilization of debt capital in its capital structure, Main Street's expenses or any sales load paid by an investor.

(c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the Private Loan portfolio. These calculations exclude certain portfolio companies, including five LMM portfolio companies and six Private Loan portfolio companies, as EBITDA is not a meaningful valuation metric for Main Street's investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate and those portfolio companies whose primary operations have ceased and only residual value remains.

	As of December 31, 2024			
	LMM (a)		Private Loan	
	(dollars in millions)			
Number of portfolio companies	84		91	
Fair value	\$	2,502.9	\$	1,904.3
Cost	\$	1,937.8	\$	1,952.5
Debt investments as a % of portfolio (at cost)	70.8 %		95.4 %	
Equity investments as a % of portfolio (at cost)	29.2 %		4.6 %	
% of debt investments at cost secured by first priority lien	99.2 %		99.9 %	
Weighted-average annual effective yield (b)	12.8 %		11.8 %	
Average EBITDA (c)	\$	10.2	\$	30.5

(a) As of December 31, 2024, Main Street had equity ownership in all of its LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was 38%.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments as of December 31, 2024, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status, and are weighted based upon the principal amount of each applicable debt investment as of December 31, 2024. The weighted-average annual effective yield on Main Street's debt portfolio as of December 31, 2024, including debt investments on non-accrual status, was 12.3% for its LMM portfolio and 11.5% for its Private Loan portfolio. The weighted-average annual effective yield is not reflective of what an investor in shares of Main Street's common stock will realize on its investment because it does not reflect changes in the market value of Main Street's stock, Main Street's utilization of debt capital in its capital structure, Main Street's expenses or any sales load paid by an investor.
- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the Private Loan portfolio. These calculations exclude certain portfolio companies, including five LMM portfolio companies and five Private Loan portfolio companies, as EBITDA is not a meaningful valuation metric for Main Street's investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate and those portfolio companies whose primary operations have ceased and only residual value remains.

For the three months ended September 30, 2025 and 2024, Main Street achieved an annualized total return on investments of 16.9% and 17.7%, respectively. For the nine months ended September 30, 2025 and 2024, Main Street achieved an annualized total return on investments of 16.4% and 16.7%, respectively. For the year ended December 31, 2024, Main Street achieved a total return on investments of 17.9%. Total return on investments is calculated using the interest, dividend and fee income, as well as the realized and unrealized change in fair value of the Investment Portfolio for the specified period. Main Street's total return on investments is not reflective of what an investor in shares of Main Street's common stock will realize on its investment because it does not reflect changes in the market value of Main Street's stock, Main Street's utilization of debt capital in its capital structure, Main Street's expenses or any sales load paid by an investor.

As of September 30, 2025, Main Street had Other Portfolio investments in 32 entities, spread across 12 investment managers, collectively totaling \$122.8 million in fair value and \$130.9 million in cost basis, which comprised 2.4% and 3.0% of Main Street's Investment Portfolio at fair value and cost, respectively. As of December 31, 2024, Main Street had Other Portfolio investments in 31 entities, spread across 12 investment managers, collectively totaling \$124.1 million in fair value and \$122.5 million in cost basis, which comprised 2.5% and 2.9% of Main Street's Investment Portfolio at fair value and cost, respectively.

As of September 30, 2025, Main Street had Middle Market portfolio investments in 11 portfolio companies, collectively totaling \$89.9 million in fair value and \$119.8 million in cost basis, which comprised 1.7% and 2.8% of Main Street's Investment Portfolio at fair value and cost, respectively. As of December 31, 2024, Main Street had Middle Market portfolio investments in 15 portfolio companies, collectively totaling \$155.3 million in fair value and \$195.0 million in cost basis, which comprised 3.1% and 4.6% of Main Street's Investment Portfolio at fair value and cost, respectively.

As discussed further in *Note A.1. — Organization and Basis of Presentation — Organization*, Main Street holds an investment in the External Investment Manager, a wholly-owned subsidiary that is treated as a portfolio investment. As of September 30, 2025, this investment had a fair value of \$266.4 million and a cost basis of \$29.5 million, which comprised 5.2% and 0.7% of Main Street's Investment Portfolio at fair value and cost, respectively. As of December 31, 2024, this investment had a fair value of \$246.0 million and a cost basis of \$29.5 million, which comprised 5.0% and 0.7% of Main Street's Investment Portfolio at fair value and cost, respectively.

As of September 30, 2025 and December 31, 2024, Main Street had no portfolio investment that was greater than 10% of the Investment Portfolio at fair value.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Unconsolidated Significant Subsidiaries

In accordance with Rules 3-09 and 4-08(g) of Regulation S-X, Main Street must determine which of its unconsolidated controlled portfolio companies, if any, are considered “significant subsidiaries.” In evaluating its unconsolidated controlled portfolio companies in accordance with Regulation S-X, there are two tests that Main Street must utilize to determine if any of Main Street’s Control investments (as defined in *Note A — Organization and Basis of Presentation*), including those unconsolidated portfolio companies defined as Control investments in which Main Street does not own greater than 50% of the voting securities nor have rights to maintain greater than 50% of the board representation, are considered significant subsidiaries: the investment test and the income test. The investment test is generally measured by dividing the fair value of Main Street’s investment in the Control investment by the fair value of Main Street’s total investments. The income test is generally measured by dividing the absolute value of the combined sum of total investment income, net realized gain (loss) and net unrealized appreciation (depreciation) from the relevant Control investment for the period being tested by the absolute value of Main Street’s change in net assets resulting from operations for the same period. Rules 3-09 and 4-08(g) of Regulation S-X require Main Street to include (1) separate audited financial statements of an unconsolidated majority-owned subsidiary (Control investments in which Main Street owns greater than 50% of the voting securities) in an annual report and (2) summarized financial information of a Control investment in a quarterly report, respectively, if certain thresholds of the investment or income tests are exceeded and the unconsolidated portfolio company qualifies as a significant subsidiary.

As of September 30, 2025 and December 31, 2024, Main Street had no single investment that qualified as a significant subsidiary under either the investment or income tests.

NOTE D — EXTERNAL INVESTMENT MANAGER

As discussed further in *Note A.1. — Organization and Basis of Presentation — Organization* and *Note C — Fair Value Hierarchy for Investments — Portfolio Composition — Investment Portfolio Composition*, the External Investment Manager provides investment management and other services to External Parties. The External Investment Manager is accounted for as a portfolio investment of Main Street since the External Investment Manager conducts all of its investment management activities for External Parties.

The External Investment Manager serves as the investment adviser and administrator to MSC Income pursuant to an Investment Advisory and Administrative Services Agreement entered into in October 2020 between the External Investment Manager and MSC Income (as amended and restated on January 29, 2025, the “Advisory Agreement”). Under the Advisory Agreement, prior to January 29, 2025, the External Investment Manager earned a 1.75% annual base management fee on MSC Income’s average total assets, a subordinated incentive fee on income equal to 20% of pre-incentive fee net investment income above a specified investment return hurdle rate and a 20% incentive fee on cumulative net realized capital gains in exchange for providing advisory services to MSC Income. On and after January 29, 2025, under the Advisory Agreement, the External Investment Manager earns a 1.5% annual base management fee on MSC Income’s average total assets (including cash and cash equivalents), payable quarterly in arrears (with additional future contractual reductions based upon changes to MSC Income’s investment portfolio composition), a subordinated incentive fee on income equal to 17.5% of pre-incentive fee net investment income above a specified investment return hurdle rate, subject to a 50% / 50% catch-up feature, and a 17.5% incentive fee on cumulative net realized capital gains from January 29, 2025.

As described more fully in *Note L — Related Party Transactions*, the External Investment Manager also serves as the investment adviser and administrator to MS Private Loan Fund I, LP (“Private Loan Fund I”) and MS Private Loan Fund II, LP (“Private Loan Fund II”), each a private investment fund with a strategy to co-invest with Main Street in Private Loan portfolio investments. The External Investment Manager entered into investment management agreements in December 2020 with Private Loan Fund I and in September 2023 with Private Loan Fund II, pursuant to which the External Investment Manager provides investment advisory and management services to each fund in exchange for an asset-based fee and certain incentive fees. The External Investment Manager may also advise other clients, including funds and separately managed accounts, pursuant to advisory and services agreements with such clients in exchange for asset-based and incentive fees.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

The External Investment Manager provides administrative services for certain External Party clients that, to the extent not waived, are reported as administrative services fees. The administrative services fees generally represent expense reimbursements for a portion of the compensation, overhead and related expenses for certain professionals directly attributable to performing administrative services for clients. These fees are recognized as other revenue in the period in which the related services are rendered.

Main Street determines the fair value of the External Investment Manager using the Waterfall valuation method under the market approach (see further discussion in *Note B.1. — Summary of Significant Accounting Policies — Valuation of the Investment Portfolio*). Any change in fair value of the investment in the External Investment Manager is recognized on Main Street's Consolidated Statements of Operations in "Net Unrealized Appreciation — Control investments."

The External Investment Manager is an indirect wholly-owned subsidiary of MSCC owned through a Taxable Subsidiary and is a disregarded entity for tax purposes. The External Investment Manager has entered into a tax sharing agreement with its Taxable Subsidiary owner. Since the External Investment Manager is accounted for as a portfolio investment of Main Street and is not included as a consolidated subsidiary of Main Street in its consolidated financial statements, and as a result of the tax sharing agreement with its Taxable Subsidiary owner, for financial reporting purposes the External Investment Manager is treated as if it is taxed at corporate income tax rates based on its taxable income and, as a result of its activities, may generate income tax expense or benefit. Main Street owns the External Investment Manager through the Taxable Subsidiary to allow MSCC to continue to comply with the "source-of-income" requirements contained in the RIC tax provisions of the Code. The taxable income, or loss, of the External Investment Manager may differ from its book income, or loss, due to temporary book and tax timing differences and permanent differences. As a result of the above described financial reporting and tax treatment, the External Investment Manager provides for any income tax expense, or benefit, and any tax assets or liabilities in its separate financial statements.

Main Street shares employees with the External Investment Manager and allocates costs related to such shared employees to the External Investment Manager generally based on a combination of the direct time spent, new investment activities and assets under management, depending on the nature of the expense. The total contribution of the External Investment Manager to Main Street's net investment income consists of the combination of the expenses allocated to the External Investment Manager and the dividend income earned from the External Investment Manager. For the three months ended September 30, 2025 and 2024, the total contribution to Main Street's net investment income was \$8.8 million and \$7.9 million, respectively. For the nine months ended September 30, 2025 and 2024, the total contribution to Main Street's net investment income was \$25.4 million and \$25.6 million, respectively.

Summarized financial information from the separate financial statements of the External Investment Manager as of September 30, 2025 and December 31, 2024 and for the three and nine months ended September 30, 2025 and 2024 is as follows:

	As of September 30, 2025	As of December 31, 2024

Corporate Facility

Main Street maintains a multi-year revolving credit facility (the “Corporate Facility”) to provide additional liquidity to support its investment and operational activities. In April 2025, Main Street entered into an amendment to the Corporate Facility to, among other things: (i) decrease the interest rate to the applicable SOFR plus a credit spread adjustment of 0.10% plus (a) 1.775% prior to satisfying certain step-down conditions or (b) 1.65% after satisfying certain step-down conditions, (ii) increase the revolving commitments to \$1.145 billion, (iii) increase the accordion feature providing Main Street with the right to request increases in commitments under the facility from new and existing lenders on the same terms and conditions as the existing commitments to up to a total of \$1.718 billion and (iv) extend the revolving period and final maturity date through April 2029 and to April 2030, respectively.

As of September 30, 2025, the Corporate Facility included (i) total commitments of \$1.145 billion from a diversified group of 19 lenders, (ii) an accordion feature with the right to request an increase in commitments under the facility from new and existing lenders on the same terms and conditions as the existing commitments up to a total of \$1.718 billion and (iii) a revolving period through April 2029 and a final maturity date in April 2030.

As of September 30, 2025, borrowings under the Corporate Facility bore interest, subject to Main Street’s election and resetting on a monthly basis on the first of each month, at a rate equal to the applicable SOFR plus a credit spread adjustment of 0.10% plus 1.775% (or 1.65% after satisfying certain step-down conditions in the future). Main Street pays unused commitment fees of 0.25% on the unused lender commitments under the Corporate Facility. The Corporate Facility is secured by a first lien on the assets of MSCC and its subsidiaries, excluding the equity ownership and assets of the Funds, the Structured Subsidiaries and the External Investment Manager. In connection with the Corporate Facility, MSCC has made customary representations and warranties and is subject to certain leverage and borrowing base limitations, covenants, reporting and other requirements customary for similar credit facilities.

As of September 30, 2025, the interest rate for borrowings on the Corporate Facility was 6.2%. The average interest rate for borrowings under the Corporate Facility was 6.2% and 7.3% for the three months ended September 30, 2025 and 2024, respectively, and 6.2% and 7.3% for the nine months ended September 30, 2025 and 2024, respectively. As of September 30, 2025, Main Street was in compliance with all financial covenants of the Corporate Facility.

SPV Facility

Main Street, through MSCC Funding I, LLC (“MSCC Funding”), a wholly-owned Structured Subsidiary that primarily holds debt investments, maintains a special purpose vehicle revolving credit facility (the “SPV Facility”) and, together with the Corporate Facility, the “Credit Facilities”) to finance its investment and operational activities. In April 2025, Main Street entered into an amendment to the SPV Facility to, among other things: (i) decrease the interest rate to the applicable SOFR plus an applicable margin of (a) 1.95% during the revolving period (from 2.35%), (b) 2.075% for the first year following the end of the revolving period (from 2.475%) and (c) 2.20% for the second year following the end of the revolving period (from 2.60%), (ii) extend the revolving period from through September 2027 to through September 2028, (iii) extend the final maturity date from September 2029 to September 2030 and (iv) decrease the unused fee to 0.40% (from 0.50%) on the unused amount up to 50% (from 35%) of the commitment amount.

As of September 30, 2025, the SPV Facility included (i) total commitments of \$600.0 million from a diversified group of six lenders, (ii) an accordion feature providing MSCC Funding with the right to request increases in commitments under the facility, subject to the satisfaction of various conditions, from new and existing lenders on the same terms and conditions as the existing commitments to up to a total of \$800.0 million and (iii) a revolving period through September 2028 and a final maturity date in September 2030. Advances under the SPV Facility bear interest at a rate equal to the applicable SOFR in effect, plus an applicable margin of 1.95% during the revolving period and 2.075% and 2.20% during the first and second years thereafter, respectively. MSCC Funding pays a commitment fee of 0.40% on the unused lender commitments up to 50% of the total lender commitments and 0.75% on the unused lender commitments greater than 50% of the total lender commitments. The SPV Facility is secured by a first lien loan on the assets of MSCC Funding and its subsidiaries. In connection with the SPV Facility, MSCC Funding has made customary representations and warranties and is subject to certain leverage and borrowing base limitations, covenants, reporting and other requirements customary for similar credit facilities.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

As of September 30, 2025, the interest rate for borrowings on the SPV Facility was 6.2%. The average interest rate for borrowings under the SPV Facility was 6.3% and 7.9% for the three months ended September 30, 2025 and 2024, respectively, and 6.4% and 7.9% for the nine months ended September 30, 2025 and 2024, respectively. As of September 30, 2025, MSCC Funding was in compliance with all financial covenants of the SPV Facility.

July 2026 Notes

In January 2021, Main Street issued \$300.0 million in aggregate principal amount of 3.00% unsecured notes due July 14, 2026 (the “July 2026 Notes”) at an issue price of 99.004%. Subsequently, in October 2021, Main Street issued an additional \$200.0 million in aggregate principal amount of the July 2026 Notes at an issue price of 101.741%. The July 2026 Notes issued in October 2021 have identical terms as, and are a part of a single series with, the July 2026 Notes issued in January 2021. The July 2026 Notes are unsecured obligations and rank pari passu with Main Street’s current and future unsecured indebtedness. The July 2026 Notes may be redeemed in whole or in part at any time at Main Street’s option subject to certain make-whole provisions. The July 2026 Notes bear interest at a rate of 3.00% per year payable semiannually on January 14 and July 14 of each year.

As of September 30, 2025, Main Street was in compliance with all covenants and other requirements of the July 2026 Notes.

June 2027 Notes

In June 2024, Main Street issued \$300.0 million in aggregate principal amount of 6.50% unsecured notes due June 4, 2027 (the “June 2027 Notes”) at an issue price of 99.793%. Subsequently, in September 2024, Main Street issued an additional \$100.0 million in aggregate principal amount of the June 2027 Notes at a public offering price of 102.134% resulting in a yield-to-maturity of 5.617% on such issuance. The \$400.0 million of outstanding June 2027 Notes bear interest at 6.50% per year with a yield-to-maturity of 6.34%. The June 2027 Notes issued in September 2024 have identical terms as, and are a part of a single series with, the June 2027 Notes issued in June 2024. The June 2027 Notes are unsecured obligations and rank pari passu with Main Street’s current and future unsecured indebtedness. The June 2027 Notes may be redeemed in whole or in part at any time at Main Street’s option subject to certain make-whole provisions. The June 2027 Notes bear interest at a rate of 6.50% per year payable semiannually on June 4 and December 4 of each year.

As of September 30, 2025, Main Street was in compliance with all covenants and other requirements of the June 2027 Notes.

August 2028 Notes

In August 2025, Main Street issued \$350.0 million in aggregate principal amount of 5.40% unsecured notes due August 15, 2028 (the “August 2028 Notes”) at an issue price of 99.989%. The August 2028 Notes are unsecured obligations and rank pari passu with Main Street’s current and future unsecured indebtedness. The August 2028 Notes may be redeemed in whole or in part at any time at Main Street’s option subject to certain make-whole provisions. The August 2028 Notes bear interest at a rate of 5.40% per year payable semiannually on February 15 and August 15 of each year.

As of September 30, 2025, Main Street was in compliance with all covenants and other requirements of the August 2028 Notes.

March 2029 Notes

In January 2024, Main Street issued \$350.0 million in aggregate principal amount of 6.95% unsecured notes due March 1, 2029 (the “March 2029 Notes”) at an issue price of 99.865%. The March 2029 Notes are unsecured obligations and rank pari passu with Main Street’s current and future unsecured indebtedness. The March 2029 Notes may be redeemed in whole or in part at any time at Main Street’s option subject to certain make-whole provisions. The March 2029 Notes bear interest at a rate of 6.95% per year payable semiannually on March 1 and September 1 of each year.

As of September 30, 2025, Main Street was in compliance with all covenants and other requirements of the March 2029 Notes.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

SBIC Debentures

Under existing SBIC regulations, SBA-approved SBICs under common control have the ability to issue debentures guaranteed by the SBA up to a regulatory maximum amount of \$350.0 million. Under existing SBA-approved commitments, Main Street, through the Funds, had \$350.0 million of outstanding SBIC debentures as of both September 30, 2025 and December 31, 2024. SBIC debentures provide for interest to be paid semiannually, with principal due at the applicable 10-year maturity date of each debenture. The principal amount of the debentures is not required to be paid before maturity, but may be pre-paid at any time with no prepayment penalty. The weighted-average annual interest rate on the SBIC debentures was 3.3% as of both September 30, 2025 and December 31, 2024. The first principal maturity due under the existing SBIC debentures is in 2027, and the weighted-average remaining duration as of September 30, 2025 was 4.9 years. In accordance with SBIC regulations, the Funds are precluded from incurring additional non-SBIC debt without the prior approval of the SBA. Main Street expects to maintain SBIC debentures under the SBIC program in the future, subject to periodic repayments and borrowings, in an amount up to the regulatory maximum amount for affiliated SBIC funds.

As of September 30, 2025, the SBIC debentures consisted of (i) \$175.0 million par value of SBIC debentures issued by MSMF, with a recorded value of \$170.8 million net of unamortized debt issuance costs of \$4.2 million, and (ii) \$175.0 million par value of SBIC debentures issued by MSC III, with a recorded value of \$173.5 million net of unamortized debt issuance costs of \$1.5 million.

May 2024 Notes

In May 2024, Main Street repaid the \$450.0 million principal amount of the issued and outstanding 5.20% unsecured notes (the “May 2024 Notes”) at maturity at par value plus the accrued and unpaid interest.

December 2025 Notes

In September 2025, Main Street repaid the \$100.0 million principal amount of the issued and outstanding 7.84% Series A unsecured notes (the “December 2025 Series A Notes”) and the \$50.0 million principal amount of the issued and outstanding 7.53% Series B unsecured notes (the “December 2025 Series B Notes”) and, together with the December 2025 Series A Notes, the “December 2025 Notes”) prior to maturity at par value plus the accrued and unpaid interest. The December 2025 Notes were due to mature on December 23, 2025.

NOTE F — FINANCIAL HIGHLIGHTS

The following is a schedule of financial highlights of Main Street for the nine months ended September 30, 2025 and 2024:

Per Share Data:	Nine Months Ended September 30,	
	2025	2024
NAV as of the beginning of the period	\$ 31.65	\$ 29.20
Net investment income (1)	2.92	2.95
Net realized gain (1)(2)	0.04	0.20
Net unrealized appreciation (1)(2)	1.20	0.99
Income tax provision on net realized gain and net unrealized appreciation (1)(2)	(0.10)	(0.27)
Net increase in net assets resulting from operations (1)	4.06	3.87
Dividends paid from net investment income (3)	(3.17)	(3.08)
Dividends paid (3)	(3.17)	(3.08)
Accretive effect of stock offerings (issuing shares above NAV per share)	0.11	0.50
Accretive effect of DRIP issuance (issuing shares above NAV per share)	0.14	0.11
Other (4)	(0.01)	(0.03)
NAV as of the end of the period	\$ 32.78	\$ 30.57
Market value as of the end of the period	\$ 63.59	\$ 50.14
Shares outstanding as of the end of the period	89,536,504	88,059,787

(1) Based on weighted-average number of common shares outstanding for the period.

(2) Net realized gains or losses, net unrealized appreciation or depreciation and related income tax provision or benefit can fluctuate significantly from period to period.

(3) MSCC's taxable income for each period is an estimate and will not be finally determined until MSCC files its tax return for each year. As a result, the character of MSCC's dividends and distributions for each period is also an estimate. Therefore, the final character of MSCC's dividends and distributions may be different than this estimate.

(4) Includes the impact of the different share amounts as a result of calculating certain per share data based on the weighted-average basic shares outstanding during the period and certain per share data based on the shares outstanding as of a period end or transaction date.

Ratio of operating expenses, excluding interest expense, to average NAV (2)(3)	1.82 %	1.81 %
Ratio of net investment income to average NAV (2)	9.10 %	9.93 %
Portfolio turnover ratio (2)	15.72 %	15.62 %
Total investment return (2)(4)	14.47 %	23.65 %
Total return based on change in NAV (2)(5)	12.95 %	13.48 %

(1) Total expenses are the sum of operating expenses and all tax expenses. The total tax provision or benefit includes the accrual of net deferred tax provision or benefit relating to book versus tax differences on income at the Taxable Subsidiaries that is included in net investment income, the net unrealized appreciation or depreciation on portfolio investments held in Taxable Subsidiaries and due to the change in the loss carryforwards, which are non-cash in nature and may vary significantly from period to period. Main Street is required to include net deferred tax provision or benefit in calculating its total expenses even though these net deferred taxes are not currently payable or receivable.

(2) Not annualized.

(3) Unless otherwise noted, operating expenses include interest, compensation, general and administrative and share-based compensation expenses, net of expenses allocated to the External Investment Manager of \$17.0 million and \$16.8 million for the nine months ended September 30, 2025 and 2024, respectively.

(4) Total investment return is based on the purchase of stock at the current market price on the first day and a sale at the current market price on the last day of each period reported on the table and assumes reinvestment of dividends at prices obtained by Main Street's DRIP (as defined below) during the period. The return does not reflect any sales load that may be paid by an investor.

(5) Total return based on change in NAV was calculated using the sum of ending NAV plus dividends to stockholders and other non-operating changes during the period, divided by the beginning NAV. Non-operating changes include any items that affect NAV other than the net increase in net assets resulting from operations, such as the effects of stock offerings, shares issued under the DRIP and equity incentive plans and other miscellaneous items.

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

NOTE G — DIVIDENDS, DISTRIBUTIONS AND TAXABLE INCOME

Main Street currently pays regular monthly dividends to its stockholders and periodically pays supplemental dividends to its stockholders. Future dividends, if any, will be determined by its Board of Directors on a quarterly basis.

Summarized dividend information for the three and nine months ended September 30, 2025 and 2024 is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands, except per share amounts)			
Regular monthly dividends per share	\$ 0.765	\$ 0.735	\$ 2.265	\$ 2.175
Supplemental quarterly dividends per share	0.30	0.30	0.90	0.90
Total dividends per share	\$ 1.065	\$ 1.035	\$ 3.165	\$ 3.075
Total regular monthly dividends paid	\$ 68,543	\$ 64,160	\$ 201,959	\$ 187,385
Total supplemental quarterly dividends paid	26,907	26,405	80,364	77,968
Total dividends paid	\$ 95,450	\$ 90,565	\$ 282,323	\$ 265,353

MSCC has elected to be treated for U.S. federal income tax purposes as a RIC. MSCC's taxable income includes the taxable income generated by MSCC and certain of its subsidiaries, including the Funds and Structured Subsidiaries, which are treated as disregarded entities for tax purposes. As a RIC, MSCC generally will not pay corporate-level U.S. federal income taxes on any net ordinary taxable income or capital gains that MSCC distributes to its stockholders. MSCC must generally distribute at least 90% of its "investment company taxable income" (which is generally its net ordinary taxable income and realized net short-term capital gains in excess of realized net long-term capital losses) and 90% of its tax-exempt income to maintain its RIC status (pass-through tax treatment for amounts distributed). As part of maintaining RIC status, undistributed taxable income (subject to a 4% non-deductible U.S. federal excise tax) pertaining to a given fiscal year may be distributed up to twelve months subsequent to the end of that fiscal year, provided such dividends are declared on or prior to the later of (i) filing of the U.S. federal income tax return for the applicable fiscal year or (ii) the fifteenth day of the ninth month following the close of the year in which such taxable income was generated.

The determination of the tax attributes for Main Street's distributions is made annually, based upon its taxable income for the full year and distributions paid for the full year. Therefore, a determination made on an interim basis may not be representative of the actual tax attributes of distributions for a full year. Ordinary dividend distributions from a RIC do not qualify for the 20% maximum tax rate (plus a 3.8% Medicare surtax, if applicable) on dividend income from domestic corporations and qualified foreign corporations, except to the extent that the RIC received the income in the form of qualifying dividends from domestic corporations and qualified foreign corporations. The tax attributes for distributions will generally include both ordinary income and qualified dividends, but may also include either one or both of capital gains and return of capital.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

Listed below is a reconciliation of “Net increase in net assets resulting from operations” to taxable income and to total distributions declared to common stockholders for the nine months ended September 30, 2025 and 2024.

	Nine Months Ended September 30,	
	2025	2024
	(estimated, in thousands)	
Net increase in net assets resulting from operations	\$ 362,287	\$ 333,847
Book-tax difference from share-based compensation expense	(9,878)	(5,256)
Net unrealized appreciation	(107,217)	(85,431)
Income tax provision	21,360	33,719
Pre-tax book income not consolidated for tax purposes	(96,943)	(72,335)
Book income and tax income differences, including debt origination, structuring fees, dividends, realized gains and changes in estimates	75,778	35,962
Estimated taxable income (1)	245,387	240,506
Taxable income earned in prior year and carried forward for distribution in current year	120,488	56,142
Taxable income earned prior to period end and carried forward for distribution next period	(105,651)	(51,664)
Dividend payable as of period end and paid in the following period	22,832	21,575
Total distributions accrued or paid to common stockholders	\$ 283,056	\$ 266,559

(1) MSCC’s taxable income for each period is an estimate and will not be finally determined until MSCC files its tax return for each year. Therefore, the final taxable income, and the taxable income earned in each period and carried forward for distribution in the following period, may be different than this estimate.

The Taxable Subsidiaries primarily hold certain equity investments for Main Street. The Taxable Subsidiaries permit Main Street to hold equity investments in portfolio companies which are “pass-through” entities for tax purposes and to continue to comply with the “source-of-income” requirements contained in the RIC tax provisions of the Code. The Taxable Subsidiaries are consolidated with MSCC for U.S. GAAP financial reporting purposes, and the portfolio investments held by the Taxable Subsidiaries are included in Main Street’s consolidated financial statements as portfolio investments and recorded at fair value. The Taxable Subsidiaries are not consolidated with MSCC for income tax purposes and may generate income tax expense, or benefit, and tax assets and liabilities, as a result of their ownership of certain portfolio investments. The taxable income, or loss, of the Taxable Subsidiaries may differ from their book income, or loss, due to temporary book and tax timing differences and permanent differences. The Taxable Subsidiaries are each taxed at corporate income tax rates based on their taxable income. The income tax expense, or benefit, if any, and the related tax assets and liabilities, of the Taxable Subsidiaries are reflected in Main Street’s consolidated financial statements.

MAIN STREET CAPITAL CORPORATION
Notes to the Consolidated Financial Statements (Continued)
(Unaudited)

The income tax provision for Main Street is generally composed of (i) deferred tax expense, which is primarily the result of the net activity relating to the portfolio investments held in the Taxable Subsidiaries, including changes in loss carryforwards, changes in net unrealized appreciation or depreciation and other temporary book tax differences, and (ii) current tax expense, which is primarily the result of current U.S. federal income and state taxes relating to net currently taxable activity relating to the portfolio investments held in the Taxable Subsidiaries and excise taxes on Main Street's estimated undistributed taxable income. The income tax expense, or benefit, and the related tax assets and liabilities generated by the Taxable Subsidiaries, if any, are reflected in Main Street's Consolidated Statements of Operations. Main Street's provision for income taxes was comprised of the following for the three and nine months ended September 30, 2025 and 2024:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Net investment income taxes				
<i>Current tax expense:</i>				
Federal	\$ —	\$ 374	\$ —	\$ 1,031
State and other	1,121	1,625	2,268	3,502
Excise	838	458	2,997	1,652
Total current tax expense	1,959	2,457	5,265	6,185
<i>Deferred tax expense (benefit):</i>				
Federal	864	1,021	6,334	3,420
State and other	154	(262)	442	387
Total deferred tax expense	1,018	759	6,776	3,807
Total net investment income tax provision	\$ 2,977	\$ 3,216	\$ 12,041	\$ 9,992
Investment valuation related taxes				
<i>Current tax expense:</i>				
Federal	\$ 2,578	\$ —	\$ 6,969	\$ —
Total current tax expense	2,578	—	6,969	—
<i>Deferred tax expense (benefit):</i>				
Federal	3,774	8,318	3,702	22,438
State and other	389	175	(1,352)	1,289
Total deferred tax expense	4,163	8,493	2,350	23,727
Total investment valuation related income tax provision	\$ 6,741	\$ 8,493	\$ 9,319	\$ 23,727
Total income tax provision	\$ 9,718	\$ 11,709	\$ 21,360	\$ 33,719

The net deferred tax liability as of September 30, 2025 and December 31, 2024 was \$95.2 million and \$86.1 million, respectively, with the change primarily related to changes in net unrealized appreciation or depreciation, changes in loss carryforwards and other temporary book-tax differences relating to portfolio investments held by the Taxable Subsidiaries. As of September 30, 2025, for U.S. federal income tax purposes, the Taxable Subsidiaries had a net operating loss carryforward which is not subject to expiration and will carryforward indefinitely until utilized. Additionally, the Taxable Subsidiaries have interest expense limitation carryforwards which have an indefinite carryforward period.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

NOTE H — COMMON STOCK

Main Street maintains a program with certain selling agents through which it can sell shares of its common stock by means of at-the-market offerings from time to time (the “ATM Program”). During the nine months ended September 30, 2025, Main Street sold 390,990 shares of its common stock at a weighted-average price of \$58.91 per share and raised \$23.0 million of gross proceeds under the ATM Program. Net proceeds were \$22.6 million after commissions to the selling agents on shares sold and offering costs. As of September 30, 2025, there were no share sales transactions that had not settled. In March 2025, Main Street entered into new distribution agreements to sell up to 20,000,000 shares through the ATM Program. As of September 30, 2025, 19,680,372 shares remained available for sale under the ATM Program.

During the year ended December 31, 2024, Main Street sold 2,489,275 shares of its common stock at a weighted-average price of \$49.75 per share and raised \$123.8 million of gross proceeds under the ATM Program. Net proceeds were \$122.2 million after commissions to the selling agents on shares sold and offering costs.

NOTE I — DIVIDEND REINVESTMENT PLAN

The dividend reinvestment feature of Main Street’s dividend reinvestment and direct stock purchase plan (the “DRIP”) provides for the reinvestment of dividends on behalf of its stockholders, unless a stockholder has elected to receive dividends in cash. As a result, if Main Street declares a cash dividend, its stockholders who have not “opted out” of the DRIP by the dividend record date will have their cash dividend automatically reinvested into additional shares of Main Street common stock. The share requirements of the DRIP may be satisfied through the issuance of shares of common stock or through open market purchases of common stock by the DRIP plan administrator. Newly issued shares will be valued based upon the final closing price of Main Street’s common stock on the valuation date determined for each dividend by Main Street’s Board of Directors. Shares purchased in the open market to satisfy the DRIP requirements will be valued based upon the average price of the applicable shares purchased, before any associated brokerage or other costs. Main Street’s DRIP is administered by its transfer agent on behalf of Main Street’s record holders and participating brokerage firms. Brokerage firms and other financial intermediaries may decide not to participate in Main Street’s DRIP but may provide a similar dividend reinvestment plan for their clients.

Summarized DRIP information for the nine months ended September 30, 2025 and 2024 is as follows:

	Nine Months Ended September 30,	
	2025	2024
	(dollars in thousands)	
DRIP participation	\$ 28,052	\$ 26,530
Shares issued for DRIP	471,425	552,691

NOTE J — SHARE-BASED COMPENSATION

Main Street accounts for its share-based compensation plans using the fair value method, as prescribed by ASC 718, *Compensation—Stock Compensation*. Accordingly, for restricted stock awards (“RSAs”), Main Street measured the grant date fair value based upon the market price of its common stock on the date of the grant and amortizes the fair value of the awards as share-based compensation expense over the requisite service period, which is generally the vesting term.

Main Street’s Board of Directors approves the issuance of shares of restricted stock to Main Street employees pursuant to the Main Street Capital Corporation 2022 Equity and Incentive Plan (the “Equity and Incentive Plan”). These shares generally vest over a three-year or five-year period from the grant date. The fair value is expensed over the service period, starting on the grant date. The following table summarizes the restricted stock issuances approved by Main Street’s Board of Directors under the Equity and Incentive Plan, net of shares forfeited, if any, and the remaining shares of restricted stock available for issuance as of September 30, 2025.

Restricted stock authorized under the plan	5,000,000
Less net restricted stock granted	(1,483,101)
Restricted stock available for issuance as of September 30, 2025	<u>3,516,899</u>

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

As of September 30, 2025, the following table summarizes the restricted stock issued to Main Street’s non-employee directors and the remaining shares of restricted stock available for issuance pursuant to the Main Street Capital Corporation 2022 Non-Employee Director Restricted Stock Plan. These shares are granted upon appointment or election to the board and vest on the day immediately preceding the annual meeting of stockholders following the respective grant date and are expensed over such service period.

Restricted stock authorized under the plan	300,000
Less net restricted stock granted	(14,455)
Restricted stock available for issuance as of September 30, 2025	<u>285,545</u>

For the three months ended September 30, 2025 and 2024, Main Street recognized total share-based compensation expense of \$5.4 million and \$4.9 million, respectively, related to the restricted stock issued to Main Street employees and non-employee directors. For the nine months ended September 30, 2025 and 2024, Main Street recognized total share-based compensation expense of \$15.7 million and \$13.9 million, respectively.

Summarized RSA activity for the nine months ended September 30, 2025 is as follows:

Restricted Stock Awards (RSAs):	Nine Months Ended September 30, 2025	
	Number of Shares	Weighted-Average Grant-Date Fair Value (dollars per share)
Non-vested, December 31, 2024	1,039,417	\$ 43.62
Granted (1)	457,393	57.72
Vested (1)(2)	(455,787)	42.95
Forfeited	(19,751)	51.46
Non-vested, September 30, 2025	<u>1,021,272</u>	<u>\$ 50.08</u>
Aggregate intrinsic value as of September 30, 2025 (in thousands)	<u>\$ 64,943</u> (3)	

(1) Restricted units generally vest over a three-year or five-year period from the grant date (as noted above).

(2) Vested shares included 177,090 shares withheld for payroll taxes paid on behalf of employees.

(3) Aggregate intrinsic value is the product of total non-vested restricted shares as of September 30, 2025 and \$63.59 per share, the closing price of Main Street’s common stock on September 30, 2025.

As of September 30, 2025, there was \$40.3 million of total unrecognized compensation expense related to Main Street’s non-vested restricted shares. This compensation expense is expected to be recognized over a remaining weighted-average period of 2.6 years as of September 30, 2025.

- (1) This table excludes commitments related to four additional Other Portfolio investments for which the investment period has expired and remaining commitments may only be drawn to pay fund expenses. The Company does not expect any material future capital to be called on its commitment to these investments and as a result has excluded those commitments from this table.
- (2) This table excludes commitments related to five additional Other Portfolio investments for which the investment period has expired and remaining commitments may only be drawn to pay fund expenses or for follow-on investments in existing portfolio companies. The Company does not expect any material future capital to be called on its commitment to these investments to pay fund expenses, and based on representations from the fund manager, the Company does not expect any further capital will be called on its commitment for follow-on investments. As a result, the Company has excluded those commitments from this table.

Main Street will fund its unfunded commitments from the same sources it uses to fund its investment commitments that are funded at the time they are made (which are typically through existing cash and cash equivalents and borrowings under the Credit Facilities). Main Street follows a process to manage its liquidity and ensure that it has available capital to fund its unfunded commitments as necessary. The Company had no unrealized appreciation or depreciation on the outstanding unfunded commitments as of September 30, 2025.

Main Street may, from time to time, be involved in litigation arising out of its operations in the normal course of business or otherwise. Furthermore, third parties may seek to impose liability on Main Street in connection with the activities of its portfolio companies. While the outcome of any current legal proceedings cannot at this time be predicted with certainty, Main Street does not expect any current matters will materially affect its financial condition or results of operations; however, there can be no assurance whether any pending or future legal proceedings will have a material adverse effect on Main Street's financial condition or results of operations in any future reporting period.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

NOTE L — RELATED PARTY TRANSACTIONS

As discussed further in *Note D — External Investment Manager*, the External Investment Manager is treated as a wholly-owned portfolio company of Main Street and is included as part of Main Street’s Investment Portfolio. As of September 30, 2025, Main Street had a receivable of \$10.3 million due from the External Investment Manager, which included (i) \$7.2 million related primarily to operating expenses incurred by Main Street as required to support the External Investment Manager’s business and amounts due from the External Investment Manager to Main Street under a tax sharing agreement (see further discussion in *Note D — External Investment Manager*) and (ii) \$3.1 million of dividends declared but not paid by the External Investment Manager. MSCC has entered into an agreement with the External Investment Manager to share employees in connection with its asset management business generally, and specifically for the External Investment Manager’s relationship with MSC Income and its other clients (see further discussion in *Note A.I. — Organization and Basis of Presentation — Organization and Note D — External Investment Manager*).

From time to time, Main Street may make investments in clients of the External Investment Manager in the form of debt or equity capital on terms approved by Main Street’s Board of Directors, including each director who is not an “interested person,” as such term is defined in Section 2(a)(19) of the 1940 Act.

Following the closing of the MSC Income’s follow-on public offering, Main Street entered into a share purchase plan to purchase up to \$20.0 million in the aggregate of shares of MSC Income common stock in the open market for a twelve-month period beginning in March 2025, at times when the market price per share of MSC Income common stock is trading below the most recently reported NAV per share of MSC Income’s common stock by certain pre-determined levels (including any updates, corrections or adjustments publicly announced by MSC Income to any previously announced NAV per share). The purchases of shares of MSC Income common stock pursuant to the share purchase plan are intended to satisfy the conditions of Rule 10b5-1 and Rule 10b-18 under the Exchange Act and will otherwise be subject to applicable law, including Regulation M, which may prohibit purchases under certain circumstances. MSC Income also entered into a share repurchase plan to purchase up to \$65.0 million in the aggregate of its common stock in the open market with terms and conditions substantially similar to Main Street’s share purchase plan for shares of MSC Income common stock, and daily purchases under the two plans, if any, are expected to be split pro rata (or as close thereto as reasonably possible) between Main Street and MSC Income based on the respective plan sizes. In connection with Main Street’s potential acquisition in excess of 3% of MSC Income’s outstanding shares of common stock as a result of any purchases pursuant to Main Street’s share purchase plan for shares of MSC Income common stock or otherwise, Main Street entered into a Fund of Funds Investment Agreement with MSC Income. The Fund of Funds Investment Agreement provides for the acquisition by Main Street of MSC Income’s shares of common stock, and MSC Income’s sale of such shares to Main Street, in a manner consistent with the requirements of Rule 12d1-4 under the 1940 Act.

The following table summarizes Main Street’s purchases of shares of MSC Income’s common stock during the three months ended September 30, 2025, pursuant to the share purchase plan.

Period	Total number of shares purchased	Average price paid per share (1)	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs
(in thousands, except shares and per share amounts)				
July 1 through July 31, 2025	—	\$ —	—	\$ 19,955
August 1 through August 31, 2025	14,010	14.25	14,010	19,756
September 1 through September 30, 2025	41,611	13.98	41,611	19,175

(1) Includes broker commissions.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

As of September 30, 2025, Main Street owned 1,433,573 shares of MSC Income's common stock. Each of Main Street's purchases of MSC Income common stock, either individually or through approval of the share purchase plan, was unanimously approved by the Board of Directors and MSC Income's board of directors, including each director who is not an "interested person," as such term is defined in Section 2(a)(19) of the 1940 Act, of each board. In addition, certain of Main Street's officers and employees own shares of MSC Income and therefore have direct pecuniary interests in MSC Income.

In December 2020, the External Investment Manager entered into an investment management agreement with Private Loan Fund I to provide investment advisory and management services in exchange for an asset-based fee and certain incentive fees. Private Loan Fund I is a private investment fund exempt from registration under the 1940 Act that co-invests with Main Street in Main Street's Private Loan investment strategy. In connection with Private Loan Fund I's initial closing in December 2020, Main Street committed to contribute up to \$10.0 million as a limited partner and is entitled to distributions on such interest. In February 2022, Main Street increased its total commitment to Private Loan Fund I from \$10.0 million to \$15.0 million. In addition, certain of Main Street's officers and employees (and certain of their immediate family members) have made capital commitments to Private Loan Fund I as limited partners and therefore have direct pecuniary interests in Private Loan Fund I. As of September 30, 2025, Main Street has funded \$14.2 million of its limited partner commitment and Main Street's unfunded commitment was \$0.8 million. Main Street's limited partner commitment to Private Loan Fund I was unanimously approved by the Board of Directors, including each director who is not an "interested person," as such term is defined in Section 2(a)(19) of the 1940 Act.

In March 2022, Main Street provided Private Loan Fund I with a revolving line of credit pursuant to a Secured Revolving Promissory Note, dated March 17, 2022 (as amended, the "PL Fund 2022 Note"), which provides for borrowings up to \$15.0 million. Borrowings under the PL Fund 2022 Note bear interest at a rate of SOFR plus 3.0%, subject to a 2.0% SOFR floor, can be advanced through March 2026 and mature in March 2027. Available borrowings under the PL Fund 2022 Note are subject to a 0.25% non-use fee. The borrowings are collateralized by all assets of Private Loan Fund I (other than the assets of its special purpose vehicle financing subsidiary). The PL Fund 2022 Note was unanimously approved by Main Street's Board of Directors, including each director who is not an "interested person," as such term is defined in Section 2(a)(19) of the 1940 Act. As of September 30, 2025, there were \$8.7 million of borrowings outstanding under the PL Fund 2022 Note.

In September 2023, the External Investment Manager entered into an investment management agreement with Private Loan Fund II to provide investment advisory and management services in exchange for an asset-based fee and certain incentive fees. Private Loan Fund II is a private investment fund exempt from registration under the 1940 Act that co-invests with Main Street in Main Street's Private Loan investment strategy. In connection with Private Loan Fund II's initial closing in September 2023, Main Street committed to contribute up to \$15.0 million (limited to 20% of total commitments) as a limited partner and is entitled to distributions on such interest. In addition, certain of Main Street's officers and employees (and certain of their immediate family members) have made capital commitments to Private Loan Fund II as limited partners and therefore have direct pecuniary interests in Private Loan Fund II. As of September 30, 2025, Main Street has funded \$9.0 million of its limited partner commitment and Main Street's unfunded commitment was \$6.0 million. Main Street's limited partner commitment to Private Loan Fund II was unanimously approved by the Board of Directors, including each director who is not an "interested person," as such term is defined in Section 2(a)(19) of the 1940 Act.

In September 2023, Main Street provided Private Loan Fund II with a revolving line of credit pursuant to a Secured Revolving Promissory Note, dated September 5, 2023 (as amended, the "PL Fund II 2023 Note"), which provided for borrowings up to \$50.0 million. Borrowings under the PL Fund II 2023 Note bore interest at a rate of SOFR plus 3.5%, subject to a 2.0% SOFR floor, and was scheduled to mature on September 5, 2025. Available borrowings under the PL Fund II 2023 Note were subject to a 0.25% non-use fee. The borrowings were collateralized by all assets of Private Loan Fund II. The PL Fund II 2023 Note was unanimously approved by Main Street's Board of Directors, including each director who is not an "interested person," as such term is defined in Section 2(a)(19) of the 1940 Act. In November 2024, Private Loan Fund II fully repaid all borrowings outstanding under the PL Fund II 2023 Note and the PL Fund II 2023 Note was extinguished.

MAIN STREET CAPITAL CORPORATION

Notes to the Consolidated Financial Statements (Continued)

(Unaudited)

In November 2024, Main Street provided Private Loan Fund II with a revolving line of credit pursuant to a Secured Revolving Promissory Note, dated November 22, 2024 (the “PL Fund II 2024 Note”), which provides for borrowings up to \$10.0 million. Borrowings under the PL Fund II 2024 Note bear interest at a rate of SOFR plus 3.0%, subject to a 2.0% SOFR floor, and mature on the date upon which Private Loan Fund II’s investment period concludes, which is scheduled to occur in June 2029. Available borrowings under the PL Fund II 2024 Note are subject to a 0.25% non-use fee. The borrowings are collateralized by all assets of Private Loan Fund II (other than the assets of its special purpose vehicle financing subsidiary). The PL Fund II 2024 Note was unanimously approved by Main Street’s Board of Directors, including each director who is not an “interested person,” as such term is defined in Section 2(a)(19) of the 1940 Act. As of September 30, 2025, there were no borrowings outstanding under the PL Fund II 2024 Note.

As described in *Note B.9. — Summary of Significant Accounting Policies — Deferred Compensation Plan*, participants in the Deferred Compensation Plan elect one or more investment options, including phantom Main Street stock units, interests in affiliated funds and various mutual funds, where their deferred amounts are notionally invested pending distribution pursuant to participant elections and plan terms. As of September 30, 2025, \$32.1 million of directors’ fees and employee compensation, plus net unrealized gains and losses and investment income, and minus previous distributions, was deferred under the Deferred Compensation Plan. As of September 30, 2025, \$12.5 million was deferred into phantom Main Street stock units, representing 196,761 shares of Main Street’s common stock. In addition, as of September 30, 2025, the Company had \$19.6 million of funded investments from deferred compensation in trust, including \$2.1 million in Private Loan Fund I and \$4.5 million in Private Loan Fund II.

NOTE M — SUBSEQUENT EVENTS

The Company’s management has evaluated subsequent events through the date of issuance of the consolidated financial statements, and identified the following to report:

In November 2025, Main Street declared a supplemental dividend of \$0.30 per share payable in December 2025. This supplemental dividend is in addition to the previously announced regular monthly dividends that Main Street declared of \$0.255 per share for each month of October, November and December 2025, or total regular monthly dividends of \$0.765 per share for the fourth quarter of 2025, resulting in total dividends declared for the fourth quarter of 2025 of \$1.065 per share.

In November 2025, Main Street also declared regular monthly dividends of \$0.26 per share for each month of January, February and March of 2026. These regular monthly dividends equal a total of \$0.78 per share for the first quarter of 2026, representing a 4.0% increase from the regular monthly dividends paid in the first quarter of 2025. Including the regular monthly and supplemental dividends declared for the fourth quarter of 2025 and first quarter of 2026, Main Street will have paid \$47.935 per share in cumulative dividends since its October 2007 initial public offering.

Amounts related to investments transferred to or from other 1940 Act classification during the period							3,453	3,450	1,436	29,588	—	—	—
Total Affiliate investments							\$ 57,709	\$ 4,518	\$ 71,908	\$ 846,798	\$ 358,386	\$ 282,682	\$ 892,914

- (1) The principal amount, the ownership detail for equity investments and if the investment is income producing is included in the Consolidated Schedule of Investments included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q.
- (2) Represents the total amount of interest, fees and dividends credited to income for the portion of the period for which an investment was included in Control or Affiliate categories, respectively. For investments transferred between Control and Affiliate categories during the period, any income or investment balances related to the time period it was in the category other than the one shown at period end is included in "Amounts related to investments transferred from other 1940 Act classifications during the period."
- (3) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, follow-on investments and accrued PIK interest, and the exchange of one or more existing securities for one or more new securities. Gross additions also include net increases in unrealized appreciation or net decreases in net unrealized depreciation as well as the movement of an existing portfolio company into this category and out of a different category.

MAIN STREET CAPITAL CORPORATION
Consolidated Schedule of Investments in and Advances to Affiliates (Continued)
September 30, 2025
(dollars in thousands)
(Unaudited)

- (4) Gross reductions include decreases in the cost basis of investments resulting from principal repayments or sales and the exchange of one or more existing securities for one or more new securities. Gross reductions also include net increases in net unrealized depreciation or net decreases in unrealized appreciation as well as the movement of an existing portfolio company out of this category and into a different category.
- (5) Portfolio company located in the Midwest region as determined by location of the corporate headquarters. The fair value as of September 30, 2025 for Control investments located in this region was \$589,459. This represented 20.1% of net assets as of September 30, 2025. The fair value as of September 30, 2025 for Affiliate investments located in this region was \$181,094. This represented 6.2% of net assets as of September 30, 2025.
- (6) Portfolio company located in the Northeast region and Canada as determined by location of the corporate headquarters. The fair value as of September 30, 2025 for Control investments located in this region was \$158,589. This represented 5.4% of net assets as of September 30, 2025. The fair value as of September 30, 2025 for Affiliate investments located in this region was \$125,926. This represented 4.3% of net assets as of September 30, 2025.
- (7) Portfolio company located in the Southeast region as determined by location of the corporate headquarters. The fair value as of September 30, 2025 for Control investments located in this region was \$72,101. This represented 2.5% of net assets as of September 30, 2025. The fair value as of September 30, 2025 for Affiliate investments located in this region was \$270,957. This represented 9.2% of net assets as of September 30, 2025.
- (8) Portfolio company located in the Southwest region as determined by location of the corporate headquarters. The fair value as of September 30, 2025 for Control investments located in this region was \$1,043,897. This represented 35.6% of net assets as of September 30, 2025. The fair value as of September 30, 2025 for Affiliate investments located in this region was \$187,380. This represented 6.4% of net assets as of September 30, 2025.
- (9) Portfolio company located in the West region as determined by location of the corporate headquarters. The fair value as of September 30, 2025 for Control investments located in this region was \$552,128. This represented 18.8% of net assets as of September 30, 2025. The fair value as of September 30, 2025 for Affiliate investments located in this region was \$127,557. This represented 4.3% of net assets as of September 30, 2025.
- (10) All of the Company's portfolio investments are generally subject to restrictions on resale as "restricted securities," unless otherwise noted.
- (11) This schedule should be read in conjunction with the Consolidated Schedule of Investments and Notes to the Consolidated Financial Statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q. Supplemental information can be located within the Consolidated Schedule of Investments including end of period interest rate, preferred dividend rate, maturity date, investments not paid currently in cash and investments whose value was determined using significant unobservable inputs.
- (12) Investment has an unfunded commitment as of September 30, 2025 (see *Note K — Commitments and Contingencies*). The fair value of the investment includes the impact of the fair value of any unfunded commitments.
- (13) Negative fair value is the result of the capitalized discount being greater than the principal amount outstanding on the loan.

- (5) Portfolio company located in the Midwest region as determined by location of the corporate headquarters. The fair value as of September 30, 2024 for Control investments located in this region was \$518,932. This represented 19.3% of net assets as of September 30, 2024. The fair value as of September 30, 2024 for Affiliate investments located in this region was \$203,627. This represented 7.6% of net assets as of September 30, 2024.
- (6) Portfolio company located in the Northeast region and Canada as determined by location of the corporate headquarters. The fair value as of September 30, 2024 for Control investments located in this region was \$287,130. This represented 10.7% of net assets as of September 30, 2024. The fair value as of September 30, 2024 for Affiliate investments located in this region was \$84,630. This represented 3.1% of net assets as of September 30, 2024.
- (7) Portfolio company located in the Southeast region as determined by location of the corporate headquarters. The fair value as of September 30, 2024 for Control investments located in this region was \$50,636. This represented 1.9% of net assets as of September 30, 2024. The fair value as of September 30, 2024 for Affiliate investments located in this region was \$170,755. This represented 6.3% of net assets as of September 30, 2024.
- (8) Portfolio company located in the Southwest region as determined by location of the corporate headquarters. The fair value as of September 30, 2024 for Control investments located in this region was \$851,838. This represented 31.6% of net assets as of September 30, 2024. The fair value as of September 30, 2024 for Affiliate investments located in this region was \$163,808. This represented 6.1% of net assets as of September 30, 2024.
- (9) Portfolio company located in the West region as determined by location of the corporate headquarters. The fair value as of September 30, 2024 for Control investments located in this region was \$396,040. This represented 14.7% of net assets as of September 30, 2024. The fair value as of September 30, 2024 for Affiliate investments located in this region was \$161,272. This represented 6.0% of net assets as of September 30, 2024.
- (10) All of the Company's portfolio investments are generally subject to restrictions on resale as "restricted securities," unless otherwise noted.
- (11) This schedule should be read in conjunction with the Consolidated Schedule of Investments and Notes to the Consolidated Financial Statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q. Supplemental information can be located within the Consolidated Schedule of Investments including end of period interest rate, preferred dividend rate, maturity date, investments not paid currently in cash and investments whose value was determined using significant unobservable inputs.
- (12) Investment has an unfunded commitment as of September 30, 2024 (see *Note K — Commitments and Contingencies*). The fair value of the investment includes the impact of the fair value of any unfunded commitments.
- (13) Negative fair value is the result of the capitalized discount being greater than the principal amount outstanding on the loan.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q contains forward-looking statements regarding the plans and objectives of management for future operations and which relate to future events or our future performance or financial condition. Any such forward-looking statements may involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend" or "project" or the negative of these words or other variations on these words or comparable terminology. These forward-looking statements are based on assumptions that may be incorrect, and we cannot assure you that the projections included in these forward-looking statements will come to pass. Our actual results could differ materially from those expressed or implied by the forward-looking statements as a result of various factors, including, without limitation, the factors referenced in Item 1A entitled "Risk Factors" below in this Quarterly Report on Form 10-Q, if any, and discussed in Item 1A entitled "Risk Factors" in our [Annual Report on Form 10-K for the year ended December 31, 2024](#), filed with the Securities and Exchange Commission ("SEC") on February 28, 2025 and elsewhere in this Quarterly Report on Form 10-Q and our other SEC filings. Other factors that could cause actual results to differ materially include changes in the economy and future changes in laws or regulations and conditions in our operating areas.

We have based the forward-looking statements included in this Quarterly Report on Form 10-Q on information available to us on the date of this Quarterly Report on Form 10-Q, and we assume no obligation to update any such forward-looking statements, unless we are required to do so by applicable law. However, you are advised to refer to any additional disclosures that we may make directly to you or through reports that we in the future may file with the SEC, including subsequent periodic and current reports.

This discussion should be read in conjunction with our consolidated financial statements as of December 31, 2024, and for the year then ended, and Management's Discussion and Analysis of Financial Condition and Results of Operations, both contained in our [Annual Report on Form 10-K for the year ended December 31, 2024](#), as well as the consolidated financial statements (unaudited) and notes to the consolidated financial statements (unaudited) contained in this report.

ORGANIZATION

Main Street Capital Corporation ("MSCC" or, together with its consolidated subsidiaries, "Main Street" or the "Company") is a principal investment firm primarily focused on providing customized long-term debt and equity capital solutions to lower middle market ("LMM") companies (its "LMM investment strategy") and debt capital to private ("Private Loan") companies owned by or in the process of being acquired by a private equity fund (its "Private Loan investment strategy"). Main Street's portfolio investments are typically made to support management buyouts, recapitalizations, growth financings, refinancings and acquisitions of companies that operate in diverse industry sectors. Main Street seeks to partner with entrepreneurs, business owners and management teams and generally provides "one-stop" debt and equity financing solutions within its LMM investment strategy. Main Street invests primarily in secured debt investments, equity investments, warrants and other securities of LMM companies typically based in the United States. Main Street also seeks to partner with private equity fund sponsors in its Private Loan investment strategy and primarily invests in secured debt investments of Private Loan companies generally headquartered in the United States.

Main Street also maintains a legacy portfolio of investments in larger middle market ("Middle Market") companies (its "Middle Market investment portfolio") and a limited portfolio of other portfolio ("Other Portfolio") investments. Main Street's Middle Market investments are generally debt investments in companies owned by a private equity fund that were originally issued through a syndication financing process. Main Street has generally stopped making new Middle Market investments and expects the size of its Middle Market investment portfolio to continue to decline in future periods as its existing Middle Market investments are repaid or sold. Main Street's Other Portfolio investments primarily consist of investments that are not consistent with the typical profiles for its LMM, Private Loan or Middle Market portfolio investments, including investments in unaffiliated investment companies and private funds managed by third parties.

The "Investment Portfolio," as used herein, refers to all of Main Street's investments in LMM portfolio companies, investments in Private Loan portfolio companies, investments in Middle Market portfolio companies, Other Portfolio investments, short-term portfolio investments (as discussed in *Note C — Fair Value Hierarchy for Investments — Portfolio Composition — Investment Portfolio Composition* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q) and the investment in the External Investment Manager (as defined below).

MSCC was formed in March 2007 to operate as an internally managed business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). Because MSCC is internally managed, all of the executive officers and other employees are employed by MSCC. Therefore, MSCC does not pay any external investment advisory fees, but instead directly incurs the operating costs associated with employing investment and portfolio management professionals.

MSCC wholly owns several investment funds, including Main Street Mezzanine Fund, LP (“MSMF”) and Main Street Capital III, LP (“MSC III”) and, together with MSMF, the “Funds”), and each of their general partners. The Funds are each licensed as a Small Business Investment Company (“SBIC”) by the United States Small Business Administration (“SBA”).

MSC Adviser I, LLC (the “External Investment Manager”) was formed in November 2013 as a wholly-owned subsidiary of Main Street to provide investment management and other services to parties other than Main Street (“External Parties”) and earns fee income for such services. MSCC has been granted no-action relief by the SEC to allow the External Investment Manager to register as a registered investment adviser under the Investment Advisers Act of 1940, as amended. Since the External Investment Manager conducts all of its investment management activities for External Parties, it is accounted for as a portfolio investment of Main Street and is not included as a consolidated subsidiary in Main Street’s consolidated financial statements.

MSCC has elected to be treated for U.S. federal income tax purposes as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). As a result, MSCC generally does not pay corporate-level U.S. federal income taxes on any net ordinary taxable income or capital gains that it distributes to its stockholders.

MSCC has certain direct and indirect wholly-owned subsidiaries that have elected to be taxable entities (the “Taxable Subsidiaries”). The primary purpose of the Taxable Subsidiaries is to permit MSCC to hold equity investments in portfolio companies which are “pass-through” entities for tax purposes. MSCC also has certain direct and indirect wholly-owned subsidiaries formed for financing purposes (the “Structured Subsidiaries”).

Unless otherwise noted or the context otherwise indicates, the terms “we,” “us,” “our,” the “Company” and “Main Street” refer to MSCC and its consolidated subsidiaries, which include the Funds, the Taxable Subsidiaries and the Structured Subsidiaries.

OVERVIEW OF OUR BUSINESS

Our principal investment objective is to maximize our Investment Portfolio’s total return by generating current income from our debt investments and current income and capital appreciation from our equity and equity-related investments, including warrants, convertible securities and other rights to acquire equity securities in a portfolio company. We seek to achieve our investment objective primarily through our LMM and Private Loan investment strategies. Our LMM investment strategy involves investments in companies that generally have annual revenues between \$10 million and \$150 million and annual earnings before interest, tax, depreciation and amortization expenses (“EBITDA”) between \$3 million and \$20 million. Our LMM portfolio investments generally range in size from \$5 million to \$125 million. Our Private Loan investment strategy involves investments in companies that generally have annual revenues between \$25 million and \$500 million and annual EBITDA between \$7.5 million and \$50 million. Our Private Loan investments generally range in size from \$10 million to \$100 million.

We seek to fill the financing gap for LMM businesses, which, historically, have had limited access to financing from commercial banks and other traditional sources. The underserved nature of the LMM creates the opportunity for us to meet the financing needs of LMM companies while also negotiating favorable transaction terms and equity participation. Our ability to invest across a company’s capital structure, from secured loans to equity securities, allows us to offer portfolio companies a comprehensive suite of financing options, or a “one-stop” financing solution. We believe that providing customized, “one-stop” financing solutions is important and valuable to LMM portfolio companies. We generally seek to partner directly with entrepreneurs, management teams and business owners in making our LMM investments. Our LMM portfolio debt investments are generally secured by a first priority lien on the assets of the portfolio company and typically have a term of between five and seven years from the original investment date.

Private Loan investments primarily consist of debt securities that have primarily been originated directly by us or, to a lesser extent, through our strategic relationships with other investment funds on a collaborative basis through investments that are often referred to in the debt markets as “club deals” because of the small lender group size. In both cases, our Private Loan investments are typically made in a company owned by or in the process of being acquired by a private equity fund. Our Private Loan portfolio debt investments are generally secured by a first priority lien on the assets of the portfolio company and typically have a term of between three and seven years from the original investment date. We may also co-invest with the private equity fund in the equity securities of our Private Loan portfolio companies.

We also maintain a legacy portfolio of investments in larger Middle Market companies. Our Middle Market investments are generally debt investments in companies owned by a private equity fund that were originally issued through a syndication financing process. We have generally stopped making new Middle Market investments and expect the size of our Middle Market investment portfolio to continue to decline in future periods as existing Middle Market investments are repaid or sold. Our Middle Market debt investments generally range in size from \$3 million to \$25 million, are generally secured by a first priority lien on the assets of the portfolio company and typically have an expected duration of between three and seven years from the original investment date.

Our Other Portfolio investments primarily consist of investments that are not consistent with the typical profiles for our LMM, Private Loan or Middle Market portfolio investments, including investments which may be managed by third parties. In our Other Portfolio, we may incur indirect fees and expenses in connection with investments managed by third parties, such as investments in other investment companies or private funds.

Based upon our liquidity and capital structure management activities, our Investment Portfolio may also periodically include short-term portfolio investments that are atypical of our LMM and Private Loan portfolio investments in that they are intended to be a short-term deployment of capital. These assets are typically expected to be realized in one year or less and are not expected to be a significant portion of our overall Investment Portfolio.

Our external asset management business is conducted through the External Investment Manager. The External Investment Manager earns management fees based on the assets of the funds under management and may earn incentive fees, or a carried interest, based on the performance of the funds managed.

Our portfolio investments are generally made through MSCC, the Taxable Subsidiaries, the Funds and the Structured Subsidiaries. MSCC, the Taxable Subsidiaries, the Funds and the Structured Subsidiaries share the same investment strategies and criteria, although they are subject to different regulatory regimes. An investor’s return in MSCC will depend, in part, on the Taxable Subsidiaries’, the Funds’ and the Structured Subsidiaries’ investment returns as they are wholly-owned subsidiaries of MSCC.

The level of new portfolio investment activity will fluctuate from period to period based upon our view of the current economic fundamentals, our ability to identify new investment opportunities that meet our investment criteria and our ability to consummate the identified opportunities. The level of new investment activity, and associated interest and fee income, will directly impact future investment income. In addition, the level of dividends paid by portfolio companies and the portion of our portfolio debt investments on non-accrual status will directly impact future investment income. While we intend to grow our portfolio and our investment income over the long term, our growth and our operating results may be more limited during depressed economic periods. However, we intend to appropriately manage our cost structure and liquidity position based on applicable economic conditions and our investment outlook. The level of realized gains or losses and unrealized appreciation or depreciation on our investments will also fluctuate depending upon portfolio activity, economic conditions and the performance of our individual portfolio companies. The changes in realized gains and losses and unrealized appreciation or depreciation could have a material impact on our operating results.

Because we are internally managed, we do not pay any external investment advisory fees, but instead directly incur the operating costs associated with employing investment and portfolio management professionals. We believe that our internally managed structure provides us with a better alignment of interests between our management team and our employees and our stockholders and a beneficial operating expense structure when compared to other publicly traded and privately held investment firms which are externally managed, and our internally managed structure allows us the opportunity to leverage our non-interest operating expenses as we grow our Investment Portfolio and our External Investment Manager's asset management business (as described below). The ratio of our total operating expenses, excluding interest expense, as a percentage of our quarterly average total assets was 1.3% for each of the trailing twelve months ended September 30, 2025 and 2024 and for the year ended December 31, 2024. The ratio of our total operating expenses, including interest expense, as a percentage of our quarterly average total assets was 3.8% and 3.7% for the trailing twelve months ended September 30, 2025 and 2024, respectively, and 3.8% for the year ended December 31, 2024. Our ratio of expenses as a percentage of our average net asset value ("NAV") is described in greater detail in *Note F — Financial Highlights* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q.

The External Investment Manager serves as the investment adviser and administrator to MSC Income Fund, Inc. ("MSC Income") pursuant to an Investment Advisory and Administrative Services Agreement entered into in October 2020 between the External Investment Manager and MSC Income (as amended and restated on January 29, 2025, the "Advisory Agreement"). Under the Advisory Agreement, prior to January 29, 2025, the External Investment Manager earned a 1.75% annual base management fee on MSC Income's average total assets, a subordinated incentive fee on income equal to 20% of pre-incentive fee net investment income above a specified investment return hurdle rate and a 20% incentive fee on cumulative net realized capital gains in exchange for providing advisory services to MSC Income. On and after January 29, 2025, under the Advisory Agreement, the External Investment Manager earns a 1.5% annual base management fee on MSC Income's average total assets (including cash and cash equivalents), payable quarterly in arrears (with additional future contractual reductions based upon changes to MSC Income's investment portfolio composition), a subordinated incentive fee on income equal to 17.5% of pre-incentive fee net investment income above a specified investment return hurdle rate, subject to a 50% / 50% catch-up feature, and a 17.5% incentive fee on cumulative net realized capital gains from January 29, 2025.

Additionally, the External Investment Manager has entered into investment management agreements with MS Private Loan Fund I, LP ("Private Loan Fund I") and MS Private Loan Fund II, LP ("Private Loan Fund II"), each a private investment fund with a strategy to co-invest with Main Street in Private Loan portfolio investments, pursuant to which the External Investment Manager provides investment advisory and management services to each fund in exchange for an asset-based management fee and certain incentive fees. The External Investment Manager may also advise other clients, including funds and separately managed accounts, pursuant to advisory and services agreements with such clients in exchange for asset-based and incentive fees.

The External Investment Manager earns management fees based on the assets of the funds and accounts under management and may earn incentive fees, or a carried interest, based on the performance of the funds and accounts managed. For the three months ended September 30, 2025 and 2024, the External Investment Manager earned \$5.6 million and \$6.1 million in base management fees, respectively, \$3.9 million and \$2.4 million in incentive fees, respectively, and \$0.2 million of administrative service fee income for each of the three months ended September 30, 2025 and 2024. For the nine months ended September 30, 2025 and 2024, the External Investment Manager earned \$17.1 million and \$17.7 million in base management fees, respectively, \$10.3 million and \$10.4 million in incentive fees, respectively, and \$0.5 million of administrative service fee income for each of the nine months ended September 30, 2025 and 2024.

We have entered into an agreement with the External Investment Manager to share employees in connection with its asset management business generally, and specifically for its relationship with MSC Income and its other clients. Through this agreement, we share employees with the External Investment Manager, including their related infrastructure, business relationships, management expertise and capital raising capabilities, and we allocate the related expenses to the External Investment Manager pursuant to the sharing agreement. Our total expenses for the three months ended September 30, 2025 and 2024 are net of expenses allocated to the External Investment Manager of \$5.7 million and \$5.3 million, respectively. Our total expenses for the nine months ended September 30, 2025 and 2024 are net of expenses allocated to the External Investment Manager of \$17.0 million and \$16.8 million, respectively.

The total contribution of the External Investment Manager to our net investment income consists of the combination of the expenses allocated to the External Investment Manager and the dividend income earned from the External Investment Manager. For the three months ended September 30, 2025 and 2024, dividends accrued by us from the External Investment Manager were \$3.0 million and \$2.6 million, respectively. For the three months ended September 30, 2025 and 2024, the total contribution of the External Investment Manager to our net investment income was \$8.8 million and \$7.9 million, respectively. For the nine months ended September 30, 2025 and 2024, dividends accrued by us from the External Investment Manager were \$8.4 million and \$8.9 million, respectively. For the nine months ended September 30, 2025 and 2024, the total contribution of the External Investment Manager to our net investment income was \$25.4 million and \$25.6 million, respectively.

We have received an exemptive order from the SEC permitting co-investments among us, MSC Income and other advisory clients of the External Investment Manager in certain negotiated transactions where co-investing would otherwise be prohibited under the 1940 Act. We have made co-investments with, and in the future intend to continue to make co-investments with MSC Income, Private Loan Fund I, Private Loan Fund II and other advisory clients of the External Investment Manager, in accordance with the conditions of the order. The order requires, among other things, that we and the External Investment Manager consider whether each such investment opportunity is appropriate for us and the External Investment Manager's advised clients, as applicable, and if it is appropriate, to propose an allocation of the investment opportunity between such parties. Because the External Investment Manager may earn performance-based fee compensation from its advisory clients, this may provide the Company and the External Investment Manager an incentive to allocate opportunities to advisory clients instead of us. However, both we and the External Investment Manager have policies and procedures in place to manage this conflict, including approval of investment allocations and oversight of co-investments by the independent members of our Board of Directors. In addition to the co-investment program described above, we also co-invest in certain investment transactions where price is the only negotiated point by us and our affiliates.

INVESTMENT PORTFOLIO SUMMARY

The following tables provide a summary of our investments in the LMM and Private Loan portfolios as of September 30, 2025 and December 31, 2024 (this information excludes Middle Market, Other Portfolio investments and the External Investment Manager, which are discussed further below).

	As of September 30, 2025			
	LMM (a)		Private Loan	
	(dollars in millions)			
Number of portfolio companies	88		86	
Fair value	\$	2,782.2	\$	1,886.5
Cost	\$	2,167.5	\$	1,898.3
Debt investments as a % of portfolio (at cost)	70.7 %		94.0 %	
Equity investments as a % of portfolio (at cost)	29.3 %		6.0 %	
% of debt investments at cost secured by first priority lien	99.3 %		99.9 %	
Weighted-average annual effective yield (b)	12.7 %		11.1 %	
Average EBITDA (c)	\$	10.3	\$	34.3

(a) As of September 30, 2025, we had equity ownership in all of our LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was 38%.

(b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments as of September 30, 2025, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status, and are weighted based upon the principal amount of each applicable debt investment as of September 30, 2025. The weighted-average annual effective yield on our debt portfolio as of September 30, 2025, including debt investments on non-accrual status, was 12.1% for our LMM portfolio and 10.1% for our Private Loan portfolio. The weighted-average annual effective yield is not reflective of what an investor in shares of our common stock will realize on its investment because it does not reflect changes in the market value of our stock, our utilization of debt capital in our capital structure, our expenses or any sales load paid by an investor.

[Table of contents](#)

- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the Private Loan portfolio. These calculations exclude certain portfolio companies, including five LMM portfolio companies and six Private Loan portfolio companies, as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate and those portfolio companies whose primary operations have ceased and only residual value remains.

	As of December 31, 2024			
	LMM (a)		Private Loan	
	(dollars in millions)			
Number of portfolio companies		84		91
Fair value	\$	2,502.9	\$	1,904.3
Cost	\$	1,937.8	\$	1,952.5
Debt investments as a % of portfolio (at cost)		70.8 %		95.4 %
Equity investments as a % of portfolio (at cost)		29.2 %		4.6 %
% of debt investments at cost secured by first priority lien		99.2 %		99.9 %
Weighted-average annual effective yield (b)		12.8 %		11.8 %
Average EBITDA (c)	\$	10.2	\$	30.5

- (a) As of December 31, 2024, we had equity ownership in all of our LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was 38%.

- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments as of December 31, 2024, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status, and are weighted based upon the principal amount of each applicable debt investment as of December 31, 2024. The weighted-average annual effective yield on our debt portfolio as of December 31, 2024, including debt investments on non-accrual status, was 12.3% for our LMM portfolio and 11.5% for our Private Loan portfolio. The weighted-average annual effective yield is not reflective of what an investor in shares of our common stock will realize on its investment because it does not reflect changes in the market value of our stock, our utilization of debt capital in our capital structure, our expenses or any sales load paid by an investor.

- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the Private Loan portfolio. These calculations exclude certain portfolio companies, including five LMM portfolio companies and five Private Loan portfolio companies, as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate and those portfolio companies whose primary operations have ceased and only residual value remains.

For the three months ended September 30, 2025 and 2024, we achieved an annualized total return on investments of 16.9% and 17.7%, respectively. For the nine months ended September 30, 2025 and 2024, we achieved an annualized total return on investments of 16.4% and 16.7%, respectively. For the year ended December 31, 2024, we achieved a total return on investments of 17.9%. Total return on investments is calculated using the interest, dividend and fee income, as well as the realized and unrealized change in fair value of the Investment Portfolio for the specified period. Our total return on investments is not reflective of what an investor in shares of our common stock will realize on its investment because it does not reflect changes in the market value of our stock, our utilization of debt capital in our capital structure, our expenses or any sales load paid by an investor.

As of September 30, 2025, we had Other Portfolio investments in 32 entities, spread across 12 investment managers, collectively totaling \$122.8 million in fair value and \$130.9 million in cost basis, which comprised 2.4% and 3.0% of our Investment Portfolio at fair value and cost, respectively. As of December 31, 2024, we had Other Portfolio investments in 31 entities, spread across 12 investment managers, collectively totaling \$124.1 million in fair value and \$122.5 million in cost basis, which comprised 2.5% and 2.9% of our Investment Portfolio at fair value and cost, respectively.

As of September 30, 2025, we had Middle Market portfolio investments in 11 portfolio companies, collectively totaling \$89.9 million in fair value and \$119.8 million in cost basis, which comprised 1.7% and 2.8% of our Investment Portfolio at fair value and cost, respectively. As of December 31, 2024, we had Middle Market portfolio investments in 15 portfolio companies, collectively totaling \$155.3 million in fair value and \$195.0 million in cost basis, which comprised 3.1% and 4.6% of our Investment Portfolio at fair value and cost, respectively.

As previously discussed in *Note A.1. — Organization and Basis of Presentation — Organization* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q, we hold an investment in the External Investment Manager, a wholly-owned subsidiary that is treated as a portfolio investment. As of September 30, 2025, this investment had a fair value of \$266.4 million and a cost basis of \$29.5 million, which comprised 5.2% and 0.7% of our Investment Portfolio at fair value and cost, respectively. As of December 31, 2024, this investment had a fair value of \$246.0 million and a cost basis of \$29.5 million, which comprised 5.0% and 0.7% of our Investment Portfolio at fair value and cost, respectively.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements and related disclosures in conformity with generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. Critical accounting policies are those that require management to make subjective or complex judgments about the effect of matters that are inherently uncertain and may change in subsequent periods. Changes that may be required in the underlying assumptions or estimates in these areas could have a material impact on our current and future financial condition and results of operations.

Management has discussed the development and selection of each critical accounting policy and estimate with the Audit Committee of the Board of Directors. Our critical accounting policies and estimates include the Investment Portfolio Valuation and Revenue Recognition policies described below. Our significant accounting policies are described in greater detail in *Note B — Summary of Significant Accounting Policies* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q.

Investment Portfolio Valuation

The most significant determination inherent in the preparation of our consolidated financial statements is the valuation of our Investment Portfolio and the related amounts of unrealized appreciation and depreciation. We consider this determination to be a critical accounting estimate, given the significant judgments and subjective measurements required. As of September 30, 2025 and December 31, 2024, our Investment Portfolio valued at fair value represented 97% and 96%, respectively, of our total assets. We are required to report our investments at fair value. We follow the provisions of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures* (“ASC 820”). ASC 820 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. ASC 820 requires us to assume that the portfolio investment is to be sold in the principal market to independent market participants, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal market that are independent, knowledgeable and willing and able to transact. See *Note B.1. — Summary of Significant Accounting Policies — Valuation of the Investment Portfolio* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q for a detailed discussion of our Investment Portfolio valuation process and procedures.

Due to the inherent uncertainty in the valuation process, our determination of fair value for our Investment Portfolio may differ materially from the values that would have been determined had a ready market for the securities existed. In addition, changes in the market environment, portfolio company performance and other events that may occur over the lives of the investments may cause the gains or losses ultimately realized on these investments to be materially different than the valuations currently assigned. We determine the fair value of each individual investment and record changes in fair value as unrealized appreciation or depreciation.

Rule 2a-5 under the 1940 Act permits a BDC’s board of directors to designate its executive officers or investment adviser as a valuation designee to determine the fair value for its investment portfolio, subject to the active oversight of the board. Our Board of Directors has approved policies and procedures pursuant to Rule 2a-5 (the “Valuation Procedures”) and has designated a group of our executive officers to serve as the Board of Directors’ valuation designee. We believe our Investment Portfolio as of September 30, 2025 and December 31, 2024 approximates fair value as of those dates based on the markets in which we operate and other conditions in existence on those reporting dates.

Revenue Recognition

Interest and Dividend Income

We record interest and dividend income on the accrual basis to the extent amounts are expected to be collected. Dividend income is recorded as dividends are declared by the portfolio company or at the point an obligation exists for the portfolio company to make a distribution. We evaluate accrued interest and dividend income periodically for collectability. When a loan or debt security becomes 90 days or more past due, and if we otherwise do not expect the debtor to be able to service its debt obligation, we will generally place the loan or debt security on non-accrual status and cease recognizing interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding the debtor's ability to service the debt obligation, or if a loan or debt security is sold or written off, we remove it from non-accrual status.

Fee Income

We may periodically provide services, including structuring and advisory services, to our portfolio companies or other third parties. For services that are separately identifiable and evidence exists to substantiate fair value, fee income is recognized as earned, which is generally when the investment or other applicable transaction closes. Fees received in connection with debt financing transactions for services that do not meet these criteria are treated as debt origination fees and are generally deferred and accreted into income over the life of the financing.

Payment-in-Kind ("PIK") Interest and Cumulative Dividends

We hold certain debt and preferred equity instruments in our Investment Portfolio that contain PIK interest and cumulative dividend provisions. The PIK interest, computed at the contractual rate specified in each debt agreement, is periodically added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment. Cumulative dividends are recorded as dividend income, and any dividends in arrears are added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred equity is redeemed or sold. To maintain RIC tax treatment (as discussed in *Note B.10. — Summary of Significant Accounting Policies — Income Taxes* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q), these non-cash sources of income may need to be paid out to stockholders in the form of distributions, even though we may not have collected the PIK interest and cumulative dividends in cash. We stop accruing PIK interest and cumulative dividends and write off any accrued and uncollected interest and dividends in arrears when we determine that such PIK interest and dividends in arrears are no longer collectible. For the three months ended September 30, 2025 and 2024, (i) 3.0% and 4.4%, respectively, of our total investment income was attributable to PIK interest income not paid currently in cash and (ii) 0.7% and 0.5%, respectively, of our total investment income was attributable to cumulative dividend income not paid currently in cash. For the nine months ended September 30, 2025 and 2024, (i) 2.7% and 3.8%, respectively, of our total investment income was attributable to PIK interest income not paid currently in cash and (ii) 0.7% and 0.4%, respectively, of our total investment income was attributable to cumulative dividend income not paid currently in cash.

INVESTMENT PORTFOLIO COMPOSITION

The following tables summarize the composition of our total combined LMM, Private Loan and Middle Market portfolio investments at cost and fair value by type of investment as a percentage of the total combined LMM, Private Loan and Middle Market portfolio investments as of September 30, 2025 and December 31, 2024 (this information excludes Other Portfolio investments and the External Investment Manager, which are discussed above).

Cost:	September 30, 2025	December 31, 2024
First lien debt	81.0 %	82.9 %
Equity	18.4	16.4
Second lien debt	0.1	0.2
Equity warrants	0.3	0.3
Other	0.2	0.2
	<u>100.0 %</u>	<u>100.0 %</u>

Fair Value:	September 30, 2025	December 31, 2024
First lien debt	69.2 %	71.4 %
Equity	29.9	27.8
Second lien debt	0.1	0.2
Equity warrants	0.6	0.4
Other	0.2	0.2
	<u>100.0 %</u>	<u>100.0 %</u>

Our LMM, Private Loan and Middle Market portfolio investments carry a number of risks including: (1) investing in companies which may have limited operating histories and financial resources; (2) holding investments that generally are not publicly traded and which may be subject to legal and other restrictions on resale; and (3) other risks common to investing in below investment-grade debt and equity investments in our Investment Portfolio. Please see *Item 1A. Risk Factors* contained in Part II of this Form 10-Q for further information.

PORTFOLIO ASSET QUALITY

We utilize an internally developed investment rating system to rate the performance of each LMM, Private Loan and Middle Market portfolio company and to monitor our expected level of returns on each of our LMM, Private Loan and Middle Market investments in relation to our expectations for the portfolio company. The investment rating system takes into consideration various factors, including, but not limited to, each investment's expected level of returns, the collectability of our debt investments and the ability to receive a return of the invested capital in our equity investments, comparisons to competitors and other industry participants, the portfolio company's future outlook and other factors that are deemed to be significant to the portfolio company.

As of September 30, 2025, investments on non-accrual status comprised 1.2% of our total Investment Portfolio at fair value and 3.6% at cost. As of December 31, 2024, investments on non-accrual status comprised 0.9% of our total Investment Portfolio at fair value and 3.5% at cost.

The operating results of our portfolio companies are impacted by changes in the broader fundamentals of the United States economy. In periods during which the United States economy contracts, it is likely that the financial results of small to mid-sized companies, like those in which we invest, could experience deterioration or limited growth from current levels, which could ultimately lead to difficulty in meeting their debt service requirements, to an increase in defaults on our debt investments or in realized losses on our investments and to difficulty in maintaining historical dividend payment rates and unrealized appreciation on our equity investments. Consequently, we can provide no assurance that the performance of certain portfolio companies will not be negatively impacted by future economic cycles or other conditions, which could also have a negative impact on our future results.

DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS
Comparison of the three months ended September 30, 2025 and 2024

Set forth below is a comparison of the results of operations, and a reconciliation of net investment income to distributable net investment income and to distributable net investment income before taxes, for the three months ended September 30, 2025 and 2024. All prior period net investment income, net investment income per share, distributable net investment income and distributable net investment income per share amounts presented in this section have been retrospectively adjusted to conform to the current presentation. See *Note A.3. — Organization and Basis of Presentation — Revisions to the Presentation of Previously Issued Financial Statements* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q for additional details on these adjustments.

	Three Months Ended September 30,		Net Change	
	2025	2024	Amount	%
	(in thousands)			
Total investment income	\$ 139,831	\$ 136,824	\$ 3,007	2 %
Total expenses	(50,316)	(49,228)	(1,088)	2 %
Net investment income before taxes	89,515	87,596	1,919	2 %
Excise tax expense	(838)	(458)	(380)	83 %
Federal and state income and other tax expenses	(2,139)	(2,758)	619	(22)%
Net investment income	86,538	84,380	2,158	3 %
Net realized gain (loss)	(19,104)	26,382	(45,486)	NM
Net unrealized appreciation	62,978	21,738	41,240	NM
Income tax provision on net realized gain (loss) and net unrealized appreciation	(6,741)	(8,493)	1,752	NM
Net increase in net assets resulting from operations	\$ 123,671	\$ 124,007	\$ (336)	— %

	Three Months Ended September 30,		Net Change	
	2025	2024	Amount	%
	(in thousands, except per share amounts)			
Net investment income	\$ 86,538	\$ 84,380	\$ 2,158	3 %
Share-based compensation expense	5,433	4,868	565	12 %
Deferred compensation expense	734	509	225	NM
Distributable net investment income (a)	\$ 92,705	\$ 89,757	\$ 2,948	3 %
Excise tax expense	838	458	380	83 %
Federal and state income and other tax expenses	2,139	2,758	(619)	(22)%
Distributable net investment income before taxes (b)	\$ 95,682	\$ 92,973	\$ 2,709	3 %
Net investment income per share—Basic and diluted	\$ 0.97	\$ 0.96	\$ 0.01	1 %
Distributable net investment income per share—Basic and diluted (a)	\$ 1.03	\$ 1.03	\$ —	— %
Distributable net investment income before taxes per share—Basic and diluted (b)	\$ 1.07	\$ 1.06	\$ 0.01	1 %

NM — Net Change % not meaningful

- (a) Distributable net investment income is net investment income as determined in accordance with U.S. GAAP, excluding the impact of share-based compensation expense and deferred compensation expense or benefit. We believe presenting distributable net investment income and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since share-based compensation does not require settlement in cash and deferred compensation expense or benefit does not result in a net cash impact to Main Street upon settlement. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing our financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income is detailed in the table above.

- (b) Distributable net investment income before taxes is net investment income as determined in accordance with U.S. GAAP, excluding the impact of share-based compensation expense, deferred compensation expense or benefit and any tax expenses included in net investment income. We believe presenting distributable net investment income before taxes and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since share-based compensation does not require settlement in cash and deferred compensation expense or benefit does not result in a net cash impact to Main Street upon settlement, and since tax expenses included in net investment income may include excise tax expense, which is not solely attributable to net investment income, and deferred taxes, which are not payable in the current period. However, distributable net investment income before taxes is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income, net investment income before taxes or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing our financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income before taxes is detailed in the table above.

Investment Income

Total investment income for the three months ended September 30, 2025 was \$139.8 million, a 2% increase from the \$136.8 million of total investment income for the corresponding period of 2024. The following table provides a summary of the changes in the comparable period activity.

	Three Months Ended September 30,		Net Change	
	2025	2024	Amount	%
(in thousands)				
Interest income	\$ 103,286	\$ 110,551	\$ (7,265)	(7)% (a)
Dividend income	31,263	23,239	8,024	35 % (b)
Fee income	5,282	3,034	2,248	74 % (c)
Total investment income	\$ 139,831	\$ 136,824	\$ 3,007	2 % (d)

- (a) The decrease in interest income was principally attributable to (i) a decrease in interest rates, primarily resulting from decreases in benchmark index interest rates on floating rate Investment Portfolio debt investments and decreases in interest rate spreads on existing Investment Portfolio debt investments and (ii) an increase in investments on non-accrual status, partially offset by higher average levels of income producing Investment Portfolio debt investments.
- (b) The increase in dividend income was primarily a result of dividend income increases of (i) \$6.6 million from our LMM portfolio companies, (ii) \$0.7 million from our Other Portfolio investments and (iii) \$0.5 million from our External Investment Manager.
- (c) The increase in fee income was primarily due to a \$1.4 million increase in fees related to increased investment activity and a \$0.9 million increase from the refinancing and prepayment of Investment Portfolio debt investments.
- (d) The increase in total investment income includes a net increase of \$2.1 million in certain income considered less consistent or non-recurring, including (i) a \$0.9 million increase in such fee income, (ii) a \$0.6 million increase in such dividend income and (iii) a \$0.6 million increase in such interest income from accelerated prepayment, repricing and other activity related to certain Investment Portfolio debt investments.

Expenses

Total expenses for the three months ended September 30, 2025 were \$50.3 million, a 2% increase from the \$49.2 million in the corresponding period of 2024. The following table provides a summary of the changes in the comparable period activity.

	Three Months Ended September 30,		Net Change	
	2025	2024	Amount	%
	(in thousands)			
Cash compensation	\$ 12,483	\$ 11,135	\$ 1,348	12 % (a)
Deferred compensation plan expense	734	509	225	NM
Compensation	13,217	11,644	1,573	14 %
General and administrative	4,928	4,564	364	8 %
Interest	32,472	33,474	(1,002)	(3)% (b)
Share-based compensation	5,433	4,868	565	12 % (c)
Gross expenses	56,050	54,550	1,500	3 %
Expenses allocated to the External Investment Manager	(5,734)	(5,322)	(412)	8 %
Total expenses	\$ 50,316	\$ 49,228	\$ 1,088	2 %

NM — Net Change % not meaningful

- (a) The increase in cash compensation was primarily attributable to (i) increased incentive compensation accruals, (ii) increased base compensation rates and (iii) increased headcount to support our growing Investment Portfolio and asset management activities.
- (b) The decrease in interest expense was primarily related to a decreased weighted-average interest rate on our Credit Facilities (as defined in the *Liquidity and Capital Resources* section below) due to decreases in benchmark index interest rates and decreases to the applicable margin rates resulting from the amendments of our Credit Facilities in April 2025, partially offset by an increase in average borrowings outstanding used to fund a portion of the growth of our Investment Portfolio.
- (c) The increase in share-based compensation expense was primarily attributable to incentive compensation awards issued in April 2025.

Net Investment Income

Net investment income for the three months ended September 30, 2025 increased 3% to \$86.5 million, or \$0.97 per share, compared to net investment income of \$84.4 million, or \$0.96 per share, in the corresponding period of 2024. The increase in net investment income is the result of the total investment income increase, partially offset by the total expenses increase, each as discussed above. The increase in net investment income per share reflects the increase in net investment income after the impact of the increase in weighted-average shares outstanding for the three months ended September 30, 2025, primarily due to shares issued since the beginning of the comparable period of the prior year through our (i) at-the-market program (“ATM Program”), (ii) dividend reinvestment and direct stock purchase plan (“DRIP”) and (iii) equity incentive plans. The increase in net investment income on a per share basis also includes a \$0.02 per share increase in investment income considered less consistent or non-recurring in nature.

Distributable Net Investment Income

Distributable net investment income for the three months ended September 30, 2025 increased 3% to \$92.7 million, or \$1.03 per share, compared to \$89.8 million, or \$1.03 per share, in the corresponding period of 2024. The increase in distributable net investment income was primarily due to (i) the increase in net investment income as discussed above and (ii) an increase in share-based compensation expense. The increase in distributable net investment income per share reflects the impact of the increase in weighted-average shares outstanding for the three months ended September 30, 2025, as discussed above. Distributable net investment income on a per share basis also includes a \$0.02 per share increase in investment income considered less consistent or non-recurring in nature.

Net Realized Loss

The following table provides a summary of the primary components of the total net realized loss on investments of \$19.1 million for the three months ended September 30, 2025.

	Three Months Ended September 30, 2025							
	Full Exits		Partial Exits		Restructures		Other (a)	Total
	Net Gain/(Loss)	# of Investments	Net Gain/(Loss)	# of Investments	Net Gain/(Loss)	# of Investments	Net Gain/(Loss)	Net Gain/(Loss)
	(in thousands)							
LMM portfolio	\$ (4,186)	3	\$ —	—	\$ —	—	\$ 231	\$ (3,955)
Private Loan portfolio	—	—	—	—	(15,784)	2	4	(15,780)
Middle Market portfolio	—	—	—	—	—	—	4	4
Other Portfolio	—	—	629	1	—	—	(2)	627
Total net realized gain/(loss)	\$ (4,186)	3	\$ 629	1	\$ (15,784)	2	\$ 237	\$ (19,104)

(a) Other activity includes realized gains and losses from transactions involving seven portfolio companies which are not considered to be significant individually or in the aggregate.

Net Unrealized Appreciation

The following table provides a summary of the total net unrealized appreciation of \$63.0 million for the three months ended September 30, 2025.

	Three Months Ended September 30, 2025				
	LMM (a)	Private Loan	Middle Market	Other	Total
	(in thousands)				
Accounting reversals of net unrealized (appreciation) depreciation recognized in prior periods due to net realized (gains / income) losses recognized during the current period	\$ 3,247	\$ 13,672	\$ —	\$ (627)	\$ 16,292
Net unrealized appreciation (depreciation) relating to portfolio investments	47,577	13,092	(4,383)	(9,600) (b)	46,686
Total net unrealized appreciation (depreciation) relating to portfolio investments	\$ 50,824	\$ 26,764	\$ (4,383)	\$ (10,227)	\$ 62,978

(a) Includes unrealized appreciation on 42 LMM portfolio investments and unrealized depreciation on 17 LMM portfolio investments.

(b) Includes \$6.3 million of unrealized depreciation related to the External Investment Manager.

Income Taxes

Main Street's income taxes include excise tax expense at MSCC and federal and state income and other tax expenses at the Taxable Subsidiaries. MSCC has elected to be treated for U.S. federal income tax purposes as a RIC. MSCC's taxable income includes the taxable income generated by MSCC and certain of its subsidiaries, including the Funds and Structured Subsidiaries, which are treated as disregarded entities for tax purposes. As a result of its investment activities and dividend policy and activities, MSCC incurs federal excise tax on its estimated undistributed taxable income. The Taxable Subsidiaries incur federal and state income and other taxes related to net investment income resulting from the Taxable Subsidiaries' investment activities. The excise tax expense increase is due to changes in our estimated undistributed taxable income at the RIC, which is taxed at a 4% rate. The net investment income related federal and state income and other tax expenses decrease is due to decreases in taxable net investment income at the Taxable Subsidiaries.

The Taxable Subsidiaries also incur taxes on realized gains (losses) and unrealized appreciation (depreciation). These taxes will change over time due to changes in the valuations of portfolio investments and realized gains and losses, in each case, on our investments owned by the Taxable Subsidiaries.

Net Increase in Net Assets Resulting from Operations

The net increase in net assets resulting from operations for the three months ended September 30, 2025 was \$123.7 million, or \$1.38 per share, compared to \$124.0 million, or \$1.42 per share, during the three months ended September 30, 2024. The tables above provide a summary of the reasons for the change in net increase in net assets resulting from operations for the three months ended September 30, 2025 as compared to the three months ended September 30, 2024.

Comparison of the nine months ended September 30, 2025 and 2024

Set forth below is a comparison of the results of operations, and a reconciliation of net investment income to distributable net investment income and distributable net investment income before taxes, for the nine months ended September 30, 2025 and 2024. All prior period net investment income, net investment income per share, distributable net investment income and distributable net investment income per share amounts presented in this section have been retrospectively adjusted to conform to the current presentation. See Note A.3. — Organization and Basis of Presentation — Revisions to the Presentation of Previously Issued Financial Statements in the notes to the consolidated financial statements included in Item 1. Consolidated Financial Statements of this Quarterly Report on Form 10-Q for additional details on these adjustments.

	Nine Months Ended September 30,		Net Change	
	2025	2024	Amount	%
	(in thousands)			
Total investment income	\$ 420,850	\$ 400,586	\$ 20,264	5 %

Distributable net investment income before taxes per share—Basic and diluted (b)	\$ 3.25	\$ 3.24	\$ 0.01	— %

NM — Net change % not meaningful

- (a) Distributable net investment income is net investment income as determined in accordance with U.S. GAAP, excluding the impacts of share-based compensation expense and deferred compensation expense or benefit. We believe presenting distributable net investment income and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since share-based compensation does not require settlement in cash and deferred compensation expense or benefit does not result in a net cash impact to Main Street upon settlement. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing our financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income is detailed in the table above.

(b) Distributable net investment income before taxes is net investment income as determined in accordance with U.S. GAAP, excluding the impact of share-based compensation expense, deferred compensation expense or benefit and any tax expenses included in net investment income. We believe presenting distributable net investment income before taxes and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since share-based compensation does not require settlement in cash and deferred compensation expense or benefit does not result in a net cash impact to Main Street upon settlement, and since tax expenses included in net investment income may include excise tax expense, which is not solely attributable to net investment income, and deferred taxes, which are not payable in the current period. However, distributable net investment income before taxes is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income, net investment income before taxes or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing our financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income before taxes is detailed in the table above.

Investment Income

Total investment income for the nine months ended September 30, 2025 was \$420.9 million, a 5% increase from the \$400.6 million of total investment income for the corresponding period of 2024. The following table provides a summary of the changes in the comparable period activity.

	Nine Months Ended September 30,		Net Change	
	2025	2024	Amount	%
(in thousands)				
Interest income	\$ 302,160	\$ 310,690	\$ (8,530)	(3)% (a)
Dividend income	105,134	72,718	32,416	45 % (b)
Fee income	13,556	17,178	(3,622)	(21)% (c)
Total investment income	<u>\$ 420,850</u>	<u>\$ 400,586</u>	<u>\$ 20,264</u>	5 % (d)

- (a) The decrease in interest income was primarily attributable to (i) an increase in investments on non-accrual status and (ii) a decrease in interest rates, primarily resulting from decreases in benchmark index interest rates on floating rate Investment Portfolio debt investments and decreases in interest rate spreads on existing Investment Portfolio debt investments, partially offset by higher average levels of income producing Investment Portfolio debt investments.
- (b) The increase in dividend income was primarily a result of (i) an increase of \$31.2 million in dividend income from our LMM portfolio companies and (ii) an increase \$2.1 million in dividend income from our Private Loan portfolio companies, partially offset by a decrease of \$0.5 million in dividend income from our External Investment Manager.
- (c) The decrease in fee income was primarily related to (i) a \$3.1 million decrease from lower exit, prepayment and amendment activity and (ii) a \$0.5 million decrease in fees related to decreased investment activity.
- (d) The increase in total investment income includes consistent levels of certain income considered less consistent or non-recurring compared to the corresponding period of 2024, including a \$3.3 million decrease in such fee income, offset by (i) a \$2.5 million increase in such dividend income and (ii) a \$0.8 million increase in such interest income from accelerated prepayment, repricing and other activity related to certain Investment Portfolio debt investments.

Expenses

Total expenses for the nine months ended September 30, 2025 were \$148.2 million, a 9% increase from the \$135.9 million in the corresponding period of 2024. The following table provides a summary of the changes in the comparable period activity.

	Nine Months Ended September 30,		Net Change	
	2025	2024	Amount	%
	(in thousands)			
Cash compensation	\$ 35,711	\$ 34,151	\$ 1,560	5 % (a)
Deferred compensation plan expense	1,659	1,074	585	NM
Compensation	37,370	35,225	2,145	6 %
General and administrative	15,933	14,159	1,774	13 % (b)
Interest	96,159	89,411	6,748	8 % (c)
Share-based compensation	15,691	13,853	1,838	13 % (d)
Gross expenses	165,153	152,648	12,505	8 %
Expenses allocated to the External Investment Manager	(16,962)	(16,768)	(194)	1 %
Total expenses	\$ 148,191	\$ 135,880	\$ 12,311	9 %

- (a) The increase in cash compensation was primarily attributable to (i) increased base compensation rates and (ii) increased headcount to support our growing Investment Portfolio and asset management activities.
- (b) The increase in general and administrative expense was primarily attributable to increased expenses related to business development activities.
- (c) The increase in interest expense was primarily related to (i) an increase in average borrowings outstanding used to fund a portion of the growth of our Investment Portfolio and (ii) an increased weighted-average interest rate on our debt obligations resulting from the issuance of the March 2029 Notes and the June 2027 Notes and the repayment at maturity of the May 2024 Notes (each as defined in the *Liquidity and Capital Resources* section below), partially offset by a decreased weighted-average interest rate on our Credit Facilities due to decreases in benchmark index interest rates and a decrease to the applicable margin rates resulting from the amendments of our Credit Facilities in April 2025.
- (d) The increase in share-based compensation expense was primarily attributable to incentive compensation awards issued in April 2025.

Net Investment Income

Net investment income for the nine months ended September 30, 2025 increased 2% to \$260.6 million, or \$2.92 per share, compared to net investment income of \$254.7 million, or \$2.95 per share, for the corresponding period of 2024. The increase in net investment income is the result of the total investment income increase, partially offset by the total expenses increase, each as discussed above. The decrease in net investment income per share reflects the increase in net investment income after the impact of the increase in weighted-average shares outstanding for the nine months ended September 30, 2025, primarily due to shares issued through our (i) ATM Program, (ii) DRIP and (iii) equity incentive plans, in each case since the beginning of the comparable period of the prior year. The decrease in net investment income on a per share basis includes a \$0.01 per share decrease in investment income considered less consistent or non-recurring in nature.

Distributable Net Investment Income

Distributable net investment income for the nine months ended September 30, 2025 increased 3% to \$278.0 million, or \$3.12 per share, compared with \$269.6 million, or \$3.13 per share, in the corresponding period of 2024. The increase in distributable net investment income was primarily due to (i) the increase in net investment income as discussed above, (ii) an increase in share-based compensation expense and (iii) an increase in deferred compensation expense. The decrease in distributable net investment income per share reflects the increase in distributable net investment income after the impact of the increase in weighted-average shares outstanding for the nine months ended September 30, 2025, as discussed above. The decrease in distributable net investment income on a per share basis includes a \$0.01 per share decrease in investment income considered less consistent or non-recurring in nature.

Net Realized Gain

The following table provides a summary of the primary components of the total net realized gain on investments of \$3.8 million for the nine months ended September 30, 2025.

	Nine Months Ended September 30, 2025							
	Full Exits		Partial Exits		Restructures		Other (a)	Total
	Net Gain/(Loss)	# of Investments	Net Gain/(Loss)	# of Investments	Net Gain/(Loss)	# of Investments	Net Gain/(Loss)	Net Gain/(Loss)
	(dollars in thousands)							
LMM portfolio	\$ 51,461	4	\$ —	—	\$ —	—	\$ 270	\$ 51,731
Private Loan portfolio	2,459	4	(163)	2	(37,237)	5	(148)	(35,089)
Middle Market portfolio	(16,264)	1	(1,156)	2	(3,442)	1	835	(20,027)
Other Portfolio	—	—	6,796	2	—	—	585	7,381
Short-term portfolio	—	—	—	—	—	—	(225)	(225)
Total net realized gain (loss)	\$ 37,656	9	\$ 5,477	6	\$ (40,679)	6	\$ 1,317	\$ 3,771

(a) Other activity includes realized gains and losses from transactions involving 19 portfolio companies which are not considered to be significant individually or in the aggregate.

Net Unrealized Appreciation

The following table provides a summary of the total net unrealized appreciation of \$107.2 million for the nine months ended September 30, 2025.

	Nine Months Ended September 30, 2025				
	LMM (a)	Private Loan	Middle Market	Other	Total
	(in thousands)				
Accounting reversals of net unrealized (appreciation) depreciation recognized in prior periods due to net realized (gains / income) losses recognized during the current period	\$ (54,109)	\$ 30,315	\$ 20,696	\$ (7,381)	\$ (10,479)
Net unrealized appreciation (depreciation) relating to portfolio investments	103,720	5,111	(10,816)	19,681 (b)	117,696
Total net unrealized appreciation relating to portfolio investments	\$ 49,611	\$ 35,426	\$ 9,880	\$ 12,300	\$ 107,217

(a) Includes unrealized appreciation on 48 LMM portfolio investments and unrealized depreciation on 28 LMM portfolio investments.

(b) Includes \$20.4 million of unrealized appreciation relating to the External Investment Manager.

Income Taxes

Main Street's income taxes include excise tax expense at MSCC and federal and state income and other tax expenses at the Taxable Subsidiaries. MSCC has elected to be treated for U.S. federal income tax purposes as a RIC. MSCC's taxable income includes the taxable income generated by MSCC and certain of its subsidiaries, including the Funds and Structured Subsidiaries, which are treated as disregarded entities for tax purposes. As a result of its investment activities and dividend policy and activities, MSCC incurs federal excise tax on its estimated undistributed taxable income. The Taxable Subsidiaries incur federal and state income and other taxes related to net investment income resulting from the Taxable Subsidiaries' investment activities. The excise tax expense increase is due to changes in our estimated undistributed taxable income at the RIC, which is taxed at a 4% rate. The net investment income related federal and state income and other tax expenses increase is due to increases in taxable net investment income at the Taxable Subsidiaries.

The Taxable Subsidiaries also incur taxes on realized gains (losses) and unrealized appreciation (depreciation). These taxes will change over time due to changes in the valuations of portfolio investments and realized gains and losses, in each case, on our investments owned by the Taxable Subsidiaries.

Net Increase in Net Assets Resulting from Operations

The net increase in net assets resulting from operations for the nine months ended September 30, 2025 was \$362.3 million, or \$4.06 per share, compared with \$333.8 million, or \$3.87 per share, during the nine months ended September 30, 2024. The tables above provide a summary of the reasons for the change in net increase in net assets resulting from operations for the nine months ended September 30, 2025 as compared to the nine months ended September 30, 2024.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

For the nine months ended September 30, 2025, we realized a net decrease in cash and cash equivalents of \$47.7 million, which is the net result of \$172.8 million of cash provided by our operating activities and \$220.4 million of cash used in our financing activities.

The \$172.8 million of cash provided by our operating activities resulted primarily from (i) cash proceeds totaling \$802.7 million from the sales and repayments of debt investments and sales and return of capital from equity investments and (ii) cash flows that we generated from the operating profits earned totaling \$252.4 million, which is our distributable net investment income, excluding the non-cash effects of the accretion of unearned income, PIK interest income, cumulative dividends and the amortization expense for deferred financing costs, partially offset by (i) cash uses totaling \$873.9 million for the funding of new and follow-on portfolio investments and (ii) \$6.6 million in cash uses related to other assets and liabilities.

The \$220.4 million of cash used in our financing activities principally consisted of (i) \$253.7 million in dividends paid to our stockholders, (ii) \$173.0 million in net repayments from our Credit Facilities, (iii) \$150.0 million on the repayment of December 2025 Notes (as defined below), (iv) \$10.0 million in purchases of vested stock for employee payroll tax withholdings and (v) \$6.6 million for the payment of deferred financing costs, partially offset by (i) \$350.0 million in cash proceeds from the issuance of the August 2028 Notes and (ii) \$22.9 million in net cash proceeds from equity offerings from our ATM Program.

Capital Resources

As of September 30, 2025, we had \$30.6 million in cash and cash equivalents and \$1.530 billion of unused capacity under our Credit Facilities (as defined below) which we maintain to support our investment and operating activities. As of September 30, 2025, our NAV totaled \$2.9 billion, or \$32.78 per share.

As of September 30, 2025, we had \$135.0 million outstanding and \$1,006.1 million of undrawn commitments under our floating rate multi-year revolving credit facility (the “Corporate Facility”), and we, through MSCC Funding, had \$76.0 million outstanding and \$524.0 million of undrawn commitments under our special purpose vehicle revolving credit facility (the “SPV Facility” and, together with the Corporate Facility, the “Credit Facilities”), both of which approximated fair value. Availability under our Credit Facilities is subject to certain leverage and borrowing base limitations, various covenants, reporting requirements and other customary requirements for similar credit facilities.

In April 2025, we entered into an amendment to our Corporate Facility to, among other things: (i) decrease the interest rate to the applicable Term Secured Overnight Financing Rate (“SOFR”) plus a credit spread adjustment of 0.10% plus (a) 1.775% prior to satisfying certain step-down conditions or (b) 1.65% after satisfying certain step-down conditions, (ii) increase the revolving commitments to \$1.145 billion, (iii) increase the accordion feature providing us with the right to request increases in commitments under the facility from new and existing lenders on the same terms and conditions as the existing commitments to up to a total of \$1.718 billion and (iv) extend the revolving period and final maturity date through April 2029 and to April 2030, respectively.

In April 2025, we entered into an amendment to our SPV Facility to, among other things: (i) decrease the interest rate to the applicable SOFR plus an applicable margin of (a) 1.95% during the revolving period (from 2.35%), (b) 2.075% for the first year following the end of the revolving period (from 2.475%) and (c) 2.20% for the second year following the end of the revolving period (from 2.60%), (ii) extend the revolving period from through September 2027 to through September 2028, (iii) extend the final maturity date from September 2029 to September 2030 and (iv) decrease the unused fee to 0.40% (from 0.50%) on the unused amount up to 50% (from 35%) of the commitment amount.

For further information on our Credit Facilities, including key terms and financial covenants, refer to *Note E — Debt* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q.

[Table of contents](#)

In January 2021, we issued \$300.0 million in aggregate principal amount of 3.00% unsecured notes due July 14, 2026 (the “July 2026 Notes”). In October 2021, we issued an additional \$200.0 million in aggregate principal amount of the July 2026 Notes. The outstanding aggregate principal amount of the July 2026 Notes was \$500.0 million as of both September 30, 2025 and December 31, 2024.

In June 2024, we issued \$300.0 million in aggregate principal amount of 6.50% unsecured notes due June 4, 2027 (the “June 2027 Notes”). In September 2024, we issued an additional \$100.0 million in aggregate principal amount of the June 2027 Notes at a public offering price of 102.134% resulting in a yield-to-maturity of 5.617% on such issuance. The June 2027 Notes issued in September 2024 have identical terms as, and are a part of a single series with, the June 2027 Notes issued in June 2024. The outstanding aggregate principal amount of the June 2027 Notes was \$400.0 million and bear interest at a rate of 6.50% per year with a yield-to-maturity of approximately 6.34% as of both September 30, 2025 and December 31, 2024.

In August 2025, we issued \$350.0 million in aggregate principal amount of 5.40% unsecured notes due August 15, 2028 (the “August 2028 Notes”). The outstanding aggregate principal amount of the August 2028 Notes was \$350.0 million as of September 30, 2025.

In January 2024, we issued \$350.0 million in aggregate principal amount of 6.95% unsecured notes due March 1, 2029 (the “March 2029 Notes”). The outstanding aggregate principal amount of the March 2029 Notes was \$350.0 million as of both September 30, 2025 and December 31, 2024.

Through the Funds, we have the ability to issue SBIC debentures guaranteed by the SBA at favorable interest rates and favorable terms and conditions. Under existing SBIC regulations, SBA-approved SBICs under common control have the ability to issue debentures guaranteed by the SBA up to a regulatory maximum amount of \$350.0 million. Under existing SBA-approved commitments, we had \$350.0 million of outstanding SBIC debentures guaranteed by the SBA as of September 30, 2025 through our wholly-owned SBICs, which bear a weighted-average annual fixed interest rate of 3.3%, paid semiannually, and mature ten years from issuance. The first maturity related to our SBIC debentures occurs in March 2027, and the weighted-average remaining duration is 4.9 years as of September 30, 2025. Debentures guaranteed by the SBA have fixed interest rates that equal prevailing 10-year Treasury Note rates plus a market spread and have a maturity of ten years with interest payable semiannually. The principal amount of the debentures is not required to be paid before maturity, but may be pre-paid at any time with no prepayment penalty. We expect to maintain SBIC debentures under the SBIC program in the future, subject to periodic repayments and borrowings, in an amount up to the regulatory maximum amount for affiliated SBIC funds.

In May 2024, we repaid the entire \$450.0 million principal amount of the issued and outstanding 5.20% unsecured notes (the “May 2024 Notes”).

In September 2025, we repaid the entire \$100.0 million principal amount of the issued and outstanding 7.84% unsecured notes and the entire \$50.0 million principal amount of the issued and outstanding 7.53% unsecured notes (collectively, the “December 2025 Notes”) prior to maturity at par value plus the accrued and unpaid interest.

We maintain the ATM Program with certain selling agents through which we can sell shares of our common stock by means of at-the-market offerings from time to time. During the nine months ended September 30, 2025, we sold 390,990 shares of our common stock at a weighted-average price of \$58.91 per share and raised \$23.0 million of gross proceeds under the ATM Program. Net proceeds were \$22.6 million after commissions to the selling agents on shares sold and offering costs. As of September 30, 2025, there were no share sales transactions that had not settled. In March 2025, we entered into new distribution agreements to sell up to 20,000,000 shares through the ATM Program. As of September 30, 2025, 19,680,372 shares remained available for sale under the ATM Program.

During the year ended December 31, 2024, we sold 2,489,275 shares of our common stock at a weighted-average price of \$49.75 per share and raised \$123.8 million of gross proceeds under the ATM Program. Net proceeds were \$122.2 million after commissions to the selling agents on shares sold and offering costs.

We anticipate that we will continue to fund our investment activities through existing cash and cash equivalents, cash flows generated through our ongoing operating activities, utilization of available borrowings under our Credit Facilities, and a combination of future issuances of debt and equity capital. Our primary uses of funds will be investments in portfolio companies, operating expenses, cash distributions to holders of our common stock and repayments of note and debenture obligations as they come due.

We periodically invest excess cash balances into marketable securities and short-term investments. The primary investment objective of marketable securities and short-term investments is to generate incremental cash returns on excess cash balances prior to utilizing those funds for investment in our LMM and Private Loan portfolio investments. Marketable securities generally consist of money market funds and certificates of deposit with financial institutions. Short-term portfolio investments consist primarily of investments in secured debt investments and independently rated debt investments.

If our common stock trades below our NAV per share, we will generally not be able to issue additional common stock at the market price, unless our stockholders approve such a sale and our Board of Directors makes certain determinations. We did not seek stockholder authorization to sell shares of our common stock below the then current NAV per share of our common stock at our 2025 Annual Meeting of Stockholders, and have not sought such authorization since 2012, because our common stock price per share has generally traded significantly above the NAV per share of our common stock since 2011. We would therefore need future approval from our stockholders to issue shares below the then current NAV per share.

In order to satisfy the Code requirements applicable to a RIC, we intend to distribute to our stockholders, after consideration and application of our ability under the Code to carry forward certain excess undistributed taxable income from one tax year into the next tax year, substantially all of our taxable income.

In accordance with the 1940 Act, we are allowed to borrow amounts such that our asset coverage ratio, or BDC asset coverage ratio, of our total assets to our total senior securities, which includes borrowings and any preferred stock we may issue in the future, is at least 150% after such borrowing. In January 2008, we received exemptive relief from the SEC to exclude SBA-guaranteed debt securities issued by the Funds and any other wholly-owned subsidiaries of ours which operate as SBICs from the BDC asset coverage ratio which, in turn, enables us to fund more investments with debt capital. Upon receipt of stockholder approval in accordance with the 1940 Act, our BDC asset coverage ratio was reduced from 200% to 150% effective May 3, 2022. As of September 30, 2025, our BDC asset coverage ratio was 261%.

Although we have been able to secure access to additional liquidity, including through our Credit Facilities, public and private debt issuances, leverage available through the SBIC program and equity offerings, there is no assurance that debt or equity capital will be available to us in the future on favorable terms, or at all.

Recently Issued or Adopted Accounting Standards

From time to time, new accounting pronouncements are issued by the FASB or other standards setting bodies that are adopted by us as of the specified effective date. We believe that the impact of recently issued standards and any that are not yet effective will not have a material impact on our consolidated financial statements upon adoption. For a description of recently issued or adopted accounting standards, see *Note B.15. — Summary of Significant Accounting Policies — Recently Issued or Adopted Accounting Standards* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q.

Inflation

Inflation has not historically had a significant effect on our results of operations in any of the reporting periods presented herein. However, our portfolio companies have experienced, specifically including over the last few years, as a result of recent geopolitical events, uncertainty with respect to the imposition of tariffs on and trade disputes with certain countries, supply chain and labor issues, and may continue to experience, the increasing impacts of inflation on their operating results, including periodic escalations in their costs for labor, raw materials and third-party services and required energy consumption. These issues and challenges related to inflation are receiving significant attention from our investment teams and the management teams of our portfolio companies as we work to manage these growing challenges. Prolonged or more severe impacts of inflation to our portfolio companies could continue to affect their operating profits and, thereby, increase their borrowing costs, and as a result negatively impact their ability to service their debt obligations and/or reduce their available cash for distributions. In addition, these factors could have a negative effect on the fair value of our investments in these portfolio companies. The combined impacts therefrom in turn could negatively affect our results of operations.

Off-Balance Sheet Arrangements

We may be a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our portfolio companies. These instruments include commitments to extend credit and fund equity capital and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the Consolidated Balance Sheets. As of September 30, 2025, we had a total of \$298.6 million in outstanding commitments comprised of (i) 75 investments with commitments to fund revolving loans that had not been fully drawn or term loans with additional commitments not yet funded and (ii) 11 investments with equity capital commitments that had not been fully called.

Contractual Obligations

As of September 30, 2025, the future commitments for cash payments in connection with our Credit Facilities, the July 2026 Notes, the June 2027 Notes, the August 2028 Notes, the March 2029 Notes, SBIC debentures and rent obligations under our office lease for each of the next five years and thereafter are as follows:

	2025	2026	2027	2028	2029	Thereafter	Total
	(in thousands)						
Corporate Facility (1)	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 135,000	\$ 135,000
SPV Facility (1)	—	—	—	—	—	76,000	76,000
July 2026 Notes	—	500,000	—	—	—	—	500,000
Interest due on July 2026 Notes	—	15,000	—	—	—	—	15,000
June 2027 Notes	—	—	400,000	—	—	—	400,000
Interest due on June 2027 Notes	13,000	26,000	13,000	—	—	—	52,000
August 2028 Notes	—	—	—	350,000	—	—	350,000
Interest due on August 2028 Notes	—	18,900	18,900	18,900	—	—	56,700
March 2029 Notes	—	—	—	—	350,000	—	350,000
Interest due on March 2029 Notes	—	24,325	24,325	24,325	12,163	—	85,138
SBIC debentures	—	—	75,000	75,000	—	200,000	350,000
Interest due on SBIC debentures	—	11,364	10,651	8,212	6,170	24,564	60,961
Operating Lease Obligation (2)	294	1,193	1,214	1,235	1,256	5,575	10,767
Total	\$ 13,294	\$ 596,782	\$ 543,090	\$ 477,672	\$ 369,589	\$ 441,139	\$ 2,441,566

(1) Future interest payments on our Credit Facilities have not been included, as these amounts fluctuate over time depending on the current interest rates and amounts outstanding.

(2) Operating Lease Obligation means a rent payment obligation under a lease classified as an operating lease and disclosed pursuant to ASC 842, as may be modified or supplemented.

Related Party Transactions and Agreements

We have entered into agreements and transactions with the External Investment Manager, MSC Income, Private Loan Fund I and Private Loan Fund II, whereby we have made debt and equity investments and receive certain fees, expense reimbursements and investment income. See *Note D — External Investment Manager* and *Note L — Related Party Transactions* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q for additional information regarding these related party transactions and agreements.

In addition, we have a deferred compensation plan, whereby non-employee directors and certain key employees may defer receipt of some or all of their fees and cash compensation, subject to certain limitations. See *Note L — Related Party Transactions* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q for additional information regarding the deferred compensation plan.

Recent Developments

In November 2025, we declared a supplemental dividend of \$0.30 per share payable in December 2025. This supplemental dividend is in addition to the previously announced regular monthly dividends that we declared of \$0.255 per share for each month of October, November and December 2025 or total regular monthly dividends of \$0.765 per share for the fourth quarter of 2025, resulting in total dividends declared for the fourth quarter of 2025 of \$1.065 per share.

In November 2025, we also declared regular monthly dividends of \$0.26 per share for each month of January, February and March of 2026. These regular monthly dividends equal a total of \$0.78 per share for the first quarter of 2026, representing a 4.0% increase from the regular monthly dividends paid in the first quarter of 2025. Including the regular monthly and supplemental dividends declared for the fourth quarter of 2025 and first quarter of 2026, we will have paid \$47.935 per share in cumulative dividends since our October 2007 initial public offering.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to financial market risks, including changes in interest rates, and changes in interest rates may affect both our interest expense on the debt outstanding under our Credit Facilities and our interest income from portfolio investments. Our risk management systems and procedures are designed to identify and analyze our risk, to set appropriate policies and limits and to continually monitor these risks. Our investment income will be affected by changes in various interest rate indices, including SOFR and Prime rates, to the extent that any debt investments include floating interest rates. See *Risk Factors — Risks Related to our Business and Structure — We are subject to risks associated with the interest rate environment and changes in interest rates will affect our cost of capital, net investment income and the value of our investments.* and *Risk Factors — Risks Related to Leverage — Because we borrow money, the potential for gain or loss on amounts invested in us is magnified and may increase the risk of investing in us.* included in our [Annual Report on Form 10-K for the fiscal year ended December 31, 2024](#) for more information regarding risks associated with our debt investments and borrowings that utilize SOFR or Prime as a reference rate.

The majority of our debt investments are made with either fixed interest rates or floating rates that are subject to contractual minimum interest rates for the term of the investment. As of September 30, 2025, 64% of our debt Investment Portfolio (at cost) bore interest at floating rates, 96% of which were subject to contractual minimum interest rates. As of September 30, 2025, 90% of our debt obligations bore interest at fixed rates. Our interest expense will be affected by changes in the published SOFR in connection with our Credit Facilities; however, the interest rates on our outstanding July 2026 Notes, June 2027 Notes, August 2028 Notes, March 2029 Notes and SBIC debentures, which collectively comprise the majority of our outstanding debt, are fixed for the life of such debt. As of September 30, 2025, we had not entered into any interest rate hedging arrangements. Due to our limited use of derivatives, we have claimed an exclusion from the definition of the term “commodity pool operator” under the Commodity Exchange Act and, therefore, are not subject to registration or regulation as a pool operator under such Act. The Company expects to operate as a “limited derivatives user” under Rule 18f-4 under the 1940 Act. In addition, the investment management and other services provided by our External Investment Manager also involve floating rate debt investments and floating rate debt obligations, and as a result the incentive fees earned by our External Investment Manager, and the corresponding benefits to our net investment income contributions from our External Investment Manager, are subject to change based upon any changes in floating benchmark index interest rates.

The following table shows the approximate annualized increase or decrease in the components of net investment income due to hypothetical base rate changes in interest rates, assuming no changes in our investments and borrowings, or in the investments and borrowings related to the investment management and other services provided by our External Investment Manager, in both cases as of September 30, 2025.

Basis Point Change	Increase (Decrease) in Interest Income	(Increase) Decrease in Interest Expense	Increase (Decrease) in Net Investment Income from the External Investment Manager (1)	Increase (Decrease) in Net Investment Income	Increase (Decrease) in Net Investment Income per Share
(dollars in thousands, except per share amounts)					
(200)	\$ (42,668)	\$ 4,220	\$ (992)	\$ (39,440)	\$ (0.44)
(175)	(37,359)	3,693	(869)	(34,535)	(0.39)
(150)	(32,011)	3,165	(745)	(29,591)	(0.33)
(125)	(26,662)	2,638	(620)	(24,644)	(0.28)
(100)	(21,314)	2,110	(495)	(19,699)	(0.22)
(75)	(15,965)	1,583	(370)	(14,752)	(0.16)
(50)	(10,616)	1,055	(245)	(9,806)	(0.11)
(25)	(5,279)	528	(121)	(4,872)	(0.05)
25	5,027	(528)	118	4,617	0.05
50	10,137	(1,055)	235	9,317	0.10
75	15,246	(1,583)	353	14,016	0.16
100	20,355	(2,110)	471	18,716	0.21
125	25,471	(2,638)	725	23,558	0.26
150	30,587	(3,165)	844	28,266	0.32
175	35,703	(3,693)	962	32,972	0.37
200	40,819	(4,220)	1,080	37,679	0.42

(1) Main Street's total contribution from the External Investment Manager is based on the performance of assets managed by the External Investment Manager (as discussed in *Note D — External Investment Manager* in the notes to the consolidated financial statements included in *Item 1. Consolidated Financial Statements* of this Quarterly Report on Form 10-Q), and any related cost of debt obligations related to such managed assets, which may fluctuate depending on changes in interest rates.

Although we believe that this analysis is indicative of the impact of interest rate changes to our net investment income as of September 30, 2025, the analysis does not take into consideration future changes in the credit market, credit quality or other business or economic developments that could affect our net investment income. Accordingly, we can offer no assurances that actual results would not differ materially from the analysis above. The hypothetical results assume that all SOFR and Prime rate changes would be effective on the first day of the period. However, the contractual SOFR and Prime rate reset dates would vary throughout the period. The majority of our investments, and the investments managed by our External Investment Manager, are based on contracts which reset quarterly, while our Credit Facilities, and the debt obligations related to the assets managed by our External Investment Manager, reset monthly. The hypothetical results would also be impacted by the changes in the amount of outstanding debt under our Credit Facilities (with an increase (decrease) in the debt outstanding under the Credit Facilities resulting in an (increase) decrease in the hypothetical interest expense).

Item 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this quarterly report on Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer, President, Chief Financial Officer, General Counsel and Chief Accounting Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Exchange Act). Based on that evaluation, our Chief Executive Officer, President, Chief Financial Officer, General Counsel and Chief Accounting Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to us that is required to be disclosed in the reports we file or submit under the Exchange Act. There have been no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise. Furthermore, third parties may seek to impose liability on us in connection with the activities of our portfolio companies. While the outcome of any current legal proceedings cannot at this time be predicted with certainty, we do not expect any current matters will materially affect our financial condition or results of operations; however, there can be no assurance whether any pending or future legal proceedings will have a material adverse effect on our financial condition or results of operations in any future reporting period.

Item 1A. RISK FACTORS

You should carefully consider the risks described below and all other information contained in this Quarterly Report on Form 10-Q, including our interim consolidated financial statements and the related notes thereto, before making a decision to purchase our securities. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may have a material adverse effect on our business, financial condition and/or operating results, as well as the market price of our securities.

In addition to the other information set forth in this report, you should carefully consider the risk factors described in *Item 1A. Risk Factors* in our Annual Report on Form 10-K for the fiscal year ended December 31, 2024 that we filed with the SEC on February 28, 2025 and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2025 that we filed with the SEC on May 9, 2025, which could materially affect our business, financial condition and/or operating results.

There are no material changes to the risk factors as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2024 and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2025.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended September 30, 2025, we issued 146,971 shares of our common stock under our DRIP. These issuances were not subject to the registration requirements of the Securities Act of 1933, as amended. The aggregate value of the shares of common stock issued during the three months ended September 30, 2025 under our DRIP was \$9.6 million.

Upon vesting of restricted stock awarded pursuant to our employee equity compensation plan, shares may be withheld to meet applicable tax withholding requirements. Any withheld shares are treated as common stock purchases by the Company in our consolidated financial statements as they reduce the number of shares received by employees upon vesting (see “Purchase of vested stock for employee payroll tax withholding” in the Consolidated Statements of Changes in Net Assets for share amounts withheld).

Item 5. OTHER INFORMATION

Rule 10b5-1 Trading Plans

During the fiscal quarter ended September 30, 2025, none of our directors or officers adopted or terminated any contract, instruction or written plans for the purchase or sale of our securities to satisfy the affirmative defense conditions of Exchange Act Rule 10b5-1(c) or any “non-Rule 10b5-1 trading arrangement.”

Item 6. EXHIBITS

Listed below are the exhibits which are filed as part of this report (according to the number assigned to them in Item 601 of Regulation S-K):

Exhibit Number	Description of Exhibit
4.1	Eighth Supplemental Indenture, dated August 15, 2025, between Main Street Capital Corporation and The Bank of New York Mellon Trust Company, N.A., as trustee (previously filed as Exhibit 4.1 to Main Street Capital Corporation's Current Report on Form 8-K filed on August 15, 2025 (File No. 814-00746)).
4.2	Form of 5.40% Notes due 2028 (contained in the Eighth Supplemental Indenture incorporated by reference as Exhibit 4.1 hereto).
31.1*	Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.
31.2*	Certification of Chief Financial Officer Pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.
32.1**	Certification of Chief Executive Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
32.2**	Certification of Chief Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
101*	The following financial information from our Quarterly Report on Form 10-Q for the third quarter of fiscal year 2025, filed with the SEC on November 7, 2025, formatted in Inline Extensible Business Reporting Language (iXBRL): (i) the Consolidated Balance Sheets as of September 30, 2025 and December 31, 2024, (ii) the Consolidated Statements of Operations for the three and nine months ended September 30, 2025 and 2024, (iii) the Consolidated Statements of Changes in Net Assets for the three and nine months ended September 30, 2025 and 2024, (iv) the Consolidated Statements of Cash Flows for the nine months ended September 30, 2025 and 2024, (v) the Consolidated Schedule of Investments for the periods ended September 30, 2025 and December 31, 2024, (vi) the Notes to Consolidated Financial Statements and (vii) the Consolidated Schedule 12-14 for the nine months ended September 30, 2025 and 2024.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Main Street Capital Corporation

Date: November 7, 2025	<hr/> <p>/s/ DWAYNE L. HYZAK Dwayne L. Hyzak <i>Chief Executive Officer</i> <i>(principal executive officer)</i></p>
Date: November 7, 2025	<hr/> <p>/s/ RYAN R. NELSON Ryan R. Nelson <i>Chief Financial Officer</i> <i>(principal financial officer)</i></p>
Date: November 7, 2025	<hr/> <p>/s/ RYAN H. MCHUGH Ryan H. McHugh <i>Chief Accounting Officer</i> <i>(principal accounting officer)</i></p>

**CERTIFICATION PURSUANT TO
RULE 13a-14(a) and 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS AMENDED**

I, Dwayne L. Hyzak, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2025 of Main Street Capital Corporation (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.

Dated this November 7, 2025.
